Please refer to the section "Subscription and Sale" in the Programme of the Issuer for more details.

Risk Disclosures

Credit Risk

By acquiring the product, the investor takes a credit risk on the Issuer. In the case of an insolvency of the Issuer, secured liabilities of the Issuer will have priority over unsecured obligations such as these Notes. Any stated credit rating of the Issuer reflects the independent opinion of the referenced rating agency as to the creditworthiness of the rated entity but is not a guarantee of credit quality of the Issuer. Any downgrade of the credit ratings of the Issuer or its parent or affiliates, by any rating agency could result in a reduction in the value of the Notes. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the Issuer the payment of sums due under the Notes may be substantially reduced and/or delayed, and investors may lose up to 100% of their initial investment in such cases.

Market Risk

The notes can be volatile instruments and may be subject to considerable fluctuations in value. The value of the Notes may fall as rapidly as it may rise due to numerous factors, including, but not limited to, inflation outlook. The value of the Notes may increase or decrease throughout their tenor.

Liquidity Risk

Investors should be prepared to hold their Notes until maturity as investors may not be able to liquidate or sell some or all of the Notes as and when they require or at an amount equal to or more than the Denomination per Note. There is currently no active or liquid secondary trading market for these Notes and they are not traded on any regulated markets or listed on any exchange. There can be no assurance that anyone intends to make a market in the Notes, or that if anyone does so, that they will continue to do so, or that a market-maker in the Notes (if any) will offer an amount equal to or greater than the Denomination of the Notes, or that if a market-maker does offer a price for the Notes which is equal to or greater than the Denomination, that it will continue to do so. There can be no assurance that any Noteholder will be able to obtain a firm bid price for the Notes for an amount at which they wish to sell. Therefore, these Notes may not be marketable and as such may not be able to be liquidated or sold before maturity, or if liquidated/sold, may only realise an amount that is at a significant discount to the Denomination paid by the Investor.

Liquidity on these investments is relatively less than similar grade non-structured bonds. A purchase of the Notes should be viewed as a "hold until maturity" investment. Investors are strongly discouraged from using this investment for speculative opportunities.

In addition, the transfer of the Notes can only be made in accordance with the relevant transfer and selling restrictions set out in the Programme relating to the Notes. This may further limit the liquidity of the Notes.

Early Redemption Risk

The Issuer may early redeem the Notes prior to the Maturity Date upon notice to Noteholders under a variety of conditions and/or circumstances (including but not limited to early redemption for tax/regulatory reasons) set forth in the Programme. If the Issuer early redeems the Notes under any of the conditions or circumstances permitted as specified in the Programme, such redemption may be at a value which may be lower than the Denomination. There may be other conditions that affect the value of the Notes under the Programme.

Investors should refer to the Programme of the Issuer together with the applicable Final Terms of the Notes for more details.

Secondary Market Risk

In case investors want to sell their Notes prior to the Maturity Date, the secondary market bid price, which reflects the market value of the Notes, may be substantially less than the Denomination.

Possible Conflicts of Interest Risk

Investors should ensure that they understand and accept the identities of the parties and the roles they play in relation to the Notes, as disclosed in the Programme. For example, the Issuer, and certain named agents (e.g. the Calculation Agent/Paying Agent) may be the same or affiliated corporate entities, although performing different functions in respect of the issue of the Notes and the structure underlying them. In particular, in their respective roles, the Issuer or the various named agents may retain various powers of discretion which may have a material impact on the value and performance of the Notes. Such discretions may create conflicts of interest due to the capacities in which the Issuer or the agents are acting and these discretions may be exercised (or not be exercised) in a way that could adversely affect the Noteholders.

Leverage risk

Borrowing capital to fund the purchase of the Notes (leveraging) can significantly increase the risks of the investment such that if the value of the Notes decreases on a mark to market basis, leveraging will magnify that decrease in value. Any statement on the potential risks and return on the Notes does not take into account the effect of any leveraging. Investors must factor in and consider the potential impact of, amongst other things, the cost of funding and possibility of margin calls due to a decrease in the daily mark to market value of the Notes prior to their maturity. Investors considering borrowing capital to leverage their investment in the Notes should obtain further detailed information as to the applicable risks from their lender.

SG is not and will not be responsible to anyone other than its clients for providing the protections afforded to the clients of SG or for providing advice in relation to the arrangements, services or transactions referred to in this document.

GLOBAL COORDINATOR

Maybank Kim Eng Securities Pte. Ltd ("**MKES**") is a Global Coordinator for the offering. MKES shall not be involved in the subscription, sale or distribution of the Notes to investors. It has represented and agreed that it has not offered, sold or re-sold and will not offer, sell, or re-sell, directly or indirectly, any Notes as part of the offering.

LISTING APPLICATION

This Pricing Supplement comprises the pricing supplement required to list the issue of Notes described herein pursuant to the U.S.\$15,000,000,000 Multicurrency Medium Term Note Programme of Malayan Banking Berhad.

ROC TAXATION

The following summary of certain taxation provisions under ROC law is based on current law and practice and that the Notes will be issued, offered, sold and re-sold, directly or indirectly, to professional investors as defined under Paragraph 1 of Article 2-1 of the Taipei Exchange Rules Governing Management of Foreign Currency Denominated International Bonds of the ROC only. It does not purport to be comprehensive and does not constitute legal or tax advice. Investors (particularly those subject to special tax rules, such as banks, dealers, insurance companies and tax-exempt entities) should consult with their own tax advisers regarding the tax consequences of an investment in the Notes.

Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below. Investors should consult their professional advisers on the possible tax consequences of subscribing for, purchasing, holding or selling the Notes.

Interest on the Notes

As the Issuer of the Notes is not an ROC statutory tax withholder, there is no ROC withholding tax on the interest or deemed interest to be paid by the Issuer on the Notes.

Payments of any interest or deemed interest under the Notes to an ROC individual holder are not subject to ROC income tax as such payments received by him/her are not

considered to be ROC sourced income. However, such holder must include the interests or deemed interests received in calculating his/her basic income for the purpose of calculating his/her alternative minimum tax ("**AMT**"), unless the sum of the interests or deemed interests and other non-ROC sourced income received by such holder and the person(s) who is (are) required to jointly file the ROC income tax return in a calendar year is below 1 million New Taiwan Dollars ("**NT\$**"). If the amount of the AMT exceeds the annual income tax calculated pursuant to the ROC Income Basic Tax Act (also known as the AMT Act), the excess becomes such holder's AMT payable.

ROC corporate holders must include any interest or deemed interest receivable under the Notes as part of their taxable income and pay income tax at a flat rate of 20 per cent. (unless the total taxable income for a fiscal year is NT\$ 120,000 or under), as they are subject to income tax on their worldwide income on an accrual basis. The AMT is not applicable.

Sale of the Notes

In general, the sale of corporate bonds or financial bonds is subject to 0.1 per cent. securities transaction tax (the "**STT**") on the transaction price. However, Article 2-1 of the ROC Securities Transaction Tax Act prescribes that STT will cease to be levied on the sale of corporate bonds and financial bonds from 1 January 2010 to 31 December 2026. Therefore, the sale of the Notes will be exempt from STT if the sale is conducted on or before 31 December 2026. Starting from 1 January 2027, any sale of the Notes will be subject to STT at 0.1 per cent. of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are exempt from ROC income tax. Accordingly, ROC individual or corporate holders are not subject to ROC income tax on any capital gains generated from the sale of the Notes. In addition, ROC individual holders are not subject to AMT on any capital gains generated from the sale of the Notes. However, ROC corporate holders should include such capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the annual income tax calculated pursuant to the ROC Income Basic Tax Act, the excess becomes the ROC corporate holders' AMT payable. Capital losses, if any, incurred from the sale of the Notes by such holders could be carried over 5 years to offset against capital gains of same category for the purposes of calculating their AMT.

Non-ROC corporate holders with a fixed place of business (e.g., a branch) or a business agent in the ROC are not subject to income tax on any capital gains generated from the sale of the Notes. However, their fixed place of business or business agent should include any such capital gains in calculating their basic income for the purpose of calculating AMT.

As to non-ROC corporate holders without a fixed place of business and a business agent in the ROC, they are not subject to income tax or AMT on any capital gains generated from the sale of the Notes.

ROC SETTLEMENT AND TRADING

Initial subscription of the Notes by investors will be settled directly through Euroclear Bank SA/NV (the "**Euroclear**") or Clearstream Banking S.A. (the "**Clearstream, Luxembourg**"). In order to purchase the Notes, an investor must have an account with Euroclear or Clearstream, Luxembourg and settle the Notes through such account with Euroclear or Clearstream, Luxembourg. For any ROC investor having its own account with Euroclear or Clearstream, Luxembourg, the distributions of principal and/or interest for the Notes to such holders will be made to its own account with Euroclear or Clearstream, Luxembourg.

As of the date of this Pricing Supplement, the Issuer has not entered into any settlement agreement with the Taiwan Depository & Clearing Corporation (the "**TDCC**") and has no intention to do so. In the future, if the Issuer enters into a settlement agreement with TDCC, an investor, if it has a securities book-entry account with an ROC securities broker and a foreign currency deposit account with an ROC bank, may settle the Notes through the account of TDCC with Euroclear or Clearstream, Luxembourg if it applies to TDCC (by filling in a prescribed form) to transfer the Notes in its own account with Euroclear or Clearstream, Luxembourg to such TDCC account with Euroclear or Clearstream, Luxembourg for trading in the domestic market or vice versa for trading in overseas markets. For settlement through TDCC, TDCC will allocate the respective Notes position to the securities book-entry account designated by such investor in the ROC. The Notes will be traded and settled

pursuant to the applicable rules and operating procedures of TDCC and the TPEX as domestic bonds. For such investors who hold their interest in the Notes through an account opened and held by TDCC with Euroclear or Clearstream, Luxembourg, distributions of principal and/or interest for the Notes to such holders may be made by payment services banks whose systems are connected to TDCC to the foreign currency deposit accounts of the holders. Such payment is expected to be made on the second Taiwanese business day following TDCC's receipt of such payment (due to time difference, the payment is expected to be received by TDCC one Taiwanese business day after the distribution date). However, when the holders will actually receive such distributions may vary depending upon the daily operations of the ROC banks with which the holder has the foreign currency deposit account.

On 14 May 2012, Malayan Banking Berhad (the "Issuer" or the "Bank") established its U.S.\$5,000,000,000 Multicurrency Medium Term Note Programme. On 15 April 2016, the Bank increased the principal amount of the Programme (as defined below) to U.S.\$15,000,000,000. The Programme is amended as at the date of this Offering Circular and this Offering Circular supersedes all previous offering circulars and any supplements thereto. Notes (as defined below) issued under the Programme on or after the date of this Offering Circular are issued subject to the provisions described herein. The provisions described herein do not affect any Notes issued under the Programme prior to the date of this Offering Circular.

Under this U.S.\$15,000,000,000 Multicurrency Medium Term Note Programme (the "Programme"), the Issuer (either directly or acting through its Hong Kong Branch or its Singapore Branch or any other branch, in each case, as may be specified in the applicable Pricing Supplement (as defined below) from time to time), subject to compliance with all relevant laws, regulations and directives, may from time to time issue notes (the "Notes"), which expression shall include Notes (i) issued on an unsubordinated basis as described in Condition 3.1 ("Senior Notes"), (ii) issued on a subordinated basis which rank on any Winding-Up of the Bank as described in Condition 3.2 ("Subordinated Notes") and (iii) issued on a subordinated basis which rank on any Winding-Up of the Bank as described on Condition 3.3 ("AT1 Notes"). Notes may be issued with a maturity of one year or more or on a perpetual basis, in any currency agreed between the Issuer and the relevant Dealer (as defined below).

Notes may be issued in bearer or registered form (respectively "Bearer Notes" and "Registered Notes"). The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed U.S.\$15,000,000,000 (or its equivalent in other currencies calculated as described in "General Description of the Programme"), subject to increase as described herein.

The Notes may be issued by the Issuer on a continuing basis to investors directly, or to one or more of the dealers under the Programme from time to time (each a "Dealer" and together the "Dealers"), which appointment may be for a specific issue or on an ongoing basis. References in this Offering Circular to the "relevant Dealer" shall, in the case of an issue of Notes being (or intended to be) subscribed for by more than one Dealer, be to all Dealers agreeing to subscribe for such Notes. With effect from the date of this Offering Circular Maybank Kim Eng Securities Pte. Ltd. and Maybank Investment Bank Berhad have each been appointed as Dealers on an ongoing basis.

An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks see "Investment Considerations".

Application has been made to the Singapore Exchange Securities Trading Limited (the "SGX-ST") for permission to deal in and for the listing and quotation of any Notes to be issued which are agreed at or prior to the time of issue to be listed on the SGX-ST. The applicable pricing supplement in respect of any issue of Notes (a "Pricing Supplement") will specify whether or not such Notes will be listed on the SGX-ST or any other stock exchange. There is no guarantee that an application to the SGX-ST will be approved. Such permission will be granted when such Notes have been admitted to the Official List of the SGX-ST. Admission of the Notes to the Official List of the SGX-ST is not to be taken as an indication of the merits of the Issuer, the Group (as defined herein), the Programme or such Notes. The SGX-ST assumes no responsibility for the correctness of any statements made or opinions expressed herein.

(the "LFX") for the listing of, and permission to deal in, any Notes that may be issued under the Programme but there can be no assurance that such listings will occur on or prior to the date of issue of such Notes or at all. The LFX assumes no responsibility for the correctness of any of the statements made or opinions or reports contained in this Offering Circular, makes no representations as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon any part of the contents of this Offering Circular. Investors are advised to read and understand the contents of this Offering Circular before investing. If in doubt, the investor should consult his or her adviser. Admission to the Official List of the LFX is not to be taken as an indication of the merits of the Issuer, the Programme or the Notes.

Application will be made by the Issuer to the Taipei Exchange ("TPEX") in the Republic of China ("Taiwan"/"ROC") for permission to deal in and for the listing of any Notes which are agreed at the time of issue thereof to be so listed on the TPEX. Such permission is expected to be granted and become effective from the scheduled issue date. TPEX is not responsible for the content of this document and the Offering Circular and any amendment and supplement thereto and no representation is made by TPEX to the accuracy or completeness of this document and the Offering Circular and any amendment and supplement thereto. TPEX expressly disclaims any and all liability for any losses arising from, or as a result of the reliance on, all or part of the contents of this document and the Offering Circular and any amendment and supplement thereto. In addition to the above, the Programme has also been admitted for the listing of the Notes on Tokyo Stock Exchange Inc. ("TSE") in its capacity as the market operator of the TOKYO PRO-BOND Market in accordance with the rules and regulations of TSE.

The Programme provides that Notes may be listed or admitted to trading, as the case may be, on such other or further stock exchanges or markets as may be agreed between the Issuer and the relevant Dealer. The Issuer may also issue unlisted Notes.

Each Tranche of Notes of each Series (as defined in "Terms and Conditions of the Notes") of Notes in bearer form will be represented on issue by a temporary global note in bearer form (each a "Temporary Bearer Global Note") or a permanent global note in bearer form (each a "Permanent Bearer Global Note"). In the case of Notes that are expressed in the applicable Pricing Supplement to be subject to the "D" Rules (as defined herein), interests in a Temporary Bearer Global Note will be exchangeable in whole or in part, for interests in a Permanent Bearer Global Note on or after the date 40 days after the later of the commencement of the offering and the relevant issue date (the "Exchange Date"), upon certification as to non-U.S. beneficial ownership. Notes in registered form will initially be represented by a global note in registered form (each a "Registered Global Note" and together with any Temporary Bearer Global Notes and Permanent Bearer Global Notes, the "Global Notes" and each a "Global Note"). Global Notes may be deposited on the issue date with a common depository for Euroclear Bank S.A./N.V. ("Euroclear") and Clearstream Banking S.A. ("Clearstream, Luxembourg").

See "Form of the Notes" for a description of the manner in which Notes will be issued. The Notes are subject to certain restrictions on transfer, see "Subscription and Sale".

The Issuer may agree with any Dealer that the Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes herein, in which event (in the case of Notes intended to be listed on the SGX-ST or TSE) a supplementary offering circular, if appropriate, will be made available which will describe the effect of the agreement reached in relation to such Notes.

Notes issued under the Programme may be rated or unrated. Where an issue of a certain Series of Notes is rated, such rating will not necessarily be the same as the ratings assigned to the Programme. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

The lodgement of this Offering Circular to the Securities Commission Malaysia in respect of the updates to the Programme will be made by Maybank Investment Bank Berhad as the Principal Adviser under the Programme.

Investors should be reminded of the conversion risk with Renminbi products. In addition, there is a liquidity risk associated with Renminbi products, particularly if such investments do not have an active secondary market and their prices have large bid/offer spreads. Renminbi products are denominated and settled in Renminbi deliverable in Hong Kong, which represents a market which is different from that of Renminbi deliverable in the PRC (as defined below).

From time to time, in the ordinary course of business, the Arranger, the Dealers and their affiliates have provided advisory and investment banking services, and entered into other commercial transactions with the Issuer and its affiliates, including commercial banking services, for which customary compensation has been received. It is expected that the Arranger, the Dealers and their affiliates will continue to provide such services to, and enter into such transactions, with the Issuer and its affiliates in

the future. The Arranger, the Dealers or certain of their respective affiliates may purchase the Notes and be allocated Notes for asset management and/or proprietary purposes and not with a view to distribution.

This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Offering Circular and the offer or sale of Notes may be restricted by law in certain jurisdictions. None of the Issuer, the Arranger or the Dealers represents that this Offering Circular may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assumes any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, the Arranger or the Dealers which would permit a public offering of any Notes or distribution of this Offering Circular in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Offering Circular or any Notes may come must inform themselves about, and observe, any such restrictions on the distribution of this Offering Circular and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Offering Circular and the offer or sale of the Notes in the United States, the European Economic Area, the United Kingdom, Singapore, Japan, Taiwan, Malaysia and Hong Kong. See "*Subscription and Sale*".

Brexit: Although the United Kingdom ceased to be a member state of the European Union on 31 January 2020, the withdrawal agreement between the United Kingdom and the European Union under Article 50(2) of the Treaty on European Union provides that until at least 31 December 2020, subject to certain qualifications which are not relevant for the purposes of this Offering Circular (unless otherwise expressly provided), (1) EU law shall produce in respect of and in the United Kingdom the same legal effects as those which it produces within the European Union and its member states, and shall be interpreted and applied in accordance with the same methods and general principles as those applicable within the European Union, and (2) any reference to member states in EU law, including as implemented and applied by member states, shall be understood as including the United Kingdom. This agreement has been given effect in the law of the United Kingdom by the European Union (Withdrawal) Act 2018 as amended by the European Union (Withdrawal Agreement) Act 2020.

MiFID II product governance / target market - The Pricing Supplement in respect of any Notes may include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, "**MiFID II**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

IMPORTANT - EEA RETAIL and UK INVESTORS - If the Pricing Supplement in respect of any Notes includes a legend entitled "Prohibition of Sales to EEA and UK Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**") or the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of the Insurance Distribution Directive (EU) (2016/97) (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as

amended, the "**Prospectus Regulation**"). Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA or the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA or the UK may be unlawful under the PRIIPs Regulation.

This Offering Circular is not a prospectus for the purposes of the Prospectus Regulation. This Offering Circular has been prepared on the basis that all offers of the Notes will be made pursuant to an exemption under Article 1(4) of the Prospectus Regulation, as implemented in member states of the EEA and the UK, from the requirement to produce a prospectus for offers of the Notes.

THE NOTES ARE ONLY BEING OFFERED AND SOLD OUTSIDE THE UNITED STATES IN OFFSHORE TRANSACTIONS IN RELIANCE ON REGULATION S. FOR A DESCRIPTION OF CERTAIN RESTRICTIONS ON OFFERS AND SALES OF NOTES AND ON DISTRIBUTION OF THIS OFFERING CIRCULAR, SEE "*SUBSCRIPTION AND SALE*".

THE NOTES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE U.S. SECURITIES AND EXCHANGE COMMISSION, ANY STATE SECURITIES COMMISSION IN THE U.S. OR ANY OTHER U.S. REGULATORY AUTHORITY, NOR HAVE ANY OF THE FOREGOING AUTHORITIES PASSED UPON OR ENDORSED THE MERITS OF THE OFFERING OF NOTES OR THE ACCURACY OR THE ADEQUACY OF THIS OFFERING CIRCULAR. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

In accordance with the Capital Markets and Services Act 2007 of Malaysia (the "CMSA"), a copy of this Offering Circular will be lodged with the Securities Commission Malaysia (the "SC"), which takes no responsibility for its contents. The issue, offer or invitation in relation to the Notes in this Offering Circular or otherwise are subject to the fulfilment of various conditions precedent including without limitation, the approval from Bank Negara Malaysia ("BNM") in respect of Subordinated Notes and AT1 Notes. The Programme has been lodged with the SC pursuant to the Guidelines on Unlisted Capital Market Products under the Lodge and Launch Framework first issued on 9 March 2015 as amended from time to time. The recipient of this Offering Circular acknowledges and agrees that the lodgement with the SC shall not be taken to indicate that the SC recommends the subscription or purchase of the Notes. The SC shall not be liable for any non-disclosure on the part of the Issuer and assumes no responsibility for the correctness of any statements made or opinions or reports expressed in this Offering Circular.

BENCHMARKS REGULATION - Amounts payable under the Floating Rate Notes may be calculated by reference to LIBOR, EURIBOR, HIBOR, SIBOR and SOR (each as defined in the Terms and Conditions of the Notes), as specified in the applicable Pricing Supplement. As at the date of this Offering Circular, (i) the administrator of LIBOR, ICE Benchmark Administration Limited; and (ii) the administrator of EURIBOR, the European Money Markets Institute are included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of Regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmarks Regulation**"). As far as the Issuer is aware, the administrator of HIBOR, Treasury Markets Association, and the administrator of SIBOR and SOR, ABS Benchmarks Administration Co Pte Ltd, does not appear on the aforementioned register.

Under the rules of the SC, the following potential conflict of interest situations are to be disclosed to prospective investors.

In respect of Maybank Investment Bank Berhad's ("**Maybank IB**") appointment as the Principal Adviser and Dealer in respect of the Programme, there may be a potential conflict of interest situation as Maybank IB is a wholly-owned subsidiary of the Issuer. As such, Maybank IB and the Issuer are deemed to be related corporations under Malaysian law. Notwithstanding the aforementioned, Maybank IB, in relation to its roles as Principal Adviser and Dealer in respect of the Programme, has considered the factors involved and believes objectivity and independence in carrying out its role has been and/or will be maintained at all times for the following reasons:

- (i) the appointment of Messrs Adnan Sundra and Low as an external independent legal counsel to conduct a legal due diligence inquiry on the Issuer;
- (ii) Maybank IB is a licenced investment bank under the laws of Malaysia and its appointment as the Principal Adviser and Dealer in respect of the Programme is in the ordinary course of its business;

they have agreed to proceed with the appointment of Maybank IB as the Principal Adviser and Dealer in respect of the Programme.

There may be a potential conflict of interest situation as Maybank Kim Eng Securities Pte. Ltd. ("**Maybank Kim Eng**") is wholly-owned by Maybank Kim Eng Holdings Limited which in turn is a wholly-owned subsidiary of Maybank IB Holdings Sdn Bhd. The ultimate holding company of the aforementioned entities is the Issuer. As such, Maybank Kim Eng and the Issuer are related corporations.

Notwithstanding the aforementioned, Maybank Kim Eng, in its roles as the Arranger and Dealer in respect of the Programme, has considered the factors involved and believes objectivity and independence in carrying out its role has been and/or will be maintained at all times for the following reasons:

- (i) the appointment of Messrs Adnan Sundra & Low as an external independent legal counsel to conduct a legal due diligence inquiry on the Issuer;
- (ii) Maybank Kim Eng's appointment as the Arranger and Dealer is in the ordinary course of its business. The appointments are governed by various mandate letters, agreements and/or documents which set out the rights, duties and obligations of Maybank Kim Eng acting in such capacities;
- (iii) the conduct of Maybank Kim Eng is regulated by the Monetary Authority of Singapore under the Securities and Futures Act (Chapter 289) and Financial Advisers Act (Chapter 110) and as a member of Singapore Exchange Limited ("**SGX**"), Maybank Kim Eng is also subject to the rules of SGX;
- (iv) Maybank Kim Eng has in place its own internal controls and checks with regards to transactions involving its related corporations;
- (v) the Notes will be issued by way of private or public placement and in each case on a syndicated or non-syndicated basis, where pricing of the Notes will be market driven; and
- (vi) the Issuer and its Board have confirmed that they are aware of the above potential conflict of interest situation and that notwithstanding such potential conflict, they have agreed to proceed with the appointment of Maybank Kim Eng as the Arranger and Dealer of the Programme.

However, there is no assurance that the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager) will undertake any stabilisation action. Any stabilisation action or over-allotment may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. For the purpose of calculating the U.S. dollar equivalent of the aggregate nominal amount of Notes issued under the Programme from time to time:

- (a) the U.S. dollar equivalent of Notes denominated in another Specified Currency (as specified in the applicable Pricing Supplement in relation to the relevant Notes, described under "*Form of the Notes*") shall be determined, at the discretion of the Issuer, either as at the date on which agreement is reached for the issue of Notes or on the preceding day on which commercial banks and foreign exchange markets are open for business in Kuala Lumpur, in each case on the basis of the spot rate for the sale of the U.S. dollar against the purchase of such Specified Currency in the Malaysian foreign exchange market quoted by any leading international bank selected by the Issuer on the relevant day of calculation;
- (b) the U.S. dollar equivalent of Dual Currency Notes, Index Linked Notes and Partly Paid Notes (each as specified in the applicable Pricing Supplement in relation to the relevant Notes, described under "*Form of the Notes*") shall be calculated in the manner specified above by reference to the original nominal amount on issue of such Notes (in the case of Partly Paid Notes regardless of the subscription price paid); and

FORM OF THE NOTES

The Notes of each Series will be in either bearer form, with or without interest coupons attached, or registered form, without interest coupons attached.

Bearer Notes

Each Tranche of Bearer Notes will be in bearer form and will be initially issued in the form of a Temporary Bearer Global Note or, if so specified in the applicable Pricing Supplement, a Permanent Bearer Global Note which, in either case, will be delivered on or prior to the original issue date of the Tranche to either (i) a common depository (the "**Common Depository**") for, Euroclear and Clearstream, Luxembourg, (ii) a sub-custodian for the CMU Service or (iii) CDP.

Whilst any Bearer Note is represented by a Temporary Bearer Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made against presentation of the Temporary Bearer Global Note only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Bearer Note are not resident in the U.S. or persons who have purchased for resale to any person resident in the U.S., as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and/or the CMU Lodging and Paying Agent and/or CDP and (in the case of a Temporary Bearer Global Note delivered to a Common Depository for Euroclear and Clearstream, Luxembourg or CDP) Euroclear and/or Clearstream, Luxembourg and/or CDP, as applicable, has given a like certification (based on the certifications it has received) to the Paying Agent (as defined in "*Terms and Conditions of the Notes*"). On and after the date (the "**Exchange Date**") which is 40 days after a Temporary Global Note is issued, interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein either for (a) interests in a Permanent Bearer Global Note of the same Series or (b) definitive Bearer Notes of the same Series with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Pricing Supplement and subject, in the case of definitive Bearer Notes, to such notice period as is specified in the applicable Pricing Supplement), in each case against certification of beneficial ownership as described above unless such certification has already been given, provided that the purchasers in the U.S. will not be able to receive definitive Bearer Notes. The CMU Service may require that any such exchange for a Permanent Global Bearer Note is made in whole and not in part and in such event, no such exchange will be effected until all relevant account holders (as set out in a CMU Instrument Position Report or any other relevant notification supplied to the CMU Lodging and Paying Agent by the CMU Service) have so certified. The holder of a Temporary Bearer Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Bearer Global Note for an interest in a Permanent Bearer Global Note or for definitive Bearer Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Bearer Global Note will be made through Euroclear and/or Clearstream, Luxembourg, the CMU Service or CDP against presentation or surrender (as the case may be) of the Permanent Bearer Global Note without any requirement for certification.

The applicable Pricing Supplement will specify that a Permanent Bearer Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Bearer Notes with, where applicable, receipts, interest coupons and talons attached, upon either (a) not less than 60 days' written notice (i) in the case of Notes held by a Common Depository for Euroclear and Clearstream, Luxembourg, from Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) to the Fiscal Agent as described therein or (ii) in the case of Notes held through a sub-custodian for the CMU Service, from the relevant account holders therein to the CMU Lodging and Paying Agent as described therein or (b) only upon the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means that (i) an Event of Default (as defined in Condition 10) has occurred and is continuing, (ii) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have, or in the case of Notes cleared through the CMU Service, the CMU Service has been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or the relevant clearing system has announced an intention permanently to cease business or has in fact done so and no successor clearing system is

available, or, in the case of Notes cleared through CDP, the Issuer has been notified that CDP has closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or CDP has announced an intention to permanently cease business and no alternative clearing system is available, (iii) CDP has notified the Issuer that it is unable or unwilling to act as depository for the Notes and to continue performing its duties set out in the Master Depository Services Agreement dated 14 May 2012, as amended by the notification letter dated 15 April 2016, further amended by the supplemental master depository services agreement dated 25 April 2018, and as amended, varied or supplemented from time to time (the "**Master Depository Services Agreement**") and no alternative clearing system is available or (iv) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Bearer Notes represented by the Permanent Bearer Global Note. The Issuer will promptly give notice to Noteholders in accordance with Condition 14 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, (a) in the case of Notes held by CDP or a Common Depository for Euroclear and Clearstream, Luxembourg, CDP or Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Bearer Global Note) or, (b) in the case of Notes held through a sub-custodian for the CMU Service, the relevant account holders therein, may give notice to the Fiscal Agent or, as the case may be, the CMU Lodging and Paying Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iv) above, the Issuer may also give notice to the Fiscal Agent requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Fiscal Agent or, as the case may be, the CMU Lodging and Paying Agent.

The following legend will appear on all Bearer Notes, including any coupons, receipts and talons issued in accordance with TEFRA D:

"ANY U.S. PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE U.S. INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(J) AND 1287(A) OF THE UNITED STATES INTERNAL REVENUE CODE 1986 AS AMENDED AND THE REGULATIONS THEREUNDER."

The sections referred to provide that U.S. holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Notes, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes, receipts or interest coupons.

Notes which are represented by a Bearer Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear, Clearstream, Luxembourg, CDP or the CMU Service, as the case may be.

Registered Notes

The Registered Notes of each Tranche offered and sold in offshore transactions in reliance on Regulation S, which will be sold to persons outside the United States, will be represented by a global note in registered form (a "**Registered Global Note**", together with any Bearer Global Note, the "**Global Notes**"). Beneficial interests in a Registered Global Note may not be offered or sold within the United States and may not be held otherwise than through Euroclear, Clearstream, Luxembourg, CDP or the CMU Service.

Registered Global Notes will be deposited with a Common Depository for, and registered in the name of a common nominee of, Euroclear, Clearstream, Luxembourg and/or deposited with a sub-custodian for the CMU Service (if applicable) and/or CDP or its nominee, as specified in the applicable Pricing Supplement. Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Notes in fully registered form.

Payments of principal, interest or any other amount in respect of the Registered Global Notes will, in the absence of provision to the contrary, be made to the person shown on the Register (as defined in Condition 6.4) as the registered holder of the Registered Global Notes. None of the Issuer, the Fiscal Agent, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the

Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of Definitive Registered Notes will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 6.4) immediately preceding the due date for payment in the manner provided in that Condition.

Interests in a Registered Global Note will be exchangeable (free of charge), in whole but not in part, for Definitive Registered Notes without receipts, interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means that (i) an Event of Default has occurred and is continuing, (ii) the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have or, in the case of Notes cleared through the CMU Service, the CMU Service has been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any case, no successor or alternative clearing system is available, or, in the case of Notes cleared through CDP, the Issuer has been notified that CDP has closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or CDP has announced an intention to permanently cease business and no alternative clearing system is available, (iii) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Registered Global Notes in definitive form or (iv) CDP has notified the Issuer that it is unable or unwilling to act as depository for the Notes and to continue performing its duties set out in the Master Depository Services Agreement and no alternative clearing system is available. The Issuer will promptly give notice to Noteholders in accordance with Condition 14 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, (a) in the case of Notes registered in the name of CDP or a nominee for a Common Depository for Euroclear and Clearstream, Luxembourg, CDP or Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Registered Global Note) and/or, (b) in the case of Notes held through a sub-custodian for the CMU Service, the relevant account holders therein, may give notice to the Registrar or the CMU Lodging and Paying Agent, as the case may be, requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer may also give notice to the Registrar requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar or the CMU Lodging and Paying Agent, as the case may be.

Transfer of Interests

Interests in a Registered Global Note may, subject to compliance with all applicable restrictions, be transferable for Notes in definitive form or an interest in another Registered Global Note only in the Specified Denomination(s) set out in the applicable Pricing Supplement and only in accordance with the applicable rules and operating procedures for the time being of Euroclear, Clearstream, Luxembourg, CDP and the CMU Service, as the case may be.

General

Pursuant to the Agency Agreement (as defined under "*Terms and Conditions of the Notes*"), the Paying Agent or, as the case may be, the CMU Lodging and Paying Agent shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes, the Notes of such further Tranche shall be assigned a common code and ISIN and, where applicable, a CMU instrument number which are different from the common code, CMU instrument number and ISIN assigned to Notes of any other Tranche of the same Series until at least the expiry of the distribution compliance period (as defined in Regulation S under the Securities Act), if any, applicable to the Notes of such Tranche.

For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear and/or Clearstream, Luxembourg or the CMU Service or CDP, each person (other than Euroclear and/or Clearstream, Luxembourg or the CMU Service or CDP or its nominee) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg or the CMU Service or CDP as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document

issued by Euroclear and/or Clearstream, Luxembourg or the CMU Service or CDP as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes, save in the case of manifest error) shall be treated by the Issuer, the Fiscal Agent and their agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purposes the bearer of the relevant Bearer Global Note or the registered holder of the relevant Registered Global Note shall be treated by the Issuer, the Fiscal Agent and their agents as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions "**Noteholder**" and "**holder of Notes**" and related expressions shall be construed accordingly.

Any reference herein to Euroclear and/or Clearstream, Luxembourg and/or the CMU Service and/or CDP shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Pricing Supplement.

A Note may be accelerated by the holder thereof in certain circumstances described in Condition 10. In such circumstances, where any Note is still represented by a Global Note and the Global Note (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Notes and payment in full of the amount due has not been made in accordance with the provisions of the Global Note then the Global Note will become void at 8.00 p.m. (Kuala Lumpur time) on such day. At the same time, holders of interests in such Global Note credited to their accounts with Euroclear, Clearstream, Luxembourg and/or the CMU Service and/or CDP, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by Euroclear, Clearstream, Luxembourg and/or the CMU Service and/or CDP on and subject to the terms of (in the case of Notes cleared through Euroclear or Clearstream, Luxembourg or the CMU Service) a deed of covenant (the "**ECC Deed of Covenant**") dated 14 May 2012 or (in the case of Notes cleared through CDP) a CDP Deed of Covenant dated 14 May 2012, as amended and supplemented by a supplemental deed of covenant dated 25 April 2018, and as amended, varied or supplemented from time to time (the "**CDP Deed of Covenant**") and executed by the Issuer.

The Terms and Conditions of the Notes of any Series may be modified by specifying such modification in the applicable Pricing Supplement or in a supplement to this Offering Circular.

FORM OF PRICING SUPPLEMENT

Set out below is the form of Pricing Supplement which will be completed for each Tranche of Notes issued under the Programme.

[MiFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of [the/each] manufacturer['s/s'] product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, **MiFID II**); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a **distributor**) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels.]¹

[PROHIBITION OF SALES TO EEA AND UK RETAIL INVESTORS: The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**) or the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (**MiFID II**); or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the **Insurance Distribution Directive**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the **Prospectus Regulation**). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the **PRIIPs Regulation**) for offering or selling the Notes or otherwise making them available to retail investors in the EEA or the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA or the UK may be unlawful under the PRIIPs Regulation.]²

[NOTIFICATION UNDER SECTION 309B(1)(C) OF THE SECURITIES AND FUTURES ACT (CHAPTER 289) OF SINGAPORE (THE "SFA") - The Notes are (i) prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and (ii) Excluded Investment Products (as defined in the Monetary Authority of Singapore (the "**MAS**") Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).]

In the case of Notes cleared through Euroclear, Clearstream, Luxembourg or the CMU Service (each as defined below), the Noteholders, the Receiptholders and the Couponholders are entitled to the benefit of the Deed of Covenant (the "**ECC Deed of Covenant**") dated 14 May 2012 and made by the Issuer. The original of the ECC Deed of Covenant is held by the common depositary for Euroclear and Clearstream, Luxembourg.

Where the Notes are cleared through The Central Depository (Pte) Limited ("**CDP**"), the Noteholders, the Receiptholders and the Couponholders are entitled to the benefit of the CDP Deed of Covenant made by the Issuer and dated 14 May 2012, as amended and supplemented by a supplemental deed of covenant dated 25 April 2018 (the "**CDP Deed of Covenant**", together with the ECC Deed of Covenant, the "**Deeds of Covenant**", and each "**a Deed of Covenant**"), and as amended, varied or supplemented from time to time.

"Relevant Indebtedness" means any present or future indebtedness, or any guarantee in respect of any present or future indebtedness, in respect of any notes, bonds, debentures, debenture stock, loan stock or other securities which by their terms (i) are payable in a currency other than Ringgit or are denominated in Ringgit and more than 50 per cent. of the aggregate principal amount of which is initially distributed outside Malaysia by, or with the authorisation of, the Issuer; and (ii) which are quoted, listed or ordinarily dealt in on any stock exchange or over-the-counter or other securities market outside Malaysia;

"Covered Bond Legislation" means any statute, decree, regulations or rules promulgated by any competent authority of or in Malaysia governing the issuance of covered bonds; and

5. **INTEREST**

5.1 **Interest on Fixed Rate Notes**

Each Fixed Rate Note bears interest on its outstanding nominal amount (or if it is a Partly Paid Note, the nominal amount paid up) from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

If the Notes are in definitive form, except as provided in the applicable Pricing Supplement, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Pricing Supplement, amount to the Broken Amount so specified.

As used in the Conditions:

"Fixed Interest Period" means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date; and

"Reference Banks" means, subject to Condition 5.3(g) or 5.3(h) (as applicable), in the case of a determination of the London interbank offered rate ("**LIBOR**"), the principal London office

of four major banks in the London interbank market, in the case of a determination of the Euro-zone interbank offered rate ("**EURIBOR**"), the principal Euro-zone office of four major banks in the Euro-zone interbank market, in the case of a determination of HIBOR, the principal Hong Kong office of four major banks in the Hong Kong interbank market, and in the case of a determination of the Singapore Dollar interbank offered rate ("**SIBOR**") or the Singapore Dollar swap offer rate ("**SOR**"), the principal Singapore offices of each of the three major banks in the Singapore interbank market, in each case selected by the Fiscal Agent or as specified in the applicable Pricing Supplement.

Except in the case of Notes in definitive form where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Pricing Supplement, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (a) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (b) in the case of Fixed Rate Notes in definitive form, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

"**Day Count Fraction**" means, in respect of the calculation of an amount of interest in accordance with this Condition 5.1:

- (a) if "**Actual/Actual (ICMA)**" is specified in the applicable Pricing Supplement:
 - (i) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the "**Accrual Period**") is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (I) the number of days in such Determination Period and (II) the number of Determination Dates (as specified in the applicable Pricing Supplement) that would occur in one calendar year; or
 - (ii) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (A) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
 - (B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year;
- (b) if "**30/360**" is specified in the applicable Pricing Supplement, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with 12 30-day months) divided by 360; and

- (c) if "**Actual/365 (Fixed)**" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365.

In this Condition 5.1:

"Determination Period" means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

"sub-unit" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, one cent.

5.2 **Reset Interest on Subordinated Notes and AT1 Notes**

This Condition 5.2 applies only to Notes specified in the applicable Pricing Supplement as being Subordinated Notes or AT1 Notes.

(a) **Rates of Interest and Interest Payment Dates**

Each Subordinated Note and AT1 Note (as the case may be) to which Condition 7.3 applies, shall bear interest:

- (i) from (and including) the Interest Commencement Date until (but excluding) the first Optional Redemption Date specified in Pricing Supplement at the rate(s) per annum equal to the Rate(s) of Interest;
- (ii) from (and including) the first Optional Redemption Date until (but excluding) the second Optional Redemption Date specified in the Pricing Supplement or if no such second Optional Redemption Date is so specified, until the Maturity Date (if any) at a rate per annum equal to the First Reset Rate of Interest; and
- (iii) for each subsequent period from (and including) an Optional Redemption Date, to (but excluding) the next following Optional Redemption Date (if any) at a rate per annum equal to the relevant Subsequent Reset Rate of Interest,

payable, in each case, in accordance with Condition 5.1. The Rate of Interest and the amount of interest (the "**Interest Amount**") payable shall be determined by the Calculation Agent (A) in the case of the Rate of Interest, at or as soon as practicable after each time at which the Rate of Interest is to be determined, and (B) in the case of the Interest Amount in accordance with the provisions for calculating amounts of interest in Condition 5.1.

In these Terms and Conditions:

"First Margin" means the margin specified as such in the applicable Pricing Supplement;

"First Reset Period" means the period from (and including) the first Optional Redemption Date until (but excluding) the second Optional Redemption Date, or if no such second Optional Redemption Date is specified in the applicable Pricing Supplement, the Maturity Date;

"First Reset Rate of Interest" means, in respect of the First Reset Period and subject to Condition 5.2(b), the rate of interest determined by the Calculation Agent on the relevant Reset Determination Date as the sum of the Reference Rate and the First Margin;

"Rate(s) of Interest" has the meaning specified in the applicable Pricing Supplement;

"Reference Rate" has the meaning specified in the applicable Pricing Supplement;

"Reset Determination Date" means, in respect of the First Reset Period, the second Business Day prior to the first Optional Redemption Date, in respect of the first Subsequent Reset Period, the second Business Day prior to the second Optional Redemption Date and, in respect of each Subsequent Reset Period thereafter, the second Business Day prior to the first day of each Subsequent Reset Period;

"Reset Period" means the First Reset Period or any Subsequent Reset Period, as the case may be;

"Subsequent Reset Period" means the period from (and including) the second Optional Redemption Date to (but excluding) the next subsequent Optional Redemption Date and each successive period from (and including) a subsequent Optional Redemption Date to (but excluding) the next succeeding Optional Redemption Date; and

"Subsequent Reset Rate of Interest" means, in respect of any Subsequent Reset Period and subject to Condition 5.2(b), the rate of interest determined by the Calculation Agent on the relevant Reset Determination Date as the sum of the relevant Reference Rate and First Margin.

(b) ***Fallbacks***

If on any Reset Determination Date, the Relevant Screen Page is not available or the Reference Rate does not appear on the Relevant Screen Page, the Calculation Agent shall request each of the Reference Banks (as defined below) to provide the Calculation Agent with its quotation for such Reference Rate as at approximately 11.00 am in the principal financial centre of the Specified Currency on the Reset Determination Date in question.

If two or more of the Reference Banks provide the Calculation Agent with the Reference Rate quotations, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest (as applicable) for the relevant Reset Period shall be the sum of the arithmetic mean (rounded, if necessary, to the nearest 0.001 per cent. (0.0005 per cent. being rounded upwards)) of the relevant Reference Rate quotations and the First Margin, all as determined by the Calculation Agent.

If on any Reset Determination Date only one or none of the Reference Banks provides the Calculation Agent with a Reference Rate quotation as provided in the foregoing paragraph, the First Reset Rate of Interest or the Subsequent Reset Rate of Interest (as applicable) shall be determined to be the Rate of Interest as at the last preceding Optional Redemption Date, or in the case of the first Reset Determination Date, the First Reset Rate of Interest shall be the Rate of Interest specified in the applicable Pricing Supplement.

For the purposes of Condition 5.2(b) **"Reference Banks"** means the principal office in the principal financial centre of the Specified Currency of four major banks active in the market most closely connected with the Reference Rate as selected by the Calculation Agent.

(c) ***Notification of First Reset Rate of Interest, Subsequent Reset Rate of Interest and Interest Amount***

The Calculation Agent will cause the First Reset Rate of Interest, any Subsequent Reset Rate of Interest and, in respect of a Reset Period, the Interest Amount payable on each Interest Payment Date falling in such Reset Period to be notified to the Issuer, the Fiscal Agent and any stock exchange or other relevant authority on which the relevant Notes are for the time being listed and notice thereof to be published in accordance

with Condition 14 as soon as possible after their determination but in no event later than the fourth Business Day thereafter.

(d) ***Certificates to be Final***

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 5.2 shall (in the absence of wilful default, bad faith and manifest error) be binding on the Issuer, the Calculation Agent, the Fiscal Agent, the other Paying Agents and all Noteholders and Couponholders and (in the absence of bad faith and wilful default) no liability to the Issuer, the Noteholders or the Couponholders shall attach to the Calculation Agent or the Fiscal Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

5.3 **Interest on Floating Rate Notes and Index Linked Interest Notes**

(a) ***Interest Payment Dates***

Each Floating Rate Note and Index Linked Interest Note bears interest on its outstanding nominal amount (or if it is a Partly Paid Note, the nominal amount paid up) from (and including) the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest and such interest will be payable in arrear on either:

- (i) the Specified Interest Payment Date(s) in each year specified in the applicable Pricing Supplement; or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Pricing Supplement, each date (each such date, together with each Specified Interest Payment Date, an "**Interest Payment Date**") which falls the number of months or other period specified as the Specified Period in the applicable Pricing Supplement after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall, in these Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

In this Condition 5.3, if a Business Day Convention is specified in the applicable Pricing Supplement and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (A) in any case where Specified Periods are specified in accordance with Condition 5.3(a)(ii) above, the Floating Rate Convention, such Interest Payment Date (a) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (ii) below shall apply *mutatis mutandis* or (b) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (i) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (ii) each subsequent Interest Payment Date shall be the last Business Day in the month which falls in the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (B) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (C) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the

next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or

- (D) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In these Conditions, "**Business Day**" means a day which is both:

- I a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in each Business Centre specified in the applicable Pricing Supplement; and
- II either (i) in relation to any sum payable in a Specified Currency other than euro and Renminbi, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney and Auckland, respectively) or (ii) in relation to any sum payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET2) System (the "**TARGET2 System**") is open or (iii) in relation to any sum payable in Renminbi, a day (other than a Saturday, Sunday or public holiday) on which commercial banks in Hong Kong are generally open for business and settlement of Renminbi payments.

(b) **Rate of Interest**

The Rate of Interest payable from time to time in respect of Floating Rate Notes and Index Linked Interest Notes will be determined in the manner specified in the applicable Pricing Supplement.

- (i) ISDA Determination for Floating Rate Notes:

Where ISDA Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period shall be determined by the Calculation Agent at a rate equal to the relevant ISDA Rate plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any). For the purposes of this subparagraph (i), "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended and updated as at the Issue Date of the first Tranche of the Notes (the "**ISDA Definitions**") and under which:

- (A) the Floating Rate Option is as specified in the applicable Pricing Supplement;
- (B) the Designated Maturity is a period specified in the applicable Pricing Supplement; and
- (C) the relevant Reset Date is either (a) if the applicable Floating Rate Option is based on LIBOR, EURIBOR or on the Hong Kong interbank offered rate ("**HIBOR**"), the first day of that Interest Period or (b) in any other case, as specified in the applicable Pricing Supplement.

For the purposes of this subparagraph (i), "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**", "**Reset Date**" and "**Swap Transaction**" have the meanings given to those terms in the ISDA Definitions.

Unless otherwise stated in the applicable Pricing Supplement the Minimum Rate of Interest shall be deemed to be zero.

- (ii) Screen Rate Determination for Floating Rate Notes where the Reference Rate is specified as being LIBOR, EURIBOR or HIBOR:

Where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation; or
(B) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page (or any such successor or replacement page on that service which displays the information) as at 11.00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR, or Hong Kong time, in the case of HIBOR) (in each case, the "**Specified Time**") on the Interest Determination Date in question plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any), all as determined by the Fiscal Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Fiscal Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

If the Relevant Screen Page is not available or if, in the case of paragraph (A) above, no offered quotation appears or if, in the case of paragraph (B) above, fewer than three offered quotations appear, in each case as at the Specified Time, the Fiscal Agent shall request each of the Reference Banks to provide the Fiscal Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at the Specified Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Fiscal Agent with offered quotations, the Rate of Interest for the Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of the offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Fiscal Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Fiscal Agent with an offered quotation as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Fiscal Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Fiscal Agent by the Reference Banks or any two or more of them, at which such banks were offered, at the Specified Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in the London interbank market (if the Reference Rate is LIBOR), the Euro-zone interbank market (if the Reference Rate is EURIBOR), or the Hong Kong interbank market (if the Reference Rate is HIBOR) plus or minus (as appropriate) the Margin (if any) or, if fewer than two of the Reference Banks provide the Fiscal Agent with offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean

(rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately the Specified Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for the purpose) informs the Fiscal Agent it is quoting to leading banks in the London interbank market (if the Reference Rate is LIBOR), the Euro-zone interbank market (if the Reference Rate is EURIBOR), the Hong Kong interbank market (if the Reference Rate is HIBOR) or the Singapore interbank market (if the Reference Rate is SIBOR) plus or minus (as appropriate) the Margin (if any), provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period in place of the Margin relating to that last preceding Interest Period).

- (iii) Screen Rate Determination for Floating Rate Notes where the Reference Rate is specified as being SIBOR or SOR:
 - (A) Each Floating Rate Note where the Reference Rate is specified as being SIBOR (in which case such Note will be a "**SIBOR Note**") or SOR (in which case such Note will be a "**Swap Rate Note**") bears interest at a floating rate determined by reference to a benchmark as specified hereon or in any case such other benchmark as specified hereon.
 - (B) The Rate of Interest payable from time to time in respect of each Floating Rate Note under this Condition 5.3(b)(iii) will be determined by the Fiscal Agent on the basis of the following provisions:
 - (I) in the case of Floating Rate Notes which are SIBOR Notes
 - (aa) the Fiscal Agent will, at or about the Relevant Time on the relevant Interest Determination Date in respect of each Interest Period, determine the Rate of Interest for such Interest Period which shall be the offered rate for deposits in Singapore dollars for a period equal to the duration of such Interest Period which appears on the Reuters Screen ABSIRFIX01 page under the caption "ABS — SIBOR FIX — SIBOR AND SWAP OFFER RATES — RATES AT 11.00 HRS SINGAPORE TIME" and the column headed "SGD SIBOR" (or such other Relevant Screen Page);
 - (bb) if no such rate appears on the Reuters Screen ABSIRFIX01 page (or such other replacement page thereof or, if no rate appears, on such other Relevant Screen Page) or if Reuters Screen ABSIRFIX01 page (or such other replacement page thereof or such other Relevant Screen Page) is unavailable for any reason, the Fiscal Agent will determine the Rate of Interest for such Interest Period as being the rate (or if there is more than one rate which is published, the arithmetic mean of those rates (rounded up, if necessary to the nearest 1/16 per cent.) for a period equal to the duration of such Interest Period published by a recognised industry body where such rate is widely used (after taking into account the industry practice at that time), or any such other relevant authority as the Fiscal Agent may select;

- (cc) if on any Interest Determination Date the Fiscal Agent is otherwise unable to determine the Rate of Interest under paragraphs (aa) and (bb) above, the Fiscal Agent will request the principal Singapore offices of each of the Reference Banks to provide the Fiscal Agent with the rate at which deposits in Singapore dollars are offered by it at approximately the Relevant Time on the Interest Determination Date to prime banks in the Singapore inter-bank market for a period equivalent to the duration of such Interest Period commencing on such Interest Payment Date in an amount comparable to the aggregate nominal amount of the relevant Floating Rate Notes. The Rate of Interest for such Interest Period shall be the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of such offered quotations, as determined by the Fiscal Agent;
 - (dd) if on any Interest Determination Date two but not all the Reference Banks provide the Fiscal Agent with such quotations, the Rate of Interest for the relevant Interest Period shall be determined in accordance with (bb) above on the basis of the quotations of those Reference Banks providing such quotations; and
 - (ee) if on any Interest Determination Date one only or none of the Reference Banks provides the Fiscal Agent with such quotations, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Fiscal Agent determines to be the arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of the rates quoted by the Reference Banks or those of them (being at least two in number) to the Fiscal Agent at or about the Relevant Time on such Interest Determination Date as being their cost (including the cost occasioned by or attributable to complying with reserves, liquidity, deposit or other requirements imposed on them by any relevant authority or authorities) of funding, for the relevant Interest Period, an amount equal to the aggregate nominal amount of the relevant Floating Rate Notes for such Interest Period by whatever means they determine to be most appropriate or if on such Interest Determination Date one only or none of the Reference Banks provides the Fiscal Agent with such quotation, the rate per annum which the Fiscal Agent determines to be arithmetic mean (rounded up, if necessary, to the nearest 1/16 per cent.) of the prime lending rates for Singapore dollars quoted by the Reference Banks at or about the relevant time on such Interest Determination Date.
- (II) in the case of Floating Rate Notes which are Swap Rate Notes
- (aa) the Fiscal Agent will, at or about the Relevant Time on the relevant Interest Determination Date in respect of each Interest Period, determine the Rate of Interest for such Interest Period as being the rate which appears on the Reuters Screen ABSFIX01 Page under the caption "SGD SOR rates as of 11:00 hrs London Time" under the column headed "SGD SOR" (or such replacement page thereof for the purpose of displaying the swap rates of leading reference banks) at or about the Relevant Time on such

Interest Determination Date and for a period equal to the duration of such Interest Period;

(bb) if on any Interest Determination Date no such rate is quoted on Reuters Screen ABSFIX01 Page (or such other replacement page as aforesaid) or Reuters Screen ABSFIX01 Page (or such other replacement page as aforesaid) is unavailable for any reason, the Fiscal Agent will determine the Rate of Interest for such Interest Period as being the rate (or, if there is more than one rate which is published, the arithmetic mean of those rates (rounded up, if necessary, to the nearest 1/16 per cent.)) for a period equal to the duration of such Interest Period published by a recognised industry body where such rate is widely used (after taking into account the industry practice at that time), or by such other relevant authority as the Fiscal Agent may select; and

(cc) if on any Interest Determination Date the Fiscal Agent is otherwise unable to determine the Rate of Interest under paragraphs (aa) and (bb) above, the Rate of Interest shall be determined by the Fiscal Agent to be the rate per annum equal to the arithmetic mean (rounded up, if necessary, to four decimal places) of the rates quoted by the Singapore offices of the Reference Banks or those of them (being at least two in number) to the Fiscal Agent at or about 11.00 a.m. (Singapore time) on the first Business Day following such Interest Determination Date as being their cost (including the cost occasioned by or attributable to complying with reserves, liquidity, deposit or other requirements imposed on them by any relevant authority or authorities) of funding, for the relevant Interest Period, an amount equal to the aggregate principal amount of the relevant Floating Rate Notes for such Interest Period by whatever means they determine to be most appropriate, or if on such day one only or none of the Singapore offices of the Reference Banks provides the Fiscal Agent with such quotation, the Rate of Interest for the relevant Interest Period shall be the rate per annum equal to the arithmetic mean (rounded up, if necessary, to four decimal places) of the prime lending rates for Singapore dollars quoted by the Singapore offices of the Reference Banks at or about 11.00 a.m. (Singapore time) on such Interest Determination Date.

(C) On the last day of each Interest Period, the Issuer will pay interest on each Floating Rate Note to which such Interest Period relates at the Rate of Interest for such Interest Period.

(iv) If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Pricing Supplement as being other than LIBOR or EURIBOR or HIBOR or SIBOR or SOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Pricing Supplement.

(c) ***Minimum Rate of Interest and/or Maximum Rate of Interest***

If the applicable Pricing Supplement specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is less than

such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Pricing Supplement specifies a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (b) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(d) ***Determination of Rate of Interest and calculation of Interest Amounts***

The Fiscal Agent, in the case of Floating Rate Notes, and the Calculation Agent, in the case of Index Linked Interest Notes, will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. In the case of Index Linked Interest Notes, the Calculation Agent will notify the Fiscal Agent of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same.

The Fiscal Agent, in the case of Floating Rate Notes, and the Calculation Agent, in the case of Index Linked Interest Notes, will calculate the amount of interest (the "**Interest Amount**") payable on the Floating Rate Notes or Index Linked Interest Notes for the relevant Interest Period by applying the Rate of Interest to:

- (i) in the case of Floating Rate Notes or Index Linked Interest Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (ii) in the case of Floating Rate Notes or Index Linked Interest Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Floating Rate Note or an Index Linked Interest Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

"**Day Count Fraction**" means, in respect of the calculation of an amount of interest in accordance with this Condition 5.3:

- (i) if "**Actual/Actual (ISDA)**" or "**Actual/Actual**" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (I) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (II) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (ii) if "**Actual/365 (Fixed)**" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365;
- (iii) if "**Actual/360**" is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 360;

- (iv) if "**30/360**", "**360/360**" or "**Bond Basis**" is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y2 - Y1)] + [30 \times (M2 - M1)] + (D2 - D1)}{360}$$

where:

"**Y1**" is the year, expressed as a number, in which the first day of the Interest Period falls;

"**Y2**" is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**M1**" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"**M2**" is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

"**D1**" is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D1 will be 30; and

"**D2**" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D1 is greater than 29, in which case D2 will be 30;

- (v) if "**30E/360**", "**30E/360 (ISDA)**" or "**Eurobond Basis**" is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

 - (b) the Benchmark Replacement Adjustment;
- (5) the sum of:
 - (a) the alternate rate of interest that has been selected by the Issuer or its designee as the replacement for the then-current Benchmark for the applicable Corresponding Tenor giving due consideration to any industry-accepted rate of interest as a replacement for the then-current Benchmark for U.S. dollar denominated Floating Rate Notes at such time; and

- (1) the rate, or methodology for this rate, and conventions for this rate selected or recommended by the Relevant Governmental Body for determining compounded SOFR; provided that:

(h) **Benchmark Replacement for Floating Rate Notes denominated in a currency other than U.S. dollars**

Notwithstanding the other provisions of this Condition 5, if a Benchmark Event occurs in relation to a Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Reference Rate, then the following provisions of this Condition 5.3(h) shall apply.

- (i) **Independent Adviser:** The Issuer shall use its reasonable endeavours to appoint and consult with an Independent Adviser, as soon as reasonably practicable, with a view to the Issuer determining a Successor Rate, failing which an Alternative Rate (in accordance with Condition 5.3(h)(ii)) and, in either case, an Adjustment Spread if any (in accordance with Condition 5.3(h)(iii)) and any Benchmark Amendments (in accordance with Condition 5.3(h)(iv)).
- (ii) **Successor Rate or Alternative Rate:** If the Issuer, following consultation with the Independent Adviser and acting in good faith and in a commercially reasonable manner, determines that:
 - (1) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 5.3(h)(iii)) subsequently be used in place of the Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 5.3(h)); or
 - (2) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 5.3(h)(iii)) subsequently be used in place of the Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 5.3(h)).
- (iii) **Adjustment Spread:** If the Issuer, following consultation with the Independent Adviser and acting in good faith and in a commercially reasonable manner, determines (i) that an Adjustment Spread is required to be applied to the

Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Rate (as the case may be).

- (iv) **Benchmark Amendments:** If any Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 5.3(h) and the Issuer, following consultation with the Independent Adviser and acting in good faith and in a commercially reasonable manner, determines (i) that amendments to these Conditions and/or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (ii) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 5.3(h)(v), without any requirement for the consent or approval of Noteholders or any other party, direct the Fiscal Agent, at the Issuer's expense, to vary these Conditions and/or the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice. For the avoidance of doubt, no consent of the Noteholders or the Couponholders or any other party shall be required in connection with effecting the Benchmark Amendments or such other changes, including for the execution of any documents or the taking of other steps by the Issuer or any of the parties to the Agency Agreement (if required). In connection with any such variation in accordance with this Condition 5.3(h)(iv), the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.
- (v) **Notices, etc.:** Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 5.3(h) will be notified promptly by the Issuer to the Fiscal Agent and the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any, and will be binding on the Issuer, the Fiscal Agent and the Noteholders.
- (vi) **Survival of Reference Rate:** Without prejudice to the obligations of the Issuer under Condition 5.3(h)(i) to (v), the Reference Rate and the fallback provisions provided for in Condition 5.3(b) will continue to apply unless and until the Calculation Agent (if any) has been notified of the Successor Rate or the Alternative Rate (as the case may be), and any Adjustment Spread and Benchmark Amendments, in accordance with Condition 5.3(h)(v).

Definitions: As used in this Condition 5.3(h):

"**Adjustment Spread**" means either a spread (which may be positive or negative), or the formula or methodology for calculating a spread, in either case, which the Issuer, following consultation with the Independent Adviser and acting in good faith and in a commercially reasonable manner, determines is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders and Couponholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (1) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or (if no such recommendation has been made, or in the case of an Alternative Rate)

- (2) the Issuer determines, following consultation with the Independent Adviser and acting in good faith and in a commercially reasonable manner, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions or is in customary market usage in the debt capital market for transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be); or (if the Issuer determines that no such industry standard is recognised or acknowledged)
- (3) the Issuer, in its discretion, following consultation with the Independent Adviser and acting in good faith and in a commercially reasonable manner, determines to be appropriate.

"Alternative Rate" means an alternative benchmark or screen rate which the Issuer determines in accordance with Condition 5.3(h)(ii) has replaced the Reference Rate in customary market usage in the international debt capital markets or in industry standard for over-the-counter derivative transactions for the purposes of determining rates of interest (or the relevant component part thereof) for the same interest period and in the same Specified Currency as the Notes.

"Benchmark Amendments" has the meaning given to it in Condition 5.3(h)(iv).

"Benchmark Event" means:

- (1) the Reference Rate ceasing to be published for a period of at least five Business Days or ceasing to exist; or
- (2) a public statement by the administrator of the Reference Rate that it will, by a specified date within the following six months, cease publishing the Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Reference Rate); or
- (3) the first public statement by the supervisor of the administrator of the Reference Rate that the Reference Rate has been or will, by a specified date within the following six months, be permanently or indefinitely discontinued; or
- (4) a public statement by the supervisor of the administrator of the Reference Rate that the Reference Rate will be prohibited from being used or that its use will be subject to restrictions or adverse consequences, in each case within the following six months; or
- (5) a public statement or publication of information by the regulatory supervisor for the administrator of the Reference Rate announcing that the Reference Rate is no longer representative; or
- (6) it has become unlawful for the Fiscal Agent, Calculation Agent, the Issuer or other party to calculate any payments due to be made to any Noteholder using the Reference Rate.

"Independent Adviser" means an independent financial institution of international repute or an independent financial adviser with appropriate expertise appointed by the Issuer (at its own expense) under Condition 5.3(h)(i).

"Reference Rate" means the originally-specified benchmark or screen rate (as applicable) used to determine the Rate of Interest (or any component part thereof) on the Notes.

"Relevant Nominating Body" means, in respect of a benchmark or screen rate (as applicable):

- (1) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable); or
- (2) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (a) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (b) any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable), (c) a group of the aforementioned central banks or other supervisory authorities or (d) the Financial Stability Board or any part thereof.

"Successor Rate" means a successor to or replacement of the Reference Rate which is formally recommended by any Relevant Nominating Body.

5.4 **Interest on Dual Currency Interest Notes**

The rate or amount of interest payable in respect of Dual Currency Interest Notes shall be determined in the manner specified in the applicable Pricing Supplement.

5.5 **Interest on Partly Paid Notes**

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the applicable Pricing Supplement.

5.6 **Accrual of interest**

Each interest-bearing Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (a) the date on which all amounts due in respect of such Note have been paid; and
- (b) five days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Fiscal Agent and notice to that effect has been given to the Noteholders in accordance with Condition 14.

5.7 **Limitation on Payment**

This Condition 5.7 applies only to Notes specified in the applicable Pricing Supplement as being AT1 Notes.

The Issuer may, at its sole discretion and without giving prior notice to Noteholders, taking into account its specific financial and solvency condition and provided that no Regulatory Capital Event (as defined in Condition 7.6) has occurred and is continuing), elect to cancel any payment of interest in respect of any Series of AT1 Notes, in whole or in part and on a non-cumulative basis. Any interest so cancelled shall no longer be due and payable at any time by the Issuer and shall cease to accrue, whether on a Winding-Up of the Issuer or otherwise. Cancellation of any interest payment shall not constitute an Event of Default under Condition 10.2 and shall not entitle Noteholders to petition for the insolvency or Winding-Up of the Issuer. Where the Issuer does not make a payment of interest on any Interest Payment Date, or makes only a part thereof, such non-payment or partial payment, as the case may be, shall be deemed to be evidence that the Issuer has elected to cancel such payment of interest (or the

relevant part thereof) and, accordingly, such amount of interest (or part thereof) shall not be due and payable.

If on any Interest Payment Date, a Capital Disqualification Event in respect of any Series of AT1 Notes has occurred prior to or on such date and is continuing, the Issuer shall, in respect of such Series, be obliged to pay the interest accrued and payable in respect of the Interest Period which ends on that Interest Payment Date and this Condition 5.7 and Condition 5.8 shall cease to apply thereto.

The Issuer shall, only if practicable, provide notice of any cancellation of an interest payment or part thereof to the Noteholders in accordance with Condition 14 via the Fiscal Agent on or prior to the relevant Interest Payment Date. If practicable, the Issuer shall endeavour to give any such notice no later than five Business Days prior to the relevant Interest Payment Date, but failure to give such notice will not invalidate the Issuer's election to cancel the relevant payment of interest or part thereof and shall not give rise to any rights on behalf of the Noteholders.

No Noteholder shall have any claim whatsoever in respect of any interest or part thereof cancelled or not paid by the Issuer under this Condition 5.7. Accordingly, (i) such cancelled interest or part thereof shall cease to accrue and no accumulation shall be deemed to have been made in respect of it for the benefit of the Noteholders; and (ii) Noteholders shall not be entitled to any claim against the Issuer in respect of any amount of cancelled interest.

For the purposes of this Condition 5.7, "**Capital Disqualification Event**" shall mean that the whole (and not just a part) of any Series of AT1 Notes no longer qualify for inclusion as Additional Tier 1 capital of the Issuer for the purposes of the BNM Capital Adequacy Framework under any applicable regulations.

5.8 **Distributable Reserves**

This Condition 5.8 applies only to Notes specified in the applicable Pricing Supplement as being AT1 Notes.

The Issuer may only pay interest in respect of any AT1 Note out of the amounts for the time being available to the Issuer for distribution as a dividend in compliance with Section 131 of the Malaysian Companies Act 2016 (as amended from time to time) as shown in the Issuer's latest audited financial statements ("**Distributable Reserves**"). If, at any time, the Issuer reasonably believes that the Distributable Reserves as at the next succeeding Interest Determination Date are (i) lower than the amount shown in the Issuer's then most recent audited financial statements and (ii) insufficient to pay the interest scheduled to be paid on the next succeeding Interest Payment Date and to pay any dividends or other distributions in respect of Parity Obligations on such Interest Payment Date, then two directors of the Issuer shall provide a certificate (which certificate shall, in the absence of manifest error, be binding on the Noteholders and holders of Receipts and Coupons) on or prior to the relevant Interest Determination Date to the Noteholders in accordance with Condition 14 via the Fiscal Agent as to the amounts available for distribution on such Interest Determination Date and for the purposes of the relevant Interest Payment Date "**Distributable Reserves**" shall mean such lower amount as set out in such certificate.

For the purposes of this Condition 5.8, "**Interest Determination Date**" shall mean, with respect to any Interest Payment Date, the day falling two Business Days prior to such Interest Payment Date.

5.9 **Distribution Stopper**

This Condition 5.9 applies only to Notes specified in the applicable Pricing Supplement as being AT1 Notes.

If on any Interest Payment Date, payment of any amount of interest of any AT1 Note scheduled to be made on such date is not so made by reason of Limitation on Payment in accordance with Condition 5.7, the Issuer shall not,

- (a) declare or pay, or permit any subsidiary of the Issuer to declare or pay, any dividends or other distributions in respect of Junior Obligations (or contribute any monies to any sinking fund for the payment of any dividends or other distributions in respect of such Junior Obligations); or
- (b) declare or pay, or permit any subsidiary of the Issuer to declare or pay, any dividends or other distributions in respect of Parity Obligations, the terms of which provide that the Issuer is not required to make payments of such dividends or other distributions in respect thereof (or contribute any monies to any sinking fund for the payment of any dividends or other distributions in respect of any such Parity Obligations); or
- (c) redeem, reduce, cancel, buy-back or acquire, or permit any subsidiary of the Issuer to redeem, reduce, cancel, buy-back or acquire, any Junior Obligations (or contribute any monies to any sinking fund for the redemption, capital reduction, buy-back or acquisition of any such Junior Obligations); or
- (d) redeem, reduce, cancel, buy-back or acquire, or permit any subsidiary of the Issuer to redeem, reduce, cancel, buy-back or acquire, any Parity Obligations, the terms of which provide that the Issuer is not required to redeem, reduce, cancel, buy-back or acquire such Parity Obligations (or contribute any monies to any sinking fund for the redemption, capital reduction, buy-back or acquisition of any such Parity Obligations),

in each case, until:

- (1) next interest scheduled to be paid in respect of the AT1 Notes in respect of consecutive Interest Periods equal to or exceeding 12 calendar months shall have been paid in full (or an equivalent amount shall have been paid or irrevocably set aside in a separately designated trust account for payment to the Noteholders); or
- (2) the Issuer is permitted to take any such action as contemplated in any of paragraphs (a) to (d) above by an Extraordinary Resolution of Noteholders.

6. PAYMENTS

6.1 Method of payment

Subject as provided below:

- (a) payments in a Specified Currency other than euro and Renminbi will be made by credit or transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account) maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively);
- (b) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque; and
- (c) payments in Renminbi will be made by transfer to a Renminbi account maintained by or on behalf of the Noteholder with a bank in Hong Kong.

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 8 and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b)

of the U.S. Internal Revenue Code of 1986 (the “**Code**”) or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or (without prejudice to the provisions of Condition 8) any law implementing an intergovernmental approach thereto.

6.2 **Presentation of Definitive Bearer Notes, Receipts and Coupons**

Payments of principal in respect of Definitive Bearer Notes will (subject as provided below) be made in the manner provided in Condition 6.1 above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Definitive Bearer Notes, and payments of interest in respect of Definitive Bearer Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the specified office of any Paying Agent outside the U.S. (which expression, as used herein, means the United States of America (including the States and the District of Columbia and its possessions)).

Payments of instalments of principal (if any) in respect of Definitive Bearer Notes, other than the final instalment, will (subject as provided below) be made in the manner provided in Condition 6.1 above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt in accordance with the preceding paragraph. Payment of the final instalment will be made in the manner provided in Condition 6.1 above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Definitive Bearer Note in accordance with the preceding paragraph. Each Receipt must be presented for payment of the relevant instalment together with the Definitive Bearer Note to which it appertains. Receipts presented without the Definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any Definitive Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes in definitive bearer form (other than Dual Currency Notes, Index Linked Notes or Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of ten years after the Relevant Date (as defined in Condition 8) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 9) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive bearer form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Note, Index Linked Note or Long Maturity Note in definitive bearer form not held in the CMU Service becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A “**Long Maturity Note**” is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any Definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest

Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant Definitive Bearer Note.

6.3 **Payments in respect of Bearer Global Notes**

Payments of principal and interest (if any) in respect of any Bearer Global Note will (subject as provided below) be made in the manner specified above in relation to Definitive Bearer Notes or otherwise in the manner specified in the relevant Bearer Global Note (i) in the case of a Bearer Global Note lodged with the CMU Service, to the person(s) for whose account(s) interests in the relevant Bearer Global Note are credited as being held by the CMU Service in accordance with the CMU Rules, or (ii) in the case of a Bearer Global Note not lodged with the CMU Service, against presentation or surrender, as the case may be, of such Bearer Global Note at the specified office of any Paying Agent outside the U.S. A record of each payment made against presentation or surrender of any Bearer Global Note, distinguishing between any payment of principal and any payment of interest, will be made (in the case of a Global Note not lodged with the CMU Service) on such Bearer Global Note by the Paying Agent to which it was presented or (in the case of a Global Note lodged with the CMU Service) on withdrawal of the Bearer Global Note by the CMU Lodging and Paying Agent, and in each such case such record shall be prima facie evidence that the payment in question has been made.

6.4 **Payments in respect of Registered Notes**

Payments of principal (other than instalments of principal prior to the final instalment) in respect of each Registered Note (whether or not in global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the Registered Note at the specified office of the Registrar or any of the Paying Agents. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the register of holders of the Registered Notes maintained by the Registrar (the "**Register**") (i) where in global form at the close of the business day (being for this purpose, in respect of Notes clearing through CDP, Euroclear and Clearstream, Luxembourg, a day on which CDP, Euroclear and Clearstream, Luxembourg are open for business and, in respect of Notes clearing through the CMU Service, a day on which the CMU Service is open for business) before the relevant due date and (ii) where in definitive form at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) before the relevant due date. Notwithstanding the previous sentence, if (a) a holder does not have a Designated Account or (b) the principal amount of the Notes held by a holder is less than U.S.\$250,000 (or its approximate equivalent in any other Specified Currency), payment (in the case of a currency other than Renminbi) will instead be made by a cheque in the Specified Currency drawn on a Designated Bank (as defined below). For these purposes, "**Designated Account**" means the account (which, in the case of a payment in Japanese yen to a non-resident of Japan, shall be a non-resident account and, in the case of a payment in Renminbi, means the Renminbi account maintained by or on behalf of the Noteholder with a bank in Hong Kong, details of which appear on the Register at the close of business on the fifth business day before the due date for payment) maintained by a holder with a Designated Bank and identified as such in the Register and "**Designated Bank**" means (in the case of payment in a Specified Currency other than euro and Renminbi) a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney and Auckland, respectively) and (in the case of a payment in euro) any bank which processes payments in euro and (in the case of a payment in Renminbi) a bank in Hong Kong.

Payments of interest and payments of instalments of principal (other than the final instalment) in respect of each Registered Note (whether or not in global form) will be made by a cheque in the Specified Currency (other than Renminbi) drawn on a Designated Bank and mailed by uninsured mail on the business day in the city where the specified office of the Registrar is located immediately preceding the relevant due date to the holder (or the first named of joint holders) of the Registered Note appearing in the Register, (i) where in global form at the close of the business day (being for this purpose, in respect of Notes clearing through CDP,

Euroclear and Clearstream, Luxembourg, a day on which CDP, Euroclear and Clearstream, Luxembourg are open for business and, in respect of Notes clearing through the CMU Service, a day on which the CMU Service is open for business) before the relevant due date and (ii) where in definitive form at the close of business on the fifth day (in the case of Renminbi) and the 15th day (in the case of currency other than Renminbi, whether or not such 15th day is a business day) before the relevant due date (the "**Record Date**") at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the Registrar not less than three business days in the city where the specified office of the Registrar is located before the due date for any payment of interest or an instalment of principal (other than the final instalment) in respect of a Registered Note, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) and instalments of principal (other than the final instalment) in respect of the Registered Notes which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Note on redemption and the final instalment of principal will be made in the same manner as payment of the principal amount of such Note.

Holders of Registered Notes will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Note as a result of a cheque posted in accordance with this Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holder by the Registrar in respect of any payments of principal or interest in respect of Registered Notes.

None of the Issuer or the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

6.5 **General provisions applicable to payments**

The holder of a Global Note shall be the only person(s) entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of CDP, Euroclear, Clearstream, Luxembourg or the CMU Service, as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to CDP, Euroclear, Clearstream, Luxembourg or the CMU Service, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such Global Note.

Notwithstanding the foregoing provisions of this Condition, if any amount of principal and/or interest in respect of Definitive Bearer or Bearer Global Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the specified office of a Paying Agent in the U.S. if:

- (a) the Issuer has appointed Paying Agents with specified offices outside the U.S. with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the U.S. of the full amount of principal and interest on the Bearer Notes in the manner provided above when due;
- (b) payment of the full amount of such principal and interest at all such specified offices outside the U.S. is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (c) such payment is then permitted under U.S. law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

6.6 **Payment Day**

Unless otherwise stated in the applicable Pricing Supplement, if the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day (as defined below), the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes, "**Payment Day**" means any day which (subject to Condition 9) is:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (i) the relevant place of presentation;
 - (ii) each Financial Centre specified in the applicable Pricing Supplement; and
- (b) either (A) in relation to any sum payable in a Specified Currency other than euro and Renminbi, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the place of presentation and any Financial Centre and which if the Specified Currency is Australian dollars or New Zealand dollars, shall be Sydney or Auckland, respectively) or (B) in relation to any sum payable in euro, a day on which the TARGET2 System is open or (C) in relation to any sum payable in Renminbi, a day (other than a Saturday, Sunday or public holiday) on which commercial banks in Hong Kong are generally open for business and settlement of Renminbi payments.

6.7 **Interpretation of principal and interest**

Any reference in the Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (a) any additional amounts which may be payable with respect to principal under Condition 8;
- (b) the Final Redemption Amount of the Notes;
- (c) the Early Redemption Amount of the Notes;
- (d) the Optional Redemption Amount(s) (if any) of the Notes;
- (e) in relation to Notes redeemable in instalments, the Instalment Amounts;
- (f) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 7.7); and
- (g) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

Any reference in the Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 8 and any Arrears of Interest (if applicable).

6.8 **Currency Fallback**

If the Notes are denominated in Renminbi and the Renminbi is not available for delivery outside the PRC when any payment on the Notes is due as a result of circumstances beyond the control of the Issuer, the Issuer shall be entitled to satisfy the obligations in respect of such payment by making such payment in U.S. dollars on the basis of the Spot Rate on the second Business Day prior to such payment or, if such rate is not available on such second Business Day, on the basis of the rate most recently available prior to such second Business Day.

Any payment made under such circumstances in U.S. dollars will constitute valid payment, and will not constitute a default in respect of the Notes.

In the event of a payment pursuant to this Condition 6.8, the following modifications shall be made in respect of the Conditions:

- (a) the following language shall be included at the end of Condition 6.1 (a);
"unless Condition 6.8 applies, in which case payments will be made by credit or transfer to a U.S. dollar denominated account with a bank in New York City"; and
- (b) for the purpose of Condition 6.6(b), the Specified Currency will be deemed to be U.S. dollars;

For the purpose of this Condition 6.8:

"Spot Rate" means the spot U.S. dollar/Renminbi exchange rate for the purchase of U.S. dollars with Renminbi in the over-the-counter Renminbi exchange market in Hong Kong, as determined by the Fiscal Agent at or around 11.00 a.m. (Hong Kong time) on the date of determination, on a deliverable basis by reference to Reuters Screen page TRADCNY3, or if no such rate is available, on a non-deliverable basis by reference to Reuters Screen page TRADNDF. If neither rate is available, the Fiscal Agent will determine the Spot Rate at or around 11.00 a.m. (Hong Kong time) on the date of determination as the most recently available Renminbi/U.S. dollar official fixing rate for settlement in two Business Days reported by The State Administration of Foreign Exchange of the PRC, which is reported on the Reuters Screen page CNY=SAEC. Reference to a page on the Reuters Screen means the display page so designated on the Reuters Monitor Money Rates Service (or any successor service) or such other page as may replace that page for the purpose of displaying a comparable currency exchange rate.

The Fiscal Agent will not be responsible or liable to the Issuer or any holder of the Notes for any determination of any Spot Rate determined in accordance with this Condition 6.8 in the absence of its own gross negligence or wilful misconduct.

7. REDEMPTION AND PURCHASE

7.1 Redemption at maturity

Unless previously redeemed or purchased and cancelled as specified below, each Note (other than the AT1 Note) (including each Index Linked Redemption Note and Dual Currency Redemption Note) will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Pricing Supplement in the relevant Specified Currency on the Maturity Date.

7.2 Redemption for tax reasons

Subject (in the case of Subordinated Notes or AT1 Notes) to the Redemption Conditions, the Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if this Note is neither a Floating Rate Note, an Index Linked Interest Note nor a Dual Currency Interest Note) or on any Interest Payment Date (if this Note is either a Floating Rate Note, an Index Linked Interest Note or a Dual Currency Interest Note), on giving not less than 30 nor more than 60 days' notice to the Fiscal Agent and, in accordance with Condition 14, the Noteholders (which notice shall be irrevocable) on the occurrence of a Tax Event, provided that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts or give effect to such treatment, as the case may be, were a payment in respect of the Notes then due.

Prior to the publication of any notice of redemption pursuant to this Condition, the Issuer shall deliver to the Fiscal Agent, as its agent, a certificate signed by two duly authorised persons of the Issuer (i) stating that the Issuer is entitled to effect such redemption and setting forth a

statement of facts showing that the conditions precedent to the right of the Issuer to redeem have occurred, (ii) attaching an opinion of independent legal advisers of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts or, in the case of Subordinated Notes or AT1 Notes is no longer entitled to obtain the relevant deductions, as a result of such change or amendment and (iii) in the case of Subordinated Notes or AT1 Notes, certifying that BNM or any successor thereto has consented to such redemption; and the Fiscal Agent shall be entitled to accept such certificate as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on the Noteholders, Receiptholders and the Couponholders, and shall make available such certificates for inspection during normal business hours at its registered office for the time being.

Notes redeemed pursuant to this Condition 7.2 will be redeemed at their Early Redemption Amount referred to in Condition 7.7 below together (if appropriate) with interest accrued to (but excluding) the date of redemption (which in the case of AT1 Notes shall mean such interest that is accrued but uncanceled and unpaid).

For the purposes of these Conditions "**Tax Event**" means:

- (a) on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 8 as a result of any change in, or amendment to, the laws or regulations of a Relevant Jurisdiction (as defined in Condition 8), or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Notes of the relevant Series; or
- (b) in the case of Subordinated Notes and AT1 Notes only, the Issuer is no longer entitled, or would not be entitled to obtain deductions for the purposes of Malaysian corporation tax in respect of payments of interest on the Subordinated Notes or AT1 Notes, as the case may be, as a result of any change in, or amendment to, the laws or regulations of a Relevant Jurisdiction, or any change in the application or official interpretation of such laws or regulations, which change or amendment becomes effective on or after the date on which agreement is reached to issue the first Tranche of the Subordinated Notes or AT1 Notes, as the case may be, of the relevant Series; and
- (c) in either case of (a) or (b), such obligation cannot be avoided by the Issuer taking reasonable measures available to it.

7.3 **Redemption at the option of the Issuer ("Issuer Call")**

If Issuer Call is specified in the applicable Pricing Supplement, the Issuer may, having given:

- (a) not less than 15 nor more than 30 days' notice to the Noteholders in accordance with Condition 14; and
- (b) not less than 2 Business Days (in the case of redemption of Registered Notes) or 5 Business Days (in the case of redemption of Notes cleared through CDP ("**CDP Notes**")) or such other period as may be agreed with the Fiscal Agent, the Registrar or the Singapore CDP Agent (as the case may be) before the giving of the notice referred to in (a) above, notice to the Fiscal Agent and, in the case of a redemption of Registered Notes, the Registrar and, in the case of redemption of CDP Notes, the Singapore CDP Agent;

(which notices shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding on any Optional Redemption Date and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Pricing Supplement together, if appropriate, with interest accrued (which for the AT1 Notes shall include any interest accrued but uncanceled and unpaid) to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a nominal amount

not less than the Minimum Redemption Amount and not more than the Maximum Redemption Amount, in each case as may be specified in the applicable Pricing Supplement. In the case of a partial redemption of Notes, the Notes to be redeemed ("**Redeemed Notes**") will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of CDP and/or Euroclear and/or Clearstream, Luxembourg and/or the CMU Service (as appropriate), in the case of Redeemed Notes represented by a Global Note, not more than 30 days prior to the date fixed for redemption (such date of selection being hereinafter called the "**Selection Date**"). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 14 not less than 15 days prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Notes represented by definitive Notes or represented by a Global Note shall in each case bear the same proportion to the aggregate nominal amount of all Redeemed Notes as the aggregate nominal amount of definitive Notes outstanding and Notes outstanding represented by such Global Note, respectively, bears to the aggregate nominal amount of the Notes outstanding, in each case on the Selection Date, provided that, if necessary, appropriate adjustments shall be made to such nominal amounts to ensure that each represents an integral multiple of the Calculation Amount. No exchange of the relevant Global Note will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this Condition 7.3 and notice to that effect shall be given by the Issuer to the Noteholders in accordance with Condition 14 at least five days prior to the Selection Date.

For the purposes of this Condition 7.3, "**Business Day**" means a day on which commercial banks and foreign exchange markets settle payments and are open for general business in the city in which the specified office of the Fiscal Agent or the Registrar or the Singapore CDP Agent (as the case may be) or the Issuer is based.

Subordinated Notes and AT1 Notes may be redeemed at the option of the Issuer on any Optional Redemption Date falling at least five years from the date of issue of the relevant tranche of such Subordinated Notes or the AT1 Notes (as the case may be).

Any redemption of Subordinated Notes or AT1 Notes pursuant to an Issuer Call, a Tax Event or a Regulatory Capital Event (as defined below) will be subject to the following conditions (the "**Redemption Conditions**"):

- (i) the Issuer is solvent at the time of and immediately following the redemption of that tranche of Subordinated Notes or AT1 Notes, as the case may be;
- (ii) the Issuer has obtained the prior written approval of BNM; and
- (iii) the Issuer:
 - (a) shall, on or before the redemption of the Subordinated Notes or AT1 Notes, as the case may be, replace the Subordinated Notes or AT1 Notes, as the case may be, to be redeemed with capital of the same or better quality on terms that are sustainable for the income capacity of the Issuer; or
 - (b) demonstrates that its capital position following redemption of the Subordinated Notes or AT1 Notes, as the case may be, is well above the minimum Capital Requirements (as defined in Condition 7.6).

A certificate signed by two duly authorised persons of the Issuer and delivered to the Fiscal Agent on or before the redemption certifying compliance with the Redemption Conditions shall (i) be sufficient evidence for Noteholders that the Issuer has complied with the Redemption Conditions and (ii) in the absence of manifest error, be binding on all Noteholders.

7.4 **Redemption at the option of the Noteholders**

Neither Subordinated Notes nor AT1 Notes may be redeemed at the option of the Noteholders. If Investor Put is specified in the applicable Pricing Supplement, then, if and to the extent specified in the applicable Pricing Supplement, upon the holder of a Note, giving to the Issuer, in accordance with Condition 14, not less than 15 nor more than 30 days' notice (or such other notice period as is specified in the applicable Pricing Supplement) (which notice shall be irrevocable), the Issuer will, upon the expiry of such notice, redeem subject to, and in accordance with, the terms specified in the applicable Pricing Supplement in whole (but not in part) such Note on the Optional Redemption Date and at the relevant Optional Redemption Amount as specified in, or determined in the manner specified in, the applicable Pricing Supplement, together, if applicable, with interest accrued to (but excluding) the relevant Optional Redemption Date. It may be that before an Investor Put can be exercised, certain conditions and/or circumstances will need to be satisfied. Where relevant, the provisions will be set out in the applicable Pricing Supplement.

7.5 Put Notices

If the Note is in definitive form, to exercise the right to require redemption of such Note, the holder thereof must deliver such Note on any Business Day (as defined in Condition 5) falling within the notice period at the specified office of any Paying Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes), at any time during the normal business hours of such Paying Agent or, as the case may be, the Registrar falling within the notice period, accompanied by a duly signed and completed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent or, as the case may be, the Registrar (a "Put Notice") and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition accompanied by, if such Note is in definitive form, such Note or evidence satisfactory to the Paying Agent concerned that such Note will, following delivery of the Put Notice, be held to its order or under its control and, in the case of Registered Notes, the nominal amount thereof to be redeemed and, if less than the full nominal amount of the Registered Notes so surrendered is to be redeemed, an address to which a new Registered Note in respect of the balance of such Registered Notes is to be sent subject to and in accordance with the provisions of Condition 2.2. If such Note is represented by a Global Note or is in definitive form and held through CDP, Euroclear, Clearstream, Luxembourg or the CMU Service, to exercise the right to require redemption of such Note, the holder thereof must, within the notice period, give notice to the Fiscal Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) of such exercise in accordance with the standard procedures of CDP, Euroclear, Clearstream, Luxembourg and the CMU Service (which may include notice being given on his instruction by CDP, Euroclear or Clearstream, Luxembourg or the CMU Service or any common depository, as the case may be, for them to the Fiscal Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) by electronic means) in a form acceptable to CDP, Euroclear, Clearstream, Luxembourg and the CMU Service from time to time and, if such Note is represented by a Global Note, at the same time present or procure the presentation of the relevant Global Note to the Fiscal Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes) for notation accordingly.

Any Put Notice or other notice given in accordance with the standard procedures of CDP, Euroclear, Clearstream, Luxembourg or the CMU Service given by a holder of any Note pursuant to this Condition 7.5 shall be irrevocable except where, prior to the due date of redemption, an Event of Default has occurred and is continuing, in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this paragraph.

7.6 Redemption of Subordinated Notes or AT1 Notes on a Regulatory Capital Event

This Condition 7.6 applies only to Notes specified in the applicable Pricing Supplement as being Subordinated Notes or AT1 Notes.

Subject to the Redemption Conditions, if, as a result of a change to the Capital Requirements which change is continuing, in relation to:

- (a) the qualification of any Subordinated Notes as Tier 2 Capital Securities or the AT1 Notes as Tier 1 Capital Securities, as the case may be; or
- (b) the inclusion of any Subordinated Notes or any AT1 Notes, as the case may be, in the calculation of the Issuer's capital adequacy ratio,

which change or amendment:

- (i) becomes, or would become, effective on or after the date of issue of such Subordinated Notes or AT1 Notes, as the case may be; or
- (ii) is issued by BNM on or after the date of issue of such Subordinated Notes or AT1 Notes, as the case may be,

the relevant Subordinated Notes or the relevant AT1 Notes, as the case may be, (in whole or in part) would not qualify as Tier 2 Capital Securities or as Tier 1 Capital Securities, respectively (excluding, for the avoidance of doubt where such Subordinated Notes cease to qualify solely by virtue of the Issuer already having, or coming to have, Tier 2 Capital Securities in issue with an aggregate principal amount equal to or in excess of the limit for Tier 2 Capital Securities permitted under the Capital Requirements in force as at the date of issue of the Subordinated Notes or, as the case may be, where such AT1 Notes cease to qualify solely by virtue of the Issuer already having, or coming to have, Tier 1 Capital Securities in issue with an aggregate principal amount equal to, or in excess of, the limit for Tier 1 Capital Securities permitted under the Capital Requirements in force as at the date of issue of the AT1 Notes) (a "**Regulatory Capital Event**"), then the Issuer may, on giving not less than 30 nor more than 60 days' irrevocable notice to the Noteholders (or such other notice period as specified in the Pricing Supplement) redeem all, but not some or part only, of the Subordinated Notes or AT1 Notes, as the case may be, on the date specified in such notice at their Early Redemption Amount referred to in Condition 7.7 below together (if appropriate) with interest accrued to (but excluding) the date of redemption (which, the case of AT1 Notes, shall mean such interest that is accrued but uncancelled and unpaid).

For the purposes of these Conditions, "**Capital Requirements**" means the relevant capital adequacy requirements issued from time to time by BNM and currently set out in the *Capital Adequacy Framework (Capital Components)* issued by BNM on 5 February 2020.

7.7 **Early Redemption Amounts**

For the purpose of Condition 7.2, Condition 7.6 and Condition 10.1 (if this Note is a Senior Note) or Condition 10.2 (if this Note is a Subordinated Note or AT1 Note), each Note will be redeemed at its Early Redemption Amount calculated by the Calculation Agent as follows:

- (a) in the case of a Note (other than a Zero Coupon Note, an Instalment Note and a Partly Paid Note) with a Final Redemption Amount equal to the Issue Price, at the Final Redemption Amount thereof;
- (b) in the case of a Note (other than a Zero Coupon Note but including an Instalment Note and a Partly Paid Note) with a Final Redemption Amount which is or may be less or greater than the Issue Price or which is payable in a Specified Currency other than that in which the Note is denominated, at the amount specified in, or determined in the manner specified in, the applicable Pricing Supplement or, if no such amount or manner is so specified in the applicable Pricing Supplement, at its nominal amount; or

- (c) in the case of a Zero Coupon Note, at an amount (the "**Amortised Face Amount**") calculated in accordance with the following formula:

$$\text{Early Redemption Amount} = \text{RP} \times (1 + \text{AY})^y$$

where:

RP means the Reference Price;

AY means the Accrual Yield expressed as a decimal; and

^y is a fraction the numerator of which is equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator of which is 360,

or on such other calculation basis as may be specified in the applicable Pricing Supplement.

7.8 **Instalments**

Instalment Notes will be redeemed in the Instalment Amounts and on the Instalment Dates. In the case of early redemption, the Early Redemption Amount will be determined pursuant to Condition 7.7.

7.9 **Partly Paid Notes**

Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition and the applicable Pricing Supplement.

7.10 **Conditions for Purchases in respect of Senior Notes**

This Condition 7.10 applies only to Notes specified in the applicable Pricing Supplement as being Senior Notes.

The Issuer, any of its Subsidiaries, any of its agents or any related corporation of the Issuer may at any time purchase Senior Notes (provided that, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) in any manner and at any price in the open market or otherwise. If purchases are made by tender, tenders must be available to all Noteholders alike. Such Senior Notes purchased by the Issuer, any of its Subsidiaries and/or any of its agents (other than those purchased in the ordinary course of business) must be surrendered to any Paying Agent and/or the Registrar for cancellation and accordingly may not be reissued or resold. Such Senior Notes purchased by any related corporation of the Issuer (other than its Subsidiaries) may be held, reissued, resold or, at the option of the Issuer or such related corporation of the Issuer, surrendered to any Paying Agent and/or the Registrar for cancellation.

Such Senior Notes purchased (i) by the Issuer, any of its Subsidiaries or any of its agents in the ordinary course of business or (ii) by any related corporation of the Issuer (other than its Subsidiaries), and in each case not cancelled shall be deemed not to remain outstanding for the purposes of attending and/or voting at any meeting of the Noteholders of any Series of the Notes and for the purposes of determining the quorum and/or majority required for requisitioning, or voting at, any such meeting as set out in the Agency Agreement.

In these Conditions, "**related corporation**" and "**Subsidiary**" have the meaning given to them in the Malaysian Companies Act 2016.

In these conditions, the term "**ordinary course of business**" includes those activities performed by the Issuer or any of its related corporation for third parties and excludes those activities performed for the funds of the Issuer or related corporation.

7.11 Conditions for Purchase in respect of Subordinated Notes and AT1 Notes

This Condition 7.11 applies only to Notes specified in the applicable Pricing Supplement as being Subordinated Notes or AT1 Notes.

Provided that no Trigger Event has occurred and is continuing, the Issuer, any of its Subsidiaries, any of its agents or any related corporation of the Issuer may at any time purchase, subject to the prior approval of BNM (but which approval shall not be required for a purchase made in the ordinary course of business), Subordinated Notes or AT1 Notes (provided that, in the case of Definitive Bearer Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) in any manner and at any price in the open market or otherwise. If purchases are made by tender, tenders must be available to all Noteholders alike. All Subordinated Notes or AT1 Notes which are purchased by the Issuer, any of its Subsidiaries, any of its agents or any related corporation of the Issuer (other than in the ordinary course of business) must be surrendered to any Paying Agent and/or the Registrar for cancellation and accordingly may not be reissued or resold.

Such Subordinated Notes and AT1 Notes purchased in the ordinary course of business and not cancelled shall be deemed not to remain outstanding for the purposes of attending and/or voting at any meeting of the Noteholders of any Series of the Notes and for the purposes of determining the quorum and/or majority required for requisitioning, or voting at, any such meeting as set out in the Agency Agreement.

7.12 Cancellation

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and the Notes purchased and cancelled pursuant to Condition 7.10 and 7.11 above (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Fiscal Agent and cannot be reissued or resold.

7.13 Late payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to Condition 7.1, 7.2, 7.3 or 7.4 above or upon its becoming due and repayable as provided in Condition 10 is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in Condition 7.7(c) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (a) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (b) five days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Notes has been received by the Fiscal Agent or the Registrar and notice to that effect has been given to the Noteholders in accordance with Condition 14.

7.14 Variation instead of redemption of Subordinated Notes or AT1 Notes

This Condition 7.14 applies only to Notes specified in the applicable Pricing Supplement as being Subordinated Notes or AT1 Notes.

If at any time a Regulatory Capital Event occurs in respect of Subordinated Notes or AT1 Notes, the Issuer may, instead of giving notice to redeem under Condition 7.6 and subject to Condition 7.15, without any requirement for the consent or approval of the Noteholders or

Couponholders, and having given not less than the 30 nor more than 60 days' notice to the Fiscal Agent and the Noteholders (which notice shall be irrevocable), at any time vary the terms of the Subordinated Notes or AT1 Notes, as the case may be, solely in order that they remain or become Qualifying Securities provided that:

- (a) such variation does not itself give rise to any right of the Issuer to redeem the Subordinated Notes or AT1 Notes, as the case may be, that is inconsistent with the redemption provisions of the Subordinated Notes or AT1 Notes, as the case may be, prior to such variation;
- (b) neither a Tax Event nor a Regulatory Capital Event arises as a result of such variation; and
- (c) the Issuer is in compliance with the rules of any stock exchange on which the Subordinated Notes or AT1 Notes, as the case may be, are for the time being listed or admitted to trading.

For the purposes of these Conditions, "**Qualifying Securities**" means securities, whether debt, equity, interests in limited partnerships or otherwise issued directly or indirectly by the Issuer that:

- (i)
 - (A) qualify (in whole or in part) as Tier 2 Capital Securities or Tier 1 Capital Securities, as the case may be; or
 - (B) may be included (in whole or in part) in the calculation of the capital adequacy ratio,

in each case, of the Issuer (either on a consolidated or non-consolidated basis);

- (ii) shall:
 - (A) rank at least equally to the Subordinated Notes or AT1 Notes, as the case may be;
 - (B) bear interest at a rate no lower than the Subordinated Notes or AT1 Notes, as the case may be, and have Interest Payment Dates that fall on the same dates as the Subordinated Notes or AT1 Notes, as the case may be;
 - (C) have the same redemption rights as the Subordinated Notes or AT1 Notes, as the case may be;
 - (D) preserve any existing rights under the Subordinated Notes or AT1 Notes, as the case may be, to accrued but unpaid interest in respect of the period from (and including) the Interest Payment Date immediately preceding the date of variation; and
 - (E) if applicable, are assigned (or have affirmed) no lower credit rating by any relevant international statistical rating agency as was assigned to the Subordinated Notes or AT1 Notes, as the case may be, immediately prior to the date of variation; and
- (iii) if applicable, are listed or admitted to trading on such stock exchange as the Subordinated Notes or AT1 Notes, as the case may be, were so listed or admitted to trading immediately prior to the date of variation.

Any such notice shall specify the relevant details of the manner in which such variation shall take effect and where the Noteholders can obtain or inspect copies of the new terms and conditions of the Notes. Such variation will be effected without any cost or charge to the Noteholders. The Fiscal Agent shall agree to such changes to the Agency Agreement as are

necessary to effect such variation provided that it shall not be required to agree to any variation that would impose more onerous obligations on it than those existing prior to such variation.

No variation pursuant to this Condition 7.14 shall constitute an Event of Default.

7.15 Redemption or Variation of Conditions of Subordinated Notes or AT1 Notes

This Condition 7.15 applies only to Notes specified in the applicable Pricing Supplement as being Subordinated Notes or AT1 Notes.

Any redemption or variation of the terms of Subordinated Notes or AT1 Notes by the Issuer is subject to the Issuer obtaining the prior written approval of BNM and any other regulatory approvals that may be required, and satisfying any conditions that BNM (and/or any other regulator) may impose at the time of such approval.

7.16 Loss Absorption upon a Trigger Event in respect of Subordinated Notes and AT1 Notes

This Condition 7.16 applies only to Notes specified in the applicable Pricing Supplement as being Subordinated Notes or AT1 Notes.

Following the occurrence of the earlier of the following (each a "**Trigger Event**"):

- (i) in respect of AT1 Notes only, the Common Equity Tier 1 ("**CET1**") Capital Ratio (as defined in the BNM Capital Adequacy Framework) of the Issuer on a consolidated or unconsolidated basis falls below 5.125 per cent.; or
- (ii) in respect of Subordinated Notes and AT1 Notes, BNM, jointly with the Malaysia Deposit Insurance Corporation ("**PIDM**"), so long as the Issuer is a Member Institution (as defined in Section 2 of the Malaysia Deposit Insurance Corporation Act 2011), or BNM, if the Issuer is no longer such a Member Institution (the "**Relevant Malaysian Authority**") has notified the Issuer in writing that the Relevant Malaysian Authority is of the opinion that a write-off of the principal and/or interest and (if applicable) any amounts owing under each Subordinated Note or AT1 Note, as the case may be, is necessary, without which the Issuer would cease to be viable; or
- (iii) in respect of Subordinated Notes and AT1 Notes, the Relevant Malaysian Authority publicly announces that a decision has been made by BNM, PIDM or any other federal or state government in Malaysia, to provide a capital injection or equivalent support to the Issuer, without which the Issuer would cease to be viable,

the Issuer, (in the case of paragraphs (ii) and (iii) above, only as directed by the Relevant Malaysian Authority), shall write-off, irrevocably and without the consent of the Noteholders, in whole or in part, amounts owing under the Subordinated Notes or AT1 Notes, as the case may be (a "**Write-off**") and each of the Noteholders will be automatically deemed to have irrevocably waived and no longer have any rights against the Issuer with respect to (1) its right to receive payment of the principal amount of the Subordinated Notes or AT1 Notes, as the case may be, or such portion to be written off, (2) its right to any interest on the Subordinated Notes or AT1 Notes, as the case may be (including any interest accrued but unpaid up to the date of the occurrence of the Trigger Event), and (3) its right to any amounts owing under each Subordinated Note or AT1 Note, as the case may be.

Upon the occurrence of a Trigger Event, the Issuer shall give an irrevocable notice (a "**Trigger Event Notice**") to the Noteholders and the Fiscal Agent, which notice shall:

- (A) state that a Trigger Event has occurred and provide reasonable detail of the nature of the relevant Trigger Event;
- (B) state the relevant amount to be written off per Subordinated Note or AT1 Note, as the case may be; and

- (C) be given no later than two (2) Business Days after the occurrence of the relevant Trigger Event.

The Trigger Event Notice (in the absence of manifest error) shall be irrevocable and binding on all parties.

By purchasing Subordinated Notes or AT1 Notes, each Noteholder shall be deemed to have acknowledged that, following the occurrence of a Trigger Event, it shall not with effect from the date of the relevant Trigger Event Notice transfer or attempt to transfer its Notes until such time as any Write-off shall have been effected.

For the avoidance of doubt, such Write-off (a) shall not constitute an Event of Default; (b) shall reduce the claim of the Noteholders in respect of the relevant Subordinated Notes or relevant AT1 Notes, as the case may be, in a Winding-up by the amount of such Write-off and (c) shall reduce the Early Redemption Amount in respect of such Subordinated Notes or AT1 Notes, as the case may be, by the amount of such Write-off. With respect to all Interest Payment Dates falling on or after the date of a Write-off, the amount of interest payable shall be calculated by reference to the principal amount of each Note as reduced by such Write-off.

Any reference to the principal amount in respect of Subordinated Notes or AT1 Notes, as the case may be, shall refer to such principal amount, as reduced by any applicable Write-off(s).

Where only part of the principal, interest and (if applicable) any other amounts owing under any Tier 1 Capital Securities or Tier 2 Capital Securities is to be written-off, the Issuer shall, with the prior written approval of the Relevant Malaysian Authority, use reasonable endeavours to conduct any Write-off such that:

- (i) the holders of any Series of Subordinated Notes are treated equally and rateably;
- (ii) the holders of any Series of AT1 Notes are treated equally and rateably;
- (iii) the Write-off of any Subordinated Notes is conducted:
 - (a) to the extent that the relevant Trigger Event Write-off Amount exceeds the aggregate principal amount of all Tier 1 Capital Securities of the Issuer that are capable of being converted or written-down under any applicable laws and/or their terms of issue, so as to Write-off Tier 2 Capital Securities of the Issuer (including the Subordinated Note) only in an aggregate principal amount equal to such excess; and
 - (b) on a *pro rata* and proportionate basis with all other Tier 2 Capital Securities of the Issuer, to the extent that such Tier 2 Capital Securities are capable of being converted or written-down under any applicable laws and/or their terms of issue; and
- (iv) the Write-Off of any AT1 Notes is conducted on a *pro rata* and proportionate basis with all other Tier 1 Capital Securities of the Issuer, to the extent that such Tier 1 Capital Securities are capable of being converted or written down under any applicable laws and/or their terms of issue.

For the purposes of these Conditions "**Trigger Event Write-off Amount**" means (i) in the case of a Write-Off consequent on paragraph (i) of the definition of Trigger Event, the principal and/or interest of each AT1 Note and (if applicable) any other amounts owing under such AT1 Note as shall be required to be written-off by the Issuer to restore the CET1 Capital Ratio of the Issuer on both a consolidated and unconsolidated basis to 5.75 per cent. (which amount may be the entire principal amount and interest (if any) or other amounts (if any) owing on such AT1 Note and, for the avoidance of doubt, the Write-Off shall be effected in full even if the principal amount of each AT1 Note written-off is insufficient to restore the CET1 Capital Ratio to 5.75 per cent.) and (ii) in all other cases, the principal and/or interest of each Subordinated Note or AT1 Note, as the case may be, and (if applicable) any other

amounts owing under each Subordinated Note or AT1 Note, as the case may be, as BNM shall determine to be required, or direct to be, written-off by the Issuer, without which the Issuer would cease to be viable. For the avoidance of doubt, the Write-off shall be effected in full even if the principal amount of each Subordinated Note or AT1 Note written-off is insufficient for the Issuer to cease to be non-viable.

8. TAXATION

All payments of principal and interest in respect of the Notes, Receipts and Coupons by the Issuer shall be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature ("**Taxes**") imposed or levied by or on behalf of a Relevant Jurisdiction unless the withholding or deduction of the Taxes is required by law. In that event, the Issuer will pay such additional amounts as shall be necessary in order that the net amounts received by the holders of the Notes, Receipts or Coupons after such withholding or deduction shall equal the respective amounts of principal and interest which would otherwise have been receivable in respect of the Notes, Receipts or Coupons, as the case may be, in the absence of the withholding or deduction; except that no such additional amounts shall be payable with respect to any Note, Receipt or Coupon:

- (a) presented for payment by or on behalf of, a holder who is liable to the Taxes in respect of such Note, Receipt or Coupon by reason of his having some connection with a Relevant Jurisdiction other than the mere holding of such Note, Receipt or Coupon; or
- (b) presented for payment more than 30 days after the Relevant Date except to the extent that a holder would have been entitled to additional amounts on presenting the same for payment on the last day of the period of 30 days assuming that day to have been a Payment Day (as defined in Condition 6.6).

As used herein:

- (i) "**Relevant Date**" means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Fiscal Agent or the Registrar on or prior to such due date, it means the date on which, the full amount of the money having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 14; and
- (ii) "**Relevant Jurisdiction**" means:
 - (A) where the Issuer is not acting through any of its branches, Malaysia or any political subdivision or any authority thereof or therein having power to tax or any other jurisdiction or any political subdivision or any authority thereof or therein having power to tax to which the Issuer becomes subject in respect of payments made by it of principal and interest on the Notes; or
 - (B) where the Issuer is acting through its Hong Kong Branch, Malaysia or any political subdivision or any authority thereof or therein having power to tax, Hong Kong or any political subdivision or any authority thereof or therein having power to tax, or any other jurisdiction or any political subdivision or any authority thereof or therein having power to tax to which the Issuer becomes subject in respect of payments made by it of principal and interest on the Notes; or
 - (C) where the Issuer is acting through its Singapore Branch, Malaysia or any political subdivision or any authority thereof or therein having power to tax, Singapore or any political subdivision or any authority thereof or therein having power to tax, or any other jurisdiction or any political subdivision or any authority thereof or therein having power to tax to which the Issuer becomes subject in respect of payments made by it of principal and interest on the Notes; or

- (D) where the Issuer is acting through a branch located in another jurisdiction (the "**Taxing Jurisdiction**"), Malaysia or any political subdivision or any authority thereof or therein having power to tax, the Taxing Jurisdiction or any political subdivision or any authority thereof or therein having power to tax, or any other jurisdiction or any political subdivision or any authority thereof or therein having power to tax to which the Issuer becomes subject in respect of payments made by it of principal and interest on the Notes.

9. **PRESCRIPTION**

The Notes (whether in bearer or registered form), Receipts and Coupons will become void unless presented for payment within a period of ten years (in the case of principal) and five years (in the case of interest) after the Relevant Date (as defined in Condition 8) thereof.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition 9 or Condition 6.2 or any Talon which would be void pursuant to Condition 6.2.

10. **EVENTS OF DEFAULT AND ENFORCEMENT**

10.1 **Events of Default relating to Senior Notes**

This Condition 10.1 applies only to Notes specified in the applicable Pricing Supplement as being Senior Notes.

If, in respect of any Senior Notes, any one or more of the following events (each an "**Event of Default**") shall occur and be continuing:

- (a) **Payment default:** default is made in the payment of any principal or interest due in respect of the Senior Notes and the default continues for a period of seven Business Days;
- (b) **Other defaults:** the Issuer fails to perform or comply with any of its other obligations under these Conditions and (except in any case where the failure is incapable of remedy, when no such continuation or notice as hereinafter mentioned is required) the failure continues for the period of 30 days next following the service by any Noteholder on the Issuer of notice requiring the same to be remedied;
- (c) **Cross-acceleration:** (i) any Indebtedness for Borrowed Money (as defined below) of the Issuer becomes due and repayable prematurely by reason of an event of default (however described); (ii) the Issuer fails to make any payment in respect of any Indebtedness for Borrowed Money on the due date for payment, or, as the case may be, within any originally applicable grace period; or (iii) default is made by the Issuer in making any payment due under any guarantee and/or indemnity given by it in relation to any Indebtedness for Borrowed Money of any other person; provided that no event described in this subparagraph (c) shall constitute an Event of Default unless the relevant amount of Indebtedness for Borrowed Money or other relative liability due and unpaid, either alone or when aggregated (without duplication) with other amounts of Indebtedness for Borrowed Money and/or other liabilities due and unpaid relative to all (if any) other events specified in (i) to (iii) above, amounts to at least U.S.\$50,000,000 (or its equivalent in any other currency);
- (d) **Winding-up of the Issuer:** an order is made by any competent court or an effective resolution is passed for the winding-up or dissolution of the Issuer;
- (e) **Insolvency:** the Issuer ceases to carry on the whole or substantially the whole of its business, save for the purpose of reorganisation on terms previously approved by an Extraordinary Resolution of the Noteholders, stops or threatens to stop payment of, or is unable to, or admits inability to, pay, its debts (or any class of its debts) as they fall

due or is deemed unable to pay its debts pursuant to or for the purposes of any applicable law, or is adjudicated or found bankrupt or insolvent;

- (f) **Security enforced:** (i) proceedings are initiated against the Issuer under any applicable liquidation, insolvency, composition, reorganisation or other similar laws, or an application is made (or documents filed with a court) for the appointment of an administrative or other receiver, manager, administrator or other similar official, or an administrative or other receiver, manager, administrator or other similar official is appointed, in relation to the Issuer, the whole or any substantial part of the Issuer's undertaking or assets or, an encumbrancer takes possession of the whole or any substantial part of the Issuer's undertaking or assets or, a distress, execution, attachment, sequestration or other process is levied, enforced upon, sued out or put in force against the whole or any substantial part of the Issuer's undertakings or assets, (ii) in any such case (other than the appointment of an administrator) unless initiated by the relevant company, is not discharged within 60 days and (iii) provided that where this Condition 10.1(f) relates to part only of the Issuer's assets, such parts shall amount to at least U.S.\$50,000,000 (or its equivalent in any other currency);
- (g) **Illegality:** it is or will become unlawful for the Issuer to perform or comply with any one or more of its obligations under any of the Senior Notes; or
- (h) **Analogous events:** any event occurs which, under the laws of any relevant jurisdiction, has an analogous effect to any of the events referred to in paragraphs (a) to (f) above,

then any holder of a Note may, by written notice to the Issuer at the specified office of the Fiscal Agent, effective upon the date of receipt thereof by the Fiscal Agent, declare any Senior Note held by it to be forthwith due and payable whereupon the same shall become forthwith due and payable at its Early Redemption Amount, together with accrued interest (if any) to the date of repayment, without presentment, demand, protest or other notice of any kind.

For the purposes of this Condition 10.1:

"Indebtedness for Borrowed Money" means any indebtedness (whether being principal, premium, interest or other amounts) for or in respect of any notes, bonds, debentures, debenture stock, loan stock or other securities or any borrowed money.

10.2 **Events of Default relating to Subordinated Notes and AT1 Notes**

This Condition 10.2 applies only to Notes specified in the applicable Pricing Supplement as being Subordinated Notes or AT1 Notes.

- (a) If default is made in the payment of any amount of principal or interest due in respect of the Subordinated Notes or AT1 Notes, as the case may be, (each, an **"Event of Default"**) and the default continues for a period of seven Business Days, then in order to enforce the obligations of the Issuer, any holder of a Note may institute a Winding-Up Proceeding against the Issuer provided that such Noteholder shall have no right to accelerate payment under such Subordinated Note or AT1 Note, as the case may be, in the case of such default in the payment of interest on or other amounts owing under such Subordinated Note or AT1 Note, as the case may be, or a default in the performance of any other obligation of the Issuer in such Subordinated Note or AT1 Note, as the case may be, or under the Agency Agreement. For the avoidance of doubt, no AT1 interest will be due and payable if such AT1 interest has been cancelled or is deemed cancelled (in each case, in whole or in part) as described under Condition 5.7 (*Limitation on Payment*) or Condition 5.8 (*Distributable Reserves*). Accordingly, no default in payment under the AT1 Notes will have occurred or be deemed to have occurred in such circumstances. Non-payment in respect of one tranche of the AT1 Notes shall not trigger an Event of Default in respect of the other tranches of the AT1 Notes.

- (b) If an order is made or an effective resolution is passed for the Winding-Up of the Issuer (whether or not an Event of Default has occurred and is continuing) then any holder of a Subordinated Note or AT1 Note, as the case may be, by written notice to the Issuer at the specified office of the Fiscal Agent, effective upon the date of receipt there by the Fiscal Agent, may declare any Subordinated Note or AT1 Note, as the case may be, held by it to be forthwith due and payable whereupon the same shall become forthwith due and payable at its Early Redemption Amount, together with accrued interest to the date of repayment, without presentment, demand, protest or other notice of any kind.

In this Condition 10.2:

"Winding-Up" shall mean, with respect to the Issuer, a final and effective order or resolution for the bankruptcy, winding-up, liquidation, receivership or similar proceeding in respect of the Issuer (except for the purposes of a consolidation, amalgamation, merger or reorganisation the terms of which have previously been approved by an Extraordinary Resolution of the Noteholders); and

"Winding-Up Proceedings" shall mean, with respect to the Issuer, (a) proceedings shall have been instituted or a decree or order shall have been entered in any court or agency or supervisory authority in Malaysia having jurisdiction in respect of the same for the appointment of a receiver or liquidator in any insolvency, rehabilitation, readjustment of debt, marshalling of assets and liabilities, or similar arrangements involving the Issuer or all or substantially all of its property, or for the winding up of or liquidation of its affairs and such proceeding, decree or order shall not have been vacated or shall have remained in force, undischarged or unstayed for a period of 60 days; or (b) the Issuer shall file a petition to take advantage of any insolvency statute.

10.3 **Enforcement**

In the case of Subordinated Notes and AT1 Notes and subject to applicable laws, no remedy (including the exercise of any right of set-off or analogous event) other than those provided for in Condition 10.2 above, will be available to the Noteholders, Receiptholders or Couponholders.

11. **REPLACEMENT OF NOTES, RECEIPTS, COUPONS AND TALONS**

Should any Note, Receipt, Coupon or Talon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Fiscal Agent or the Paying Agent (in the case of Bearer Notes, Receipts or Coupons) or the Registrar or the Transfer Agent (in the case of Registered Notes) upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

12. **AGENTS**

The names of the initial Agents and their initial specified offices are set out below.

The Issuer is entitled to vary or terminate the appointment of any Agent and/or appoint additional Agents and/or approve any change in the specified office through any of the same acts, provided that:

- (a) there will at all times be a Fiscal Agent and a Registrar;
- (b) so long as the Notes are listed on any stock exchange or admitted to trading by any other relevant authority, there will at all times be a Paying Agent (in the case of Bearer Notes) and a Registrar and Transfer Agent (in the case of Registered Notes) with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange or other relevant authority; and

- (c) so long as the Notes are listed on the SGX-ST and the rules of the SGX-ST so require, if the Notes are issued in definitive form, there will at all times be a Paying Agent in Singapore.

In addition, the Issuer shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in Condition 6.5. Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 nor more than 45 days' prior notice thereof shall have been given to the Noteholders in accordance with Condition 14.

In acting under the Agency Agreement, the Agents act solely as agents of the Issuer and, in certain circumstances specified therein, and do not assume any obligation to, or relationship of agency with, any Noteholders, Receiptholders or Couponholders. The Agency Agreement contains provisions permitting any entity into which any Agent is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor agent.

13. EXCHANGE OF TALONS

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 9.

14. NOTICES

All notices regarding Bearer Notes will be deemed to be validly given if published in a leading English language daily newspaper of general circulation in Asia, which is expected to be the *Asian Wall Street Journal*. The Issuer shall also ensure that notices are duly published in a manner which complies with the rules and regulations of any stock exchange or any other relevant authority on which the Bearer Notes are for the time being listed or by which they have been admitted to trading. Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers.

All notices regarding Registered Notes form will be deemed to be validly given if sent by first class mail or (if posted to an address overseas) by airmail to the holders (or the first named of joint holders) at their respective addresses recorded in the Register and will be deemed to have been given on the fourth day after mailing and, in addition, if and for so long as any Registered Notes are listed on a stock exchange or are admitted to trading by another relevant authority and the rules of that stock exchange or relevant authority so require, such notice will be published in a daily newspaper of general circulation in the place or places required by those rules.

Until such time as any definitive Notes are issued, there may, so long as any Global Notes representing the Notes are held in their entirety on behalf of CDP and/or Euroclear and/or Clearstream, Luxembourg and/or the CMU Service, be substituted for such notification as required by the Conditions the delivery of the relevant notice to CDP and/or Euroclear and/or Clearstream, Luxembourg and/or the CMU Service for communication by them to the holders of the Notes except that, for so long as any Notes are listed on a stock exchange or are admitted to trading by another relevant authority and the rules of that stock exchange or relevant authority so require, such notice will be published in a daily newspaper of general circulation in the place or places required by those rules. Any such notice shall be deemed to have been given to the holders of the Notes on the first day after the day on which the said notice was given to CDP and/or Euroclear and/or Clearstream, Luxembourg and/or the CMU Service.

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together (in the case of any Note in definitive form) with the relative Note or Notes, with the Fiscal Agent (in the case of Bearer Notes) or the Registrar (in the case of Registered Notes). Whilst any of the Notes are represented by a Global Note, such notice may be given by any holder of a Note to the Fiscal Agent or the Registrar through CDP and/or Euroclear and/or Clearstream, Luxembourg and/or the CMU Service, as the case may be, in such manner as the Fiscal Agent, the Registrar and CDP and/or Euroclear and/or Clearstream, Luxembourg, and/or the CMU Service, as the case may be, in such manner as the Fiscal Agent, the Registrar, the CMU Lodging and Paying Agent and CDP and/or Euroclear and/or Clearstream, Luxembourg and/or the CMU Service, as the case may be, may approve for this purpose.

Receiptholders and Couponholders will be deemed for all purposes to have notice of the contents of any notice given to the Noteholders in accordance with this Condition 14.

15. MEETINGS OF NOTEHOLDERS AND MODIFICATIONS

15.1 Meetings of Noteholders

The Agency Agreement contains provisions for convening meetings of the Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Notes, the Receipts, the Coupons or any of the provisions of the Agency Agreement. Such a meeting may be convened by the Issuer and shall be convened by the Issuer if required in writing by Noteholders holding not less than ten per cent, in nominal amount of the Notes for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing not less than 50 per cent, in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Noteholders (whatever the nominal amount of the Notes so held or represented), except that at any meeting the business of which includes the modification of certain provisions of the Notes, the Receipts or the Coupons (including modifying the date of maturity of the Notes or any date for payment of interest thereon, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes or altering the currency of payment of the Notes, the Receipts or the Coupons), the quorum shall be one or more persons holding or representing not less than two-thirds in nominal amount of the Notes for the time being outstanding, or at any such adjourned meeting one or more persons holding or representing not less than one-third in nominal amount of the Notes for the time being outstanding. An Extraordinary Resolution passed at any meeting of the Noteholders shall be binding on all the Noteholders, whether or not they are present at the meeting, and on all Receiptholders and Couponholders.

15.2 Modifications

The Fiscal Agent and the Issuer may agree, without the consent of the Noteholders, Receiptholders or Couponholders, to:

- (a) any modification (except such modifications in respect of which an increased quorum is required as mentioned above) of the Notes, the Receipts, the Coupons, the Deeds of Covenant or the Agency Agreement which is not materially prejudicial to the interests of the Noteholders, Receiptholders or Couponholders; or
- (b) any modification of the Notes, the Receipts, the Coupons, the Deeds of Covenant or the Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest or proven error or to comply with mandatory provisions of the law.

Any such modification shall be binding on the Noteholders, the Receiptholders and the Couponholders and any such modification shall be notified to the Noteholders in accordance with Condition 14 as soon as practicable after such modification is made in writing.

16. SUBSTITUTION

16.1 Senior Notes

This Condition 16.1 applies only to Notes specified in the applicable Pricing Supplement as being Senior Notes.

The Issuer, or any previous substituted company (if applicable), may at any time, without the consent of the Noteholders, Receiptholders or the Couponholders, substitute for itself as principal debtor under any Series of the Senior Notes, the Receipts, the Coupons and the Talons any Subsidiary, branch or affiliate of the Issuer, or the successor company of the Issuer, or jointly and severally one or more companies to whom the Issuer has transferred all of its assets and business undertakings (in each case the "**Substitute**") provided that the substitution shall be made by a deed poll (the "**Deed Poll**") to be substantially in the form scheduled to the Agency Agreement and may take place only if:

- (i) no Event of Default pursuant to Condition 10.1 has occurred and is continuing;
- (ii) the Substitute, by means of the Deed Poll, agrees to indemnify each Noteholder, Receiptholder and Couponholder against any tax, duty, assessment, withholding, deduction or governmental charge which is imposed on it by (or by any taxing authority in or of) the jurisdiction of the country of the Substitute's residence for tax purposes and, if different, of its incorporation with respect to any Senior Note, Receipt, Coupon, Talon or the relevant Deed of Covenant and which would not have been so imposed had the substitution not been made, as well as against any tax, duty, assessment or governmental charge, and any cost or expense, relating to the substitution;
- (iii) unless the Substitute is the successor company of the Issuer or one or more companies to whom the Issuer has transferred all of its assets and business undertakings each of whom are to be jointly and severally liable as principal debtor under the relevant Series of Senior Notes, Receipts, Coupons and Talons, the obligations of the Substitute under the Deed Poll, the Senior Notes, the Receipts, the Coupons and the Talons are unconditionally and irrevocably guaranteed by the Issuer or its successor or each of the companies to whom together the Issuer has transferred all of its assets and business undertakings (each a "**Guarantor**") by means of a guarantee substantially in the form contained in the Deed Poll (the "**Senior Guarantee**");
- (iv) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the Deed Poll, the Senior Notes, the Receipts, the Coupons, the Talons and the relevant Deed of Covenant represent valid, legally binding and enforceable obligations of the Substitute and, in the case of the Senior Guarantee, of the Guarantor have been taken, fulfilled and done and are in full force and effect;

- (vi) legal opinions addressed to the Noteholders have been delivered to them (care of the Fiscal Agent) from a lawyer or firm of lawyers with a leading securities practice in each jurisdiction referred to in (ii) above as to the fulfilment of the preceding conditions of this Condition 16 and the other matters specified in the Deed Poll;
- (vii) the substitution does not affect adversely the rating of the Senior Notes by any one internationally recognised rating agency of the Issuer or the Issuer's debt; and
- (viii) the Issuer has given at least 14 days' prior notice of such substitution to the Noteholders, stating that copies of all documents (in draft or final form) in relation to the substitution which are referred to above, or which might otherwise reasonably be

regarded as material to Noteholders, will be available for inspection at the specified office of each of the Paying Agents.

Such substitution effected in accordance with this Condition 16.1 will release the Issuer or any previously substituted company and the Noteholders, Receiptholders and Couponholders expressly consent hereto. References in Condition 10.1 to obligations under the Senior Notes shall be deemed to include obligations under the Deed Poll and, where the Deed Poll contains a Senior Guarantee, the events listed in Conditions 10.1(a) and 10.1(b) shall be deemed to include such Senior Guarantee not being (or being claimed by the Guarantor not to be) in full force and effect. In addition, the Senior Guarantee shall contain (A) events of default in respect of the Senior Notes in the same terms as Condition 10.1 relating to the Guarantor (except that references in Condition 10.1 (a) to failure to pay principal and interest on the Senior Notes shall be a reference to failure to pay under the Senior Guarantee), (B) provisions relating to the Senior Guarantee in the form of Condition 3.1, (C) provisions relating to the Guarantor in the form of Conditions 7.10 and 7.12 and (D) a negative pledge in relation to the Senior Guarantee in the form of Condition 4.

References to "outstanding" in relation to the Senior Notes of any Series shall, on a substitution of the Issuer where the Guarantor guarantees the Senior Notes, not include Senior Notes held by the Guarantor and its subsidiaries for the purposes of (i) ascertaining the right to attend and vote at any meeting of the Noteholders and (ii) the determination of how many Senior Notes are outstanding for the purposes of Condition 15.

16.2 Subordinated Notes and AT1 Notes

This Condition 16.2 applies only to Notes specified in the applicable Pricing Supplement as being Subordinated Notes or AT1 Notes

Subject to the provisions of this Condition 16.2, the Noteholders, Receiptholders and the Couponholders, by subscribing to or purchasing any Subordinated Notes or AT1 Notes, as the case may be, Receipts or Coupons, expressly consent to the Issuer, or any previously substituted company (if applicable), at any time, but where applicable, with the prior approval of BNM, substituting for itself as principal debtor under any Series of the Subordinated Notes or AT1 Notes, as the case may be, the Receipts, the Coupons and the Talons any Subsidiary, branch or affiliate of the Issuer or, the successor company of the Issuer or jointly and severally one or more companies to whom the Issuer has transferred all of its assets and business undertakings (in each case the "**Substitute**") provided that the substitution shall be made by a deed poll (the "**Deed Poll**") to be substantially in the form scheduled to the Agency Agreement and may take place only if:

- (i) no Event of Default pursuant to Condition 10.2 has occurred or is continuing;
- (ii) the Substitute, by means of the Deed Poll, agrees to indemnify each Noteholder, Receiptholder and Couponholder against any tax, duty, assessment, withholding, deduction or governmental charge which is imposed on it by (or by any taxing authority in or of) the jurisdiction of the country of the Substitute's residence for tax purposes and, if different, of its incorporation with respect to any Subordinated Note or AT1 Notes, as the case may be, Receipt, Coupon or Talon and which would not have been so imposed had the substitution not been made, as well as against any tax, duty, assessment or governmental charge, and any cost or expense, relating to the substitution;
- (iii) unless the Substitute is the successor company of the Issuer or one or more companies to whom the Issuer has transferred all of its assets and business undertakings each of whom are to be jointly and severally liable as principal debtor under the relevant Series of Subordinated Notes or AT1 Notes, as the case may be, Receipts, Coupons and Talons, the obligations of the Substitute under the Deed Poll, the Subordinated Notes, the Receipts, the Coupons and the Talons are unconditionally and irrevocably guaranteed by the Issuer or its successor or each of the companies to whom together the Issuer has transferred all of its assets and business undertakings (each a "**Guarantor**")

by means of a guarantee on a subordinated basis substantially in the form contained in the Deed Poll (the "**Subordinated Guarantee**");

- (iv) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the Deed Poll, the Subordinated Notes or AT1 Notes, as the case may be, the Receipts, the Coupons and the Talons and the relevant Deed of Covenant represent valid, legally binding and enforceable obligations of the Substitute and, in the case of the Subordinated Guarantee, of the Guarantor have been taken, fulfilled and done and are in full force and effect;
- (v) the Substitute has become party to the Agency Agreement, with any appropriate consequential amendments, as if it had been an original party to it;
- (vi) legal opinions addressed to the Noteholders have been delivered to them (care of the Fiscal Agent) from a lawyer or firm of lawyers with a leading securities practice in each jurisdiction referred to in (ii) above as to the fulfilment of the preceding conditions of this Condition 16.2 and the other matters specified in the Deed Poll;
- (vii) the substitution does not affect adversely the rating of the Subordinated Notes or AT1 Notes, as the case may be, by any one internationally recognised rating agency of the Issuer or the Issuer's debt; and
- (viii) the Issuer has given at least 14 days' prior notice to such substitution to the Noteholders, stating that copies, or pending execution the agreed text, of all documents in relation to the substitution which are referred to above, or which might otherwise reasonably be regarded as material to Noteholders, will be available for inspection at the specified office of each of the Paying Agents.

Such substitution effected in accordance with this Condition 16.2 will release the Issuer or any previously substituted company and the Noteholders, Receiptholders and Couponholders expressly consent hereto. References in Condition 10.2 to obligations under the Subordinated Notes or AT1 Notes, as the case may be, shall be deemed to include obligations under the Deed Poll and, where the Deed Poll contains a Subordinated Guarantee, the events listed in Conditions 10.2 shall be deemed to include such Subordinated Guarantee not being (or being claimed by the Guarantor not to be) in full force and effect. In addition, the Subordinated Guarantee shall contain (A) rights of enforcement in the form of Condition 10.2 (except that references in Condition 10.2 to failure to pay principal and interest on the Subordinated Notes or AT1 Notes, as the case may be, shall be a reference to failure to pay under the Subordinated Guarantee), (B) provisions relating to the Subordinated Guarantee in the form of Condition 3.2 and (C) provisions relating to the Guarantor in the form of Condition 7.11 and 7.12.

17. **FURTHER ISSUES**

The Issuer shall be at liberty from time to time without the consent of the Noteholders, the Receiptholders or the Couponholders to create and issue further notes (whether in bearer or registered form) having terms and conditions of the same as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon and so that the same shall be consolidated and form a single Series with the outstanding notes of any series (including the Notes).

18. **CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999**

No person shall have any right to enforce any term or condition of this Note under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

19. **CURRENCY INDEMNITY**

The Issuer shall indemnify the Noteholders, the Receiptholders and the Couponholders and keep them indemnified against:

- (i) any loss, damage, cost, charge, claim, demand, expense, judgment, action, proceeding or other liability whatsoever (including, without limitation in respect of taxes, duties, levies, imposts and other charges) and including any value added tax or similar tax charged or chargeable in respect thereof and legal fees and expenses incurred by any of them, on a full indemnity basis, arising from the non-payment by the Issuer of any amount due to the holders of the Notes and the relevant Receiptholders or Couponholders by reason of any variation in the rates of exchange between those used for the purposes of calculating the amount due under a judgment or order in respect thereof and those prevailing at the date of actual payment by the Issuer, as the case may be; and
- (ii) any deficiency arising or resulting from any variation in rates of exchange between (a) the date as of which the local currency equivalent of the amounts due or contingently due under these Conditions (other than this Condition 19) is calculated for the purposes of any bankruptcy, insolvency or liquidation of the Issuer and (b) the final date for ascertaining the amount of claims in such bankruptcy, insolvency or liquidation. The amount of such deficiency shall be deemed not to be reduced by any variation in rates of exchange occurring between the said final date and the date of any distribution of assets in connection with any such bankruptcy, insolvency or liquidation.

The above indemnities shall constitute obligations of the Issuer separate and independent from its other obligations under the other provisions in these Conditions and shall apply irrespective of any indulgence granted by the Noteholders, the Receiptholders or the Couponholders from time to time and shall continue in full force and effect notwithstanding the judgment or filing of any proof or proofs in any bankruptcy, insolvency or liquidation of the Issuer for a liquidated sum or sums in respect of amounts due under these Conditions (other than this Condition 19). Any such deficiency as aforesaid shall be deemed to constitute a loss suffered by the Noteholders, the Receiptholders and the Couponholders and no proof or evidence of any actual loss shall be required by the Issuer or its liquidator or liquidators. The above indemnities shall continue in full force and effect notwithstanding the termination or discharge of the Agency Agreement.

20. **GOVERNING LAW AND SUBMISSION TO JURISDICTION**

(a) **Governing law**

- (i) The Programme Agreement, Agency Agreement, the ECC Deed of Covenant, the Notes, the Receipts, the Coupons, the Talons and any non-contractual obligations arising out of or in connection with the Programme Agreement, Agency Agreement, the ECC Deed of Covenant, the Notes, the Receipts, the Coupons and the Talons are governed by, and shall be construed in accordance with, English law, except that the subordination provisions set out in Condition 3.2, Condition 3.3 and Condition 10.2 shall be governed by and construed in accordance with the laws of Malaysia.
- (ii) The CDP Deed of Covenant shall be governed by and construed in accordance with Singapore law.

(b) **Jurisdiction**

The courts of England are to have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Notes expressed to be governed by English law (including any dispute relating to any non-contractual obligations arising out of or in connection with the Notes) and accordingly any legal action or proceedings arising out of or in connection with the Notes (including any legal action or proceedings

relating to any non-contractual obligations arising out of or in connection with the Notes) may be brought in such courts. The Issuer irrevocably submits to the exclusive jurisdiction of such courts and waives any objection to proceedings in such courts whether on the ground of venue or on the ground that the proceedings have been brought in an inconvenient or inappropriate forum. This submission is made for the benefit of each of the Noteholders and shall not limit the right of any of them to take proceedings in any other court of competent jurisdiction, nor shall the taking of proceedings in one or more jurisdictions preclude the taking of proceedings in any other jurisdiction (whether concurrently or not).

(c) **Agent for service of process**

The Issuer irrevocably appoints Malayan Banking Berhad, London Branch at its registered office at 77 Queen Victoria Street, London, EC4V 4AY, United Kingdom, as its agent in England to receive service of process in any proceedings in England. If for any reason the Issuer does not have such an agent in England, it will promptly appoint a substitute process agent and notify the Noteholders of such appointment. Nothing herein shall affect the right to serve process in any other manner permitted by law.

(d) **Waiver of immunity**

The Issuer hereby irrevocably and unconditionally waives with respect to the Notes, the Receipts and the Coupons any right to claim sovereign or other immunity from jurisdiction or execution and any similar defence and irrevocably and unconditionally consents to the giving of any relief or the issue of any process, including without limitation, the making, enforcement or execution against any property whatsoever (irrespective of its use or intended use) of any order or judgment made or given in connection with any proceedings.

USE OF PROCEEDS

Unless otherwise specified in the Pricing Supplement, the net proceeds from each issue of Notes will be applied by the Issuer for its working capital, general banking and other corporate purposes.

INVESTMENT CONSIDERATIONS

Investors should carefully consider, among other things, the risks described below, as well as the other information contained in this Offering Circular, before making an investment decision. Any of the following risks could materially adversely affect the business, financial condition, results of operations, prospects and/or reputation of the Group and of the Issuer and, as a result, investors could lose all or part of their investment. The risks below are not the only risks the Group faces. Additional risks and uncertainties not currently known to the Group (and the Issuer), or that it currently deems to be immaterial may also materially adversely affect the business, financial condition, results of operations, prospects and/or reputation of the Group and of the Issuer. Words and expressions defined elsewhere in this Offering Circular shall have the same meanings in this section.

The Issuer believes that the factors described below represent the principal risks inherent in investing in the Notes issued under the Programme, but the Issuer's inability to pay any amounts on or in connection with any Note may occur for other reasons which may not be considered significant risks by the Issuer based on information currently available to it or which it may not currently be able to anticipate, and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Offering Circular (including any document incorporated by reference) and reach their own views prior to making any investment decision. In making an investment decision, each investor must rely on its own examination of the Issuer and the terms of the offering of the Notes.

CONSIDERATIONS RELATING TO THE GROUP

In the course of its business activities, the Group is exposed to a variety of risks, mainly consisting of credit risk, market risk, non-financial risk and liquidity risk. The Group ensures that its risk management framework, practices and processes remain robust by continuously adapting and strengthening its risk management approach and capabilities to effectively manage and mitigate risks to which it is exposed. While the Group believes that it has implemented the appropriate policies, systems and processes to control and mitigate these risks, investors should note that any failure to adequately manage these risks could be greater than anticipated and could result in adverse effects on the business, financial condition, results of operations, prospects and/or reputation of the Group.

Credit risk

Credit risk is the risk of loss of principal or income arising from the failure of an obligor or counterparty to perform its contractual obligations in accordance with agreed terms. Such risks could arise from adverse changes in the credit quality and recoverability of loans, advances and amounts due from counterparties which are inherent in a wide range of the Group's businesses or from a general deterioration in local or global economic conditions or from systemic risks within the financial system, all of which could affect the recoverability and value of the Group's assets and require an increase in the Group's provisions for the impairment of its assets and other credit exposures.

The Group believes that it has adopted effective credit strategies and sound risk management policies and processes. However, there is no assurance that these will remain effective or adequate in the future. Any failure to manage the credit risks of the Group may adversely affect the business, financial condition, results of operations, prospects and/or reputation of the Group.

Market risk

Market risk is the risk of loss or the adverse impact on earnings or capital arising from fluctuations in market rates or prices such as interest rates, foreign exchange rates, commodity prices and equity prices. Such risks can be further categorised based on trading and non-trading/banking book activities whereby traded market risk arises mainly from proprietary trading, flow trading and market making activities. These activities may create positions held with trading intent to express a market view, to benefit from short term price movements or to lock in arbitrage profits. Non-traded market risk is primarily inherent risk arising from banking book activities. The major risk classes are interest rate risk and/or rate of return risk in the banking book and foreign exchange risk.

The Group believes that it has adopted effective strategies and sound market risk management policies and processes. However, there is no assurance that these will remain effective or adequate in the future. Any failure to manage the market risk of the Group may adversely affect the business, financial condition, results of operations, prospects and/or reputation of the Group.

Interest rate risk in the Banking Book (“IRRBB”)

IRRBB is defined as risk of loss in earnings or economic value on banking book exposures arising from movements in interest rates. Sources of IRRBB include repricing, basis, yield curve and option risk. Accepting IRRBB is a normal part of banking and can be an important source of profitability and shareholder value. However, excesses of this risk can be detrimental to the Group’s earnings, capital, liquidity and solvency. Banking book policies and limits are established to measure and manage non-traded market risk. Repricing gap analysis remains one of the building blocks for Interest Rate Risk/Rate of Return Risk in the Banking Book assessment for the Group.

Through Group Asset and Liability Management Committee (“**Group ALCO**”) supervision, the lines of business are insulated from IRRBB through fund transfer pricing whereby non-traded market and liquidity risks are centralised at the group corporate treasury unit for active risk management and balance sheet optimisation. The group corporate treasury unit reviews the risk exposures regularly and recommends strategies to mitigate any unwarranted risk exposures in accordance with the approved policies. Although the Group believes that it has adopted sound interest rate risk management strategies, there is no assurance that such strategies will remain effective or adequate in the future.

Certain portfolios such as products with non-deterministic characteristics are subjected to periodic statistical modelling to understand the customer/product’s behavioural patterns in relation to changing rates and business cycles. Regular risk assessment and stress testing are applied to ensure the portfolios can withstand the risk tolerance and adverse rate scenarios.

Foreign Exchange (“FX”) Risk in the Banking Book

FX risk is the risk of loss in value arising from exchange rate movements. FX risk exposures can be attributed to structural and non-structural positions. Structural FX positions are primarily net investments in overseas branches and subsidiaries whereas other FX positions are non-structural in nature. Generally, structural FX positions need not be hedged as these investments are by definition “perpetual” and revaluation losses will not materialise if they are not sold. The residual or unhedged FX positions are managed in accordance with the approved policies and limits.

Foreign currency assets in the banking book may be match-funded by the same currency to minimise FX NOP. In addition, the Group implements qualitative controls such as listing of permissible onshore or offshore currencies and hedging requirements for managing FX risk. FX risk is primarily assessed from both earnings and capital perspectives. Group ALCO plays an active role in ensuring FX risk is managed within stipulated limits.

The Group believes that it has adopted effective strategies and sound management policies and processes. However, there is no assurance that these will remain effective or adequate in the future. Any failure to manage the FX risk of the Group may adversely affect the business, financial condition, results of operations, prospects and/or reputation of the Group.

Non-Financial Risk

Non-financial risk refers to the risk of loss arising from operational events and/or external factors that could result in monetary losses or negative impact to the brand value and stakeholder’s perception of the Group. Non-financial risk comprises of operational risk, information risk, reputational risk as well as other downside risks.

Although the Group has implemented risk controls and loss mitigation strategies and substantial resources are devoted to developing efficient procedures, it is not possible to entirely eliminate non-financial risks. In addition, the Group seeks to protect its computer systems and network infrastructure from physical break-ins as well as security breaches and other disruptive problems caused by the

Group's increased use of the internet. Computer break-ins and power disruptions could affect the security of information stored in, and transmitted through, these computer systems and network infrastructure. The Group employs various controls designed to minimise the risk of security breaches. A significant fraud, system failure, calamity or failure in security measures could have a material adverse effect on the business, financial condition, results of operations, prospects and/or reputation of the Group. In addition, the Group's reputation could be adversely affected by significant frauds committed by employees, customers or other third parties.

Liquidity risk

Liquidity risk is defined as the risk of an adverse impact to the financial condition or overall safety and soundness arising from the inability (or perceived inability) of, or unexpected higher cost to, the Group of meeting its obligations. It is also known as consequential risk, triggered by underlying problems which can be endogenous (e.g. credit risk deterioration, rating downgrade, operational risk events) or exogenous (e.g. market disruption, default in the banking payment system and deterioration of sovereign risk). Liquidity risk can be further classified into funding and market liquidity risk of which the former reflects the risk of a firm not being able to meet both expected and unexpected current and future cash flow and collateral needs effectively without affecting either daily operations or the financial condition of the firm. The latter refers to the risk of which a firm cannot easily offset or eliminate the position at market price because of inadequate market depth or market disruption.

Although the Group has sound policies as well as balance sheet strategies in place, there is no assurance that there will not be a liquidity crisis affecting the Group, and the failure to maintain adequate sources of funding may adversely affect the business, financial condition, results of operations, prospects and/or reputation of the Group.

A deterioration in asset quality could adversely affect the Group

Asset quality is one of the key drivers of a financial institution's performance. The Group adopts prudent credit risk management policies to manage its asset quality. The Group recognises that credit policies need to be responsive to the changing environment and diverse market conditions. Additionally, the establishment and application of lending rules, policies and guidelines must be consistently applied throughout the Group. The Group appreciates that loan pricing has to reflect the cost of risk in order to generate an optimal return on capital.

Although the Group believes that it has adopted effective policies and processes in managing asset quality and intends to maintain them, there is no assurance that the policies and processes will remain effective or adequate in the future. A deterioration of asset quality may adversely affect the business, financial condition, results of operations, prospects and/or reputation of the Group.

Deterioration in collateral values or inability to realise collateral value may necessitate an increase in the Issuer's provisions

A significant portion of the Issuer's loans are secured by collateral such as real estate and securities, the values of which may decline with a downturn in global economic conditions and/or outlook. Any downward adjustment in collateral values may lead to a portion of the Issuer's loans exceeding the value of the underlying collateral. Such downward adjustment, which will impact the future cash flow recovery, combined with a deterioration in the general credit worthiness of borrowers, may result in an increase in the Issuer's loan loss provisions and potentially reduce its loan recoveries from foreclosures of collateral, which could have an adverse effect on the business, financial condition, results of operations, prospects and/or reputation of the Group.

Expansion into overseas markets may increase the Group's risk profile

Building growth in overseas markets, forms a key pillar of the Group's strategy and such regional expansion may increase its risk profile and exposure.

Unfavourable economic developments regionally or changes in trends due to changes in labour costs, inflation, interest rates, taxation or political developments may adversely affect the business, financial

condition and results of operations of the Group and thus may affect its ability to make the payments due under the Notes.

The Group is also subject to regulatory supervision arising from a wide variety of banking and financial services laws and regulations in each jurisdiction. Non-compliance with any of these laws and regulations could lead to disciplinary action, the imposition of fines and/or the revocation of the relevant licence, permission or authorisation to conduct the Group's business in the jurisdiction in which it operates, or result in civil or criminal liability for the Group. There can be no assurance that such regional expansion will not have a material adverse effect on the Group's business, financial condition or results of operations and prospects or that the Group's credit and provisioning policies will be adequate in relation to such risks.

The Group's business is inherently subject to the risk of market fluctuations

The Group's business is inherently subject to risks in financial markets and in the wider economy, including changes in, and increased volatility of, exchange rates, interest rates, inflation rates, credit spreads, commodity, equity, bond and property prices and the risk that its customers act in a manner which is inconsistent with business, pricing and hedging assumptions. As a result of the Group's expansion into foreign markets, the Group may become increasingly exposed to changes in, and increased volatility of, foreign currency exchange rates. While the Group usually engages in foreign currency hedging transactions to minimise its foreign currency exposure, fluctuations in the value of the Ringgit against other currencies may adversely affect the Group's business, financial condition, results of operations, prospects and/or reputation.

The Group's inability to implement, or consistently follow, its risk management systems may adversely affect its business, financial condition and results of operations, and there can be no assurance that the Group's risk management systems will remain effective. In addition, the Group's risk management systems may not be fully effective in mitigating risk exposures that are unidentified or unanticipated.

The Group may be required to raise additional capital if its capital adequacy ratio deteriorates in the future or in order to comply with any new regulatory capital framework

BNM's Capital Adequacy Framework requires Malaysian banking institutions, including the Group, to maintain the following minimum capital adequacy ratios:

- (a) a minimum Common Equity Tier 1 ("**CET1**") capital ratio of 4.5 per cent.;
- (b) a minimum Tier 1 capital ratio of 6.0 per cent.; and
- (c) a minimum total capital ratio of 8.0 per cent..

In addition, banks are required to maintain additional capital buffers in the form of CET1 capital above the minimum CET1, Tier 1 and total capital ratio set out above in the form of a capital conservation buffer ("**CCB**"), a countercyclical capital buffer ("**CCYB**") and higher loss absorbency requirement ("**HLA requirement**") for a bank that is designated as a domestic systemically important bank ("**D-SIB**").

On 5 February 2020, BNM issued the Domestic Systemically Important Banks Framework ("**D-SIB Framework**"). The D-SIB Framework sets out the HLA requirement applicable to D-SIBs. The Group is classified as a D-SIB under bucket 2 by BNM and thus the applicable HLA requirement is 1% of risk-weighted assets. This requirement will come into effect on 31 January 2021. See "*Banking Regulation and Supervision*" for more details on HLA requirements.

To the extent a bank fails to maintain the relevant ratios, BNM may impose penalties on such a bank ranging from a fine to revocation of its banking licence.

The Group's and Bank's CET1 Capital Ratio before deducting single-tier second interim dividends, the Tier 1 capital ratio before single-tier second interim dividends and their total capital ratio before single-tier second interim dividends are as set out in the section headed "*Selected Financial Information of the Group*" below.

The Group's capital base and capital adequacy ratio may deteriorate in the future if its results of operations or financial condition deteriorate for any reason, including as a result of any deterioration in the asset quality of its loans, or if the Group is not able to deploy its funding into suitably low-risk assets. If the Group's capital adequacy ratio deteriorates, it may be required to obtain additional CET1, Additional Tier 1 or Tier 2 capital in order to remain in compliance with the applicable capital adequacy guidelines. However, the Group may not be able to obtain additional capital on favourable terms depending on the market conditions and circumstances prevailing at the time of the intended capital raising, or at all.

Furthermore, there can be no assurance that BNM will not amend the Capital Adequacy Framework in a manner which imposes additional capital requirements on, or otherwise affects the capital adequacy requirements relating to, Malaysian banks. The approach and local implementation of Basel III will depend on BNM's response which may potentially impact the Group in various ways depending on the composition of its qualifying capital and risk weighted assets. Although the Group has always maintained a strong capital position that consistently ensures an optimal capital structure to meet the requirements of various stakeholders, there can be no assurance that the Group will not face increased pressure on its capital in the future to comply with Basel III standards and the Capital Adequacy Framework which may have an adverse effect on the business, financial condition, results of operations, prospects and/or reputation of the Group.

The Group is dependent on its directors and senior management

The Group relies on its directors and senior management for its business direction and business strategy. The loss of directors or members of the senior management team could adversely affect its ability to operate its business or to compete effectively, and in turn, affect its financial performance and prospects. The senior management has developed succession plans and training programmes for the development of talent within the Group. However, there can be no assurance that such measures will be sufficient to prevent any loss of directors or members of the senior management team throughout the tenor of any Notes.

The Group may be unable to comply with the restrictions and covenants contained in its debt agreements

If the Group is unable to comply with the restrictions and covenants in its current or future debt agreements, there could be a default under the terms of those agreements. In the event of a default under those agreements, the creditors of the debt could terminate their commitments to lend to the Group, accelerate the debt and declare all amounts borrowed due and payable and/or terminate such debt agreements, whichever the case may be. Such actions may result in an Event of Default under the Terms and Conditions of the Notes issued.

The Group may not be successful in implementing new business strategies or penetrating new markets

The Group's business strategy includes developing new products and increasing the Group's presence regionally. The expansion of the Group's business activities may expose it to a number of risks and challenges including, among other things, the following:

- (a) new and expanded business activities may have less growth or profit potential than the Group anticipates, and there can be no assurance that new business activities will become profitable at the level the Group desires or at all;
- (b) the new business strategy may alter the risk profile of the Group's portfolio;
- (c) the Group may fail to identify and offer attractive new services in a timely manner, putting it at a disadvantage with competitors;
- (d) the Group's competitors may have substantially greater experience and resources in the new and expanded business activities therefore the Group may not be able to attract customers from its competitors; and

- (e) economic conditions such as changes in interest rates, inflation or the regulatory environment such as changes in laws and regulations may hinder the Group's expansion.

The Group's inability to implement its business strategy could have a material adverse effect on its business, financial condition, results of operations, prospects and/or reputation.

Any failure to keep pace with technological advances or to maintain an appropriate level of investment in information technology may adversely affect the business, financial condition, results of operations, prospects and/or reputation of the Group

The Group is committed to keeping pace with technological advances and has invested in information technology to foster and support the Group's business objectives. Although the Group intends to continue to make investments to promote new levels of process efficiency and effectiveness to improve its business performance and risk management capabilities, these investments and the ensuing changes with respect to its information technology may expose the Group to technical or operational risks or difficulties associated with transitioning or integrating its existing systems and infrastructure with the introduction of new technologies, systems or other equipment. There can be no assurance that the Group's efforts in enhancing its information technology will be successful or adequate. Any strategic error in implementing its new information technology platform and any failure to maintain an appropriate level of investment in information technology for the Group could adversely affect its business, financial condition, results of operations, prospects and/or reputation.

CONSIDERATIONS RELATING TO MALAYSIA

For the year ended 31 December 2019, approximately 89.4 per cent. of the Group's net operating income was derived from activities in Malaysia. Any factors which could materially or adversely affect the macroeconomic conditions of Malaysia could have a similar effect on the business, financial condition, results of operations, prospects and/or reputation of the Group.

Global or regional developments may have a material adverse impact on the Group

The economic, market, political and policy conditions in other countries, particularly in major advanced economies (e.g. the U.S., Europe, Japan), large emerging market economies (e.g. the PRC) and Asia (e.g. North East Asia, ASEAN) that are Malaysia's key trading partners and sources of foreign direct investment and portfolio capital, could have an influence on the Malaysian economy. Any deterioration in economic conditions, widespread financial market and currency instability, as well as volatility in commodity prices causing significant loss of consumer, business and investor confidence in these economies, may adversely affect the Malaysian economy, which in turn could materially and adversely affect the business, financial condition, results of operations, prospects and/or reputation of the Group.

Examples of such external factors or conditions that are outside the Group's control include, but are not limited to the following:

- (a) entry of new competitors into the Malaysian banking market from foreign countries and other actions by new and existing local and foreign competitors;
- (b) impact of technological innovation and adoption such as digital economy, e-commerce, blockchain and crypto-currency on the banking industry and financial sector due to the entry of, and competition from, financial technology or "fintech" companies, and a changing regulatory landscape via developments in regulation technology or "regtech";
- (c) general economic, markets, political and social conditions in Malaysia and key foreign economies;
- (d) financial markets, currency and interest rate fluctuations;
- (e) movements in commodity prices where Malaysia and key foreign economies are major producers and exporters, namely crude oil, palm oil, natural gas and coal;

- (f) consumer spending patterns in Malaysia and key foreign economies;
- (g) inflationary pressure in Malaysia and key foreign economies;
- (h) international events and circumstances such as major policy changes, wars, terrorist attacks, natural disasters and political instability; and
- (i) changes in legal regimes and governmental regulations, such as licensing and approvals, taxation, duties and tariffs in Malaysia and key foreign markets.

These factors may adversely affect the business, prospects, financial conditions, results of operations and/or reputation of the Group.

The effects of the COVID-19 pandemic or the outbreak of any other infectious disease or pandemic or any other serious public health concerns in Asia, the United States, Australia, Europe, the Middle East and/or globally and any policies or measures adopted in response by the governments could adversely impact the business, financial condition, results of operations, prospects and/or reputation of the Group

The COVID-19 pandemic is having and will continue to have significant effects on the global economy, including indefinite closure of significant economic sectors in many countries, widespread insolvencies, mass unemployment, closure of national borders, mandatory quarantines for international travellers, disruption of supply chains and global trade, severe strains on government finances and global economic recession. National authorities have also taken unprecedented measures to contain this pandemic, such as inbound and outbound travel restrictions, bans on large social gatherings, shutdowns of non-essential services, enforced business closures and most restrictively, blanket quarantine orders on all segments of the population. While these “social distancing” measures are crucial for public health, they have triggered concurrent supply and demand shocks. This in turn has led to heightened turbulence in global financial markets, further amplified by uncertainty in the global oil market.

Similarly, in Malaysia, the economy is expected to shrink, reflecting the impact of the COVID-19 pandemic and the domestic Movement Control Order, as well as the drop in crude oil prices. The government’s attempts to mitigate the impact of the recession include (i) a monetary policy stimulus via a cumulative 100 bps cut in the overnight policy rate and (ii) cuts in the Statutory Reserve Requirement. In addition, the Economic Stimulus Package totalling RM260 billion (17% of Malaysia's GDP) was announced to provide relief to individuals and businesses hardest hit by the COVID-19 pandemic. On 6 May 2020, the Minister of Finance announced that banks in Malaysia will waive the additional interest or profit charges imposed on instalments for hire-purchase loans for the 6-months moratorium previously announced (see below). As at the date of this Offering Circular, the operation mechanics and financial treatment have yet to be ascertained but it is expected that such waiver may have an adverse impact on the Group's business, financial condition and/or results of operations.

BNM has also taken steps to ensure that monetary and liquidity conditions remain supportive of economic activity. On 25 March 2020, BNM announced several regulatory and supervisory measures to support efforts by banks to assist individuals, small and medium enterprises ("SMEs") and corporations to manage the impact of the COVID-19 outbreak:

- (a) Banks will provide an automatic moratorium to individuals and SMEs for loan/financing repayments for a period of six months, effective 1 April 2020. The offer is applicable to performing loans, denominated in Ringgit, that are not in arrears for more than 90 days as at 1 April 2020. Corporates may choose to opt into the moratorium.
- (b) To ensure sufficient liquidity in the domestic market, BNM is:
 - (i) allowing banks to operate below the minimum liquidity coverage ratio ("LCR") requirement of 100%
 - (ii) allowing banks to drawdown the capital conservation buffer of 2.5%
 - (iii) reducing the regulatory reserves held against expected losses to 0%.

- (c) Meanwhile, the Net Stable Funding Ratio ("**NSFR**") will be implemented effective 1 July 2020, at a lower level of 80%. NSFR is a liquidity standard that seeks to measure the proportion of a bank's long-term assets that are funded by long-term stable funding. Hence, it requires banks to maintain a stable funding in relation to the composition of their assets and off-balance sheet activities.

In Singapore, the "circuit breaker" imposed by the government due to the COVID-19 outbreak will see about 30% of the economy shut down, with only essential services such as food, healthcare, social services, financial services, transport, energy and water, waste and environment operating during the relevant period. A SGD59.9 billion fiscal package has been allocated to mitigate the impact of COVID-19.

In Indonesia, Bank Indonesia has cut policy interest rates by 50 bps in the first quarter of 2020 to support domestic demand. The government of Indonesia has also announced economic packages worth IDR438.3 trillion to mitigate the impact of the COVID-19 pandemic.

It is uncertain when the restrictive measures taken by governments to contain and slow the spread of COVID-19 will be able to be safely lifted and how long it will take for the global economy to recover. As at the date of this Offering Circular, the global economy has experienced significant supply, demand, market and currency shocks arising from the rapid spread of the COVID-19 pandemic. A number of governments (including the Malaysian government) have already made downward revisions to GDP growth forecasts for 2020 given the supply and demand disruptions arising from the extended movement control orders and nationwide lockdowns due to the COVID-19 pandemic. In the event that there is another global or regional financial crisis or a deterioration in the economic or political environment of Malaysia or any other countries in which the Group operates, the Group may experience a material adverse effect on its business, financial condition and/or results of operations.

The expected impacts of the COVID-19 pandemic on the general banking sector are (i) compression to net interest margin due to rate cuts, (ii) lower loans growth from reduced business activities and consumer spending and (iii) potentially higher credit cost from (a) weakening credit quality of customers and (b) having to cushion the financial and cashflow impact to banks following any unprecedented monetary policies undertaken by governments to revive and alleviate the financial burden of the nation. While Maybank continues to monitor developments arising from the COVID-19 pandemic, it will continue to prioritise liquidity and capital strength and maintain these ratios/levels above regulatory requirements. The Group will also manage the net interest margin compression given the low rate environment in its operating markets and will pursue growth opportunities in line with its risk appetite. The Group is also working with its borrowers to provide viable solutions for the borrowers affected by COVID-19, in an effort to support employment and prevent business failures. The Group is mindful that a prolonged outbreak could cause further uncertainty to economic growth and recovery and is likely to adversely impact the business, results of operations, financial condition, prospects and/or reputation of the Group. There can be no assurance that the Group will not face increased pressure as a result of any policies and/or interventions undertaken to curb the COVID-19 pandemic. Additionally, any such policies and/or interventions undertaken by governments to curb the COVID-19 pandemic may adversely affect the Group's business, financial condition and results of operations.

In addition to the above, further outbreaks of COVID-19 or the outbreak of any other infectious disease or pandemic (such as MERS, Ebola, the avian flu, H1N1, SARS and the Zika virus) in Asia, the United States, Australia, Europe, the Middle East and/or globally, together with any resulting restrictions on travel and/or imposition of quarantines, could have a negative impact on the economy and business activities of the various countries in which the Group operates and potentially result in the disruption of global supply chains and world trade, negatively affecting global economic growth. There can be no assurance that any precautionary measures taken against infectious diseases or pandemic would be effective. Any failure to manage these risks may adversely affect the business, financial condition, results of operations, prospects and/or reputation of the Group.

Impact of imposition of capital controls

There can be no assurance that the Malaysian Government will not impose any forms of capital controls in the future. If the Government imposes or introduces foreign exchange controls, investors may not be able to repatriate the proceeds of the sale of the Notes and interest and principal paid on the Notes from Malaysia for a specified period of time or may only be able to do so after paying a tax or levy.

Inflationary pressures in Malaysia and potential impact upon the Malaysian economy

Any emergence of inflationary pressures in the Malaysian economy could adversely affect the business, financial condition, prospects, results of operations or reputation of the Issuer and the Group.

CONSIDERATIONS RELATING TO THE MALAYSIAN BANKING INDUSTRY

Regulatory Environment

The Issuer is regulated by BNM. The Group is also subject to relevant banking, securities and other laws of Malaysia. BNM has extensive powers to regulate the Malaysian banking industry under the Financial Services Act 2013 ("FSA") and the Islamic Financial Services Act 2013 ("IFSA"). This includes the power to limit the interest rates charged by banks on certain types of loans, establish caps on lending to certain sectors of the Malaysian economy and establish priority lending guidelines in furtherance of certain social and economic objectives. BNM also has broad investigative and enforcement powers. Accordingly, potential investors should be aware that BNM could, in the future, set interest rates at levels or restrict credit in a way which may be adverse to the operations, financial condition or asset quality of banks and financial institutions in Malaysia, including the Group, and may otherwise significantly restrict the activities of the Group and Malaysian banks and financial institutions generally.

Increasing competition and market liberalisation

The Group faces competition from other domestic banking groups as well as foreign banks operating in Malaysia. Increased competition could result in lower growth rate of the Group's loan portfolio, lower asset quality, reduced net interest margins and spreads and increased non-interest expense, as well as a decline in the volume of the Group's related businesses and lead to an adverse effect on the Group's business, financial condition, results of operations or prospects. While the Group believes that it has formulated strategies to compete effectively in the market place, there can be no assurance that it will be able to execute its strategies or that it will be able to effectively compete against its existing and future competitors.

Scope and cost of deposit insurance in Malaysia

In Malaysia, PIDM manages the deposit insurance system which is established to protect depositors against the loss of their deposits in the event a member institution is unable to meet its obligations to depositors. The deposit insurance limit is RM250,000 per depositor per member bank.

Deposits exceeding the prescribed limit are not insured up to their full amount. This could lead to or exacerbate liquidity problems, which, if severe, could have an adverse effect on the Group's business, financial condition, results of operations or prospects, or on the Malaysian financial markets generally.

CONSIDERATIONS RELATING TO THE STRUCTURE OF A PARTICULAR ISSUE OF NOTES

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of certain such features and risks associated.

Notes subject to optional redemption by the Issuer

An optional redemption feature is likely to limit the market value of Notes. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Subordinated Notes and AT1 Notes subject to early redemption by the Issuer

The Issuer may, at its option, redeem all or some only of the Subordinated Notes or the AT1 Notes on any Optional Redemption Date or redeem any tranche of the Subordinated Notes or AT1 Notes, if there is any occurrence of a Tax Event or a Regulatory Capital Event, subject to the Redemption Conditions being satisfied, in accordance with Condition 7.2, Condition 7.3 and Condition 7.6 respectively.

The redemption of one Series of the Subordinated Notes or AT1 Notes pursuant to the Issuer Call, Tax Event or Regulatory Capital Event does not trigger the redemption of other Series of the Subordinated Notes or AT1 Notes.

Partly-Paid Notes

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment on a Partly-Paid Note could result in an investor losing all of its investment.

Variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Inverse Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of those Notes are typically more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or vice versa. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of such Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the

Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium to their nominal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Index Linked Notes and Dual Currency Notes

The Issuer may issue Notes with principal or interest determined by reference to an index or formula, to changes in the prices of securities or commodities, to movements in currency exchange rates or other factors (each a "**Relevant Factor**"). In addition, it may issue Notes with principal or interest payable in one or more currencies which may be different from the currency in which the Notes are denominated. Potential investors should be aware that:

- (i) the market price of such Notes may be volatile;
- (ii) they may receive no interest;
- (iii) the payment of principal or interest may occur at a different time or in a different currency than expected;
- (iv) the amount of principal payable at redemption may be less than the nominal amount of such Notes or even zero;
- (v) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (vi) if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable will likely be magnified; and
- (vii) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

The historical experience of an index should not be viewed as an indication of the future performance of such index during the term of any Index Linked Notes. Accordingly, each potential investor should consult its own financial and legal advisers about the risk entailed by an investment in any Index Linked Notes and the suitability of such Notes in light of its particular circumstances.

CONSIDERATIONS RELATING TO THE NOTES GENERALLY

Notes may not be a suitable investment for all investors

Each potential investor in any Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Offering Circular or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where principal or interest is payable in one or more currencies, or

where the currency for principal or interest payments is different from the potential investor's currency;

- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to or referencing such "benchmarks"

Reference rates and indices, including interest rate benchmarks used to determine the amounts payable under financial instruments or the value of such financial instruments ("**Benchmarks**" and each a "**Benchmark**") (including LIBOR, EURIBOR, SIBOR and SOR) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a "benchmark".

Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to or referencing LIBOR, EURIBOR, SIBOR and SOR. Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation reforms in making any investment decision with respect to any Notes linked to or referencing LIBOR, EURIBOR, SIBOR and SOR.

Regulation and reform of benchmarks, including LIBOR, EURIBOR and other interest rates and other types of benchmarks may adversely affect the value of Floating Rate Notes

The Issuer may issue Floating Rate Notes, the interest rate on which fluctuates according to fluctuations in a specified interest rate benchmark. In the EU, changes have been implemented pursuant to the Benchmarks Regulation, applicable since 1 January 2018. In the United Kingdom, the Financial Conduct Authority has announced that it does not intend to continue to persuade or compel panel banks to submit rates for the calculation of LIBOR and that the continued publication of LIBOR on the current basis cannot be guaranteed after 2021. Similarly, The Association of Banks in Singapore has also proposed to discontinue certain tenors for SIBOR and to amend the methodology for determining SIBOR.

The Conditions provide for certain fallback arrangements in the event that a published Benchmark, including LIBOR, EURIBOR or other relevant reference rates, (including any page on which such Benchmark may be published (or any successor service)) becomes unavailable or a Benchmark Event or Benchmark Transition Event (as defined in the Conditions) otherwise occurs, including the possibility that the rate of interest could be set by the Issuer, in consultation with an Independent Adviser (without a requirement for the consent or approval of the Noteholders) by reference to a successor rate or an alternative reference rate and that such successor rate or alternative reference rate may be adjusted (if required) in order to reduce or eliminate, to the fullest extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to investors arising out of the

replacement of the relevant Benchmark. In certain circumstances, the ultimate fallback for the purposes of calculation of interest for a particular Interest Period may result in the rate of interest for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page. In addition, due to the uncertainty concerning the availability of successor rates and alternative reference rates and the involvement of an Independent Adviser, the relevant fallback provisions may not operate as intended at the relevant time.

Any such consequences could have a material adverse effect on the trading market for, liquidity of, value of and return on any such Floating Rate Notes. Moreover, any of the above matters or any other significant change to the setting or existence of any relevant reference rate could affect the ability of the Issuer to meet its obligations under the Floating Rate Notes or could have a material adverse effect on the value or liquidity of, and the amount payable under, the Floating Rate Notes. Investors should consider these matters when making their investment decision with respect to the relevant Floating Rate Notes.

Investors should pay attention to any modification, waivers and substitution

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

Bearer Notes where denominations involve integral multiples: definitive bearer Notes

In relation to any issue of Notes in bearer form which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in bearer form in respect of such holding (should such Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If definitive Notes in bearer form are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Noteholders' ability to enforce claims is uncertain

Substantially all the assets of the Issuer are located in Malaysia. Generally, since the United Kingdom is a reciprocating country, any final and conclusive judgment obtained against the Issuer in any of the superior courts of the United Kingdom or other reciprocating countries as listed in the Reciprocal Enforcement of Judgments Act, 1958 of Malaysia, other than a judgment of such a court given on appeal from a court which is not a superior court, can be registered in the Malaysian High Court without re-examination or re-litigation of the matters adjudicated upon, if:

- (i) the judgment was not obtained by fraud;

- (ii) the enforcement of the judgment would not be contrary to natural justice or the public policy of Malaysia and the adjudicating court has jurisdiction over the Issuer according to the principles of private international laws of Malaysia;
- (iii) the enforcement of the judgment would not be an enforcement of penal or revenue laws;
- (iv) the judgment was not obtained in proceedings in which the defendant did not (notwithstanding that process may have been duly served on him in accordance with the laws of England) receive notice of those proceedings in sufficient time to enable it to defend the proceedings and did not appear;
- (v) there has not been an earlier judgment of a competent court;
- (vi) the judgment is for a fixed sum;
- (vii) is not a sum payable in respect of taxes or other charges of a like nature or in respect of a fine or other penalty;
- (viii) enforcement of proceedings is instituted within six years after the date of the judgment;
- (ix) an appeal is not pending, and the judgment creditor is not entitled and intending to appeal, against the judgment;
- (x) the judgment was made by a court of competent jurisdiction;
- (xi) is vested in the person by whom the application for registration was made; and
- (xii) the judgment has not been wholly satisfied and is enforceable by execution in the courts of England.

As a result, Noteholders with claims against the Issuer, its directors or executive officers, will generally be able to pursue such claims by registering such judgments obtained in the recognised English courts or those of other reciprocating countries in the Malaysian High Court. In addition, where the sum payable under a judgment which is to be registered is expressed in a currency other than Malaysian currency, the judgment shall be registered as if it were a judgment for such sum in Malaysian currency as is equivalent to the sum so payable on the basis of the rate of exchange prevailing at the date of the judgment of the original court.

Global financial turmoil has led to volatility in international capital markets which may adversely affect the market price of the Notes

Global financial turmoil has resulted in substantial and continuing volatility in international capital markets. Any further deterioration in global financial conditions could have a material adverse effect on worldwide financial markets, which may adversely affect the market price of the Notes.

Limited rights of enforcement and subordination of the Subordinated Notes and AT1 Notes could impair an investor's ability to enforce its rights or realise any claims on the Subordinated Notes or AT1 Notes

In most circumstances, the sole remedy against the Issuer available to the holders of Subordinated Notes or AT1 Notes to recover any amounts owing in respect of the principal of or interest on the Subordinated Notes or AT1 Notes will be to institute proceedings for the winding-up of the Issuer in Malaysia. See Condition 10.2 of the *"Terms and Conditions of the Notes"*.

If the Issuer defaults on the payment of principal or interest on the Subordinated Notes or AT1 Notes or fails to perform its covenants, the holders of the Subordinated Notes or AT1 Notes will have no right to accelerate payment of the Subordinated Notes or AT1 Notes, except as they may be so permitted under the Terms and Conditions of the Notes.

The Subordinated Notes and the AT1 Notes are each subordinated obligations of the Issuer as set out under the *"Terms and Conditions of the Notes"*. In a Winding-up Proceeding, the holders of the

Subordinated Notes or AT1 Notes may recover less than the holders of deposit liabilities or the holders of other unsubordinated liabilities of the Issuer, as applicable. As there is no precedent for a winding-up of a major financial institution in Malaysia, there is uncertainty as to the manner in which such a proceeding would occur and the results thereof. Although Subordinated Notes or AT1 Notes may pay a higher rate of interest than comparable Notes which are not subordinated, there is a real risk that an investor in Subordinated Notes or AT1 Notes will lose all or some of his investment should the Issuer become insolvent.

The winding-up of the Issuer is subject to prior written approval of BNM. Under the FSA, no application for the winding-up of a licensed person (i.e. all banks, which includes the Issuer), an operator of a payment system or an approved person can be presented to the Malaysian High Court without the prior written approval of BNM. In addition, a copy of such an application to the Malaysian High Court must also be delivered to BNM at the same time as it is presented to the Malaysian High Court. The failure to comply with such requirements is an offence and a person convicted of such offence is liable to imprisonment and/or a fine.

As a consequence of the subordination provisions, in the event of a winding up of the Issuer's operations, the holders of any Subordinated Notes or AT1 Notes may recover less rateably than the holders of deposit liabilities or the holders of the Issuer's other unsubordinated liabilities. The Issuer believes that all of these deposit liabilities rank senior to the Issuer's obligations under the Subordinated Notes or AT1 Notes. Any Subordinated Notes or AT1 Notes and the Terms and Conditions of the Notes do not limit the amount of the liabilities ranking senior to the Subordinated Notes or AT1 Notes which may be hereafter incurred or assumed by the Issuer.

There is also no restriction on the amount of securities which the Issuer may issue and which rank *pari passu* with the Subordinated Notes or AT1 Notes. The issue of any such securities may reduce the amount recoverable by the holders of the Subordinated Notes or AT1 Notes on a winding-up of the Issuer. In the winding-up of the Issuer and after payment of the claims of senior creditors and of depositors, there may not be a sufficient amount to satisfy the amounts owing to the holders of the Subordinated Notes or AT1 Notes.

The Subordinated Notes and the AT1 Notes may be varied by the Issuer

The Issuer may, subject to the approval of BNM and as set out in the Terms and Conditions of the Notes and the applicable Pricing Supplement, vary the terms of the Subordinated Notes or AT1 Notes, as the case may be, in order that they remain Tier 1 Capital Securities or Tier 2 Capital Securities, respectively. Any such variation may have adverse consequences for holders of the Subordinated Notes or the AT1 Notes, depending on numerous factors, including the nature and terms and conditions of the relevant variation provisions and the tax laws to which a particular holder is subject to.

No Events of Default under the Subordinated Notes or AT1 Notes

Issues of Subordinated Notes and AT1 Notes do not provide for events of default allowing acceleration of the Subordinated Notes or AT1 Notes, as the case may be, except upon the Winding-up of the Issuer. Upon a payment default, the sole remedy available to the holders of the Subordinated Notes and AT1 Notes for recovery of amounts owing in respect of any payment or principal of, or interest on, the Subordinated Notes or AT1 Notes, as the case may be, will be the institution of proceedings in Malaysia for the winding-up of the Issuer. See Conditions 10.2 and 10.3 of the "*Terms and Conditions of the Notes*".

Subordinated Notes and AT1 Notes that include a loss absorption feature are novel and complex financial instruments

Subordinated Notes and AT1 Notes that include a loss absorption feature are complex financial instruments and the regulations on non-viability loss absorption are untested in Malaysia and will be subject to the interpretation and application by the relevant authority in Malaysia. It is uncertain how the relevant Malaysian authority would determine the occurrence of a Trigger Event and the range of circumstances in which the relevant Malaysian authority could rely upon to determine such occurrence is wide. See Condition 7.16 of the "*Terms and Conditions of the Notes*".

The Relevant Malaysian Authority has full discretion to elect to require a Write-off when the Issuer has ceased, or is about to cease, to be viable or when a capital injection or equivalent support has been provided. Even if the option to Write-off is not exercised, holders of the Subordinated Notes and AT1 Notes may still be exposed to losses from any winding-up resolution of the Issuer.

A Write-off does not constitute an event of default or enforcement event, nor would it trigger a cross-default under the Subordinated Notes and AT1 Notes. A Trigger Event is deemed to have occurred, among other events, on the day on which the Issuer receives notification from BNM.

A potential investor should not invest in Subordinated Notes or AT1 Notes unless it has the knowledge and expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the likelihood of a Write-off and the value of such Subordinated Notes and AT1 Notes, and the impact this investment will have on the potential investor's overall investment portfolio. Prior to making an investment decision, potential investors should consider carefully, in light of their own financial circumstances and investment objectives, all the information contained in this Offering Circular or incorporated by reference herein.

AT1 Notes are perpetual securities and investors have no right to require redemption

The AT1 Notes are perpetual and have no maturity date. AT1 Noteholders have no ability to require the Issuer to redeem their AT1 Notes whereas the Issuer can redeem the AT1 Notes in certain circumstances as described in the Terms and Conditions of the Notes. However, the Issuer is under no obligation to redeem the AT1 Notes at any time. The ability of the Issuer to redeem AT1 Notes is subject to the Issuer satisfying the Redemption Conditions at that time. Consequently, AT1 Noteholders have no ability to realise their investment, unless the Issuer exercises its right to redeem the AT1 Notes or by selling their AT1 Notes. However, there can be no guarantee that the Issuer will be able to meet the Redemption Conditions. AT1 Noteholders who wish to sell their AT1 Notes may be unable to do so at a price at or above the amount they paid for them, or at all, if insufficient liquidity exists in the market for the AT1 Notes.

The AT1 Notes may be written-off upon breach of CET1 Capital Ratio

If the CET1 Capital Ratio of the Issuer (or a consolidated or unconsolidated basis) falls below 5.125 per cent., the Issuer shall, without the need for the consent of the AT1 Noteholders, write-off the AT1 Notes (in whole or in part). The aggregate amount to be written-off must be at least the amount required to restore the Issuer's consolidated and unconsolidated CET1 Capital Ratio to at least 5.75 per cent. If this is not possible, then the full principal value of the AT1 Notes will be written-off in any case.

Such write-off shall not constitute an Event of Default or enforcement event, nor would it trigger a cross-default under Notes other than the AT1 Notes.

As there is no precedent for the application of such write-off requirement in respect of a financial institution in Malaysia, there is uncertainty as to the manner in which such requirement would be applied and the results thereof. AT1 Noteholders should note that any amount that is written-off upon the occurrence of such event in accordance with the terms of the AT1 Notes is permanent and will not be restored under any circumstances, even after the CET1 Capital Ratio is restored to at least 5.75 per cent. Accordingly, there is a potential risk that an investor of the AT1 Notes may lose all or some of his investment and may not receive a full or any return of the principal amount or any unpaid amounts due under the AT1 Notes should the requirement be applied. For the avoidance of doubt, the Issuer, the Dealers and the Fiscal Agent are not liable for any liabilities arising upon the Issuer's CET1 Capital Ratio (on a consolidated or unconsolidated basis) falling below 5.125 per cent.

Interest on the AT1 Notes is discretionary, non-cumulative and may be cancelled

The Issuer may, at its sole discretion and without prior notice to the AT1 Noteholders, taking into account its specific financial and solvency condition, elect to cancel any payment of Interest, in whole or in part, on a non-cumulative basis. The Issuer may make such election for any reason. Any Interest that has been cancelled shall no longer be due and payable at any time thereafter by the Issuer and shall

not accrue thereafter, whether or not funds are, or subsequently become, available. AT1 Noteholders will have no right to such interest whether in a winding up situation or otherwise. Cancellation of such interest shall not constitute an Event of Default and does not entitle the AT1 Noteholders to petition for the insolvency or Winding-Up of the Issuer.

In addition, the Issuer will not be obliged to pay, and will not pay, any Interest if the Issuer has insufficient Distributable Reserves. As both an operating company and a holding company, the level of the Issuer's Distributable Reserves is affected by a number of factors, principally its ability to remain profitable from its operations and to receive funds, directly or indirectly, from its operating subsidiaries in a manner which creates Distributable Reserves for the Issuer. Consequently, the Issuer's future Distributable Reserves, and therefore its ability to pay Interest, are a function of its existing Distributable Reserves, future profitability and the ability to distribute dividend or profits from its operating subsidiaries up the group structure to the Issuer. In addition, the Issuer's Distributable Reserves may also be adversely affected by the servicing of more instruments that rank senior in priority of payment to the AT1 Notes.

The Issuer's Distributable Reserves, and therefore its ability to pay interest, may be adversely affected by the performance of the Issuer's business in general, factors affecting its financial position (including capital and leverage), the economic environment in which the Group operates and other factors outside of the Issuer's control. In addition, adjustments to earnings, as determined by the Board of Directors of the Issuer, may fluctuate significantly and may materially adversely affect Distributable Reserves.

Further, the ability of the Issuer's subsidiaries to pay dividends and the Issuer's ability to receive distributions and other payments from its investments in other entities is subject to applicable local laws and other restrictions, including their respective regulatory, capital and leverage requirements, statutory reserves, financial and operating performance and applicable tax laws. These laws and restrictions could limit the payment of dividends, distributions and other payments to the Issuer by its subsidiaries, which could in time restrict the Issuer's ability to fund other operations or to maintain or increase its Distributable Reserves.

The level of the Issuer's Distributable Reserves may be further affected by changes to regulation or the requirements and expectations of applicable regulatory authorities. Any such potential changes could adversely affect the Issuer's Distributable Reserves in the future.

If the Issuer does not pay Interest on the relevant Interest Payment Date (or if the Issuer elects to make a payment of a portion, but not all, of such interest payment), such non-payment or part-payment shall serve as evidence of the Issuer's exercise of its discretion to cancel such interest payment (or the portion of such interest payment not paid), and accordingly, such interest payment (or the portion thereof not paid) shall not be due and payable.

If practicable, the Issuer shall provide notice of any cancellation of Interest (in whole or in part) to the AT1 Noteholders on or prior to the relevant Interest Payment Date. If practicable, the Issuer shall endeavour to provide such notice at least five (5) business days prior to the relevant Interest Payment Date. Failure to provide such notice will not have any impact on the effectiveness of, or otherwise invalidate, any such cancellation of interest, or give the AT1 Noteholders any rights as a result of such failure.

No AT1 Noteholder shall have any claim whatsoever in respect of any Interest or part thereof cancelled and/or not due or payable. Accordingly, such cancelled interest or part thereof shall not accrue or accumulate for the benefit of the AT1 Noteholders or entitle the AT1 Noteholders to any claim in respect thereof against the Issuer.

If Interest is not paid for whatever reason, the AT1 Notes may trade at a lower price. If an AT1 Noteholder sells his AT1 Notes during such a period, he may not receive the same return on investment as an AT1 Noteholder who continues to hold his AT1 Notes until interest payments are resumed.

No equity conversion for the AT1 Notes

An investor of the AT1 Notes will only receive cash if interest payments are made or the AT1 Notes are redeemed. The AT1 Notes shall not entitle the AT1 Noteholders to receive any form of equity interest in the Issuer at any point in time and the Issuer is not obliged to allot or issue any shares to or for the account of the AT1 Noteholders upon a write-off of the AT1 Notes following the Issuer's CET1 Capital Ratio (consolidated or entity level) falling below 5.125 per cent., the occurrence of any other Trigger Event or otherwise. The AT1 Noteholders shall not be entitled to participate in any distributions or entitlements to the Issuer's shareholders or to attend or vote at any general meeting of the Issuer.

Tax treatment of Subordinated Notes and AT1 Notes that contain non-viability loss absorption provisions is unclear

Investors and holders of any tranche of the Subordinated Notes or AT1 Notes should consult their own accounting and tax advisers regarding the Malaysian income tax consequences of their acquisition, holding and disposal of such tranche of the Subordinated Notes or AT1 Notes.

U.S. Foreign Account Tax Compliance Withholding

Whilst the Notes are in global form and held within Euroclear and Clearstream, Luxembourg (together, the "ICSDs"), in all but the most remote circumstances, it is not expected that U.S. federal income tax law, commonly known as "FATCA" will affect the amount of any payment received by the ICSDs (see "Taxation"). However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA), provide such custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. The Issuer's obligations under the Notes are discharged once it has paid the Common Depositary for the ICSDs (as holder of the Notes) and the Issuer has therefore no responsibility for any amount thereafter transmitted through hands of the ICSDs and custodians or intermediaries.

Malaysian Taxation

Under present Malaysian law, all interest payable to non-residents in respect of the Notes is exempted from withholding tax. However, there is no assurance that this present position will continue and in the event that such exemption is revoked, modified or rendered otherwise inapplicable, such interest shall be subject to withholding tax at the then prevailing withholding tax rate. However, notwithstanding the foregoing, the Issuer shall be obliged pursuant to the terms of the Notes, subject to customary exceptions, in the event of any such withholding, to pay such additional amounts to the investors so as to ensure that the investors receive the full amount which they would have received had no such withholding been imposed.

Change of law

The conditions of the Notes are based on English law or, in the case of the subordination provisions set out in such conditions in the Subordinated Notes and the AT1 Notes, Malaysian law, in effect as at the date of this Offering Circular. No assurance can be given as to the impact of any possible judicial decision or change to English law or, as the case may be, Malaysian law, or administrative practice after the date of this Offering Circular.

Reliance on procedures of clearing systems

Notes issued under the Programme will be represented on issue by one or more Global Notes that may be deposited with:

- (i) a common depository for Euroclear and Clearstream, Luxembourg;
- (ii) a subcustodian for the CMU Service; or
- (iii) CDP (collectively the "**Clearing Systems**").

Except in the circumstances described in each Global Note, investors will not be entitled to receive Notes in definitive form. Each relevant Clearing System and their respective direct and indirect participants (if any) will maintain records of the beneficial interests in each Global Note held through it. While the Notes are represented by a Global Note, investors will be able to trade their beneficial interests only through the relevant clearing systems and their respective participants (if any).

While the Notes are represented by Global Notes, the Issuer will discharge its payment obligation under the Notes by making payments through the relevant Clearing Systems. A holder of a beneficial interest in a Global Note must rely on the procedures of the relevant Clearing System and its participants (if any) to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in any Global Note.

Holders of beneficial interests in a Global Note will not have a direct right to vote in respect of the Notes so represented. Instead, such holders will be permitted to act only to the extent that they are enabled by the relevant Clearing System and its participants to appoint appropriate proxies.

CONSIDERATIONS RELATED TO THE MARKET GENERALLY

The secondary market generally

The Notes may have no established trading market when issued and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have an adverse effect on the market value of the Notes. Even if the Notes are traded, they may trade at a discount from their initial issue price, depending on prevailing interest rates, the market for similar securities, the Group's performance and other factors.

Application has been made to the SGX-ST for permission to deal in and for the listing and quotation of any Notes that may be issued pursuant to the Programme and which are agreed at or prior to the time of issue thereof to be so listed on the SGX-ST but there can be no assurance that such listing will occur. Application has been made to the LFX for the listing of, and permission to deal in, any Notes that may be issued under the Programme but there can be no assurance that such listings will occur on or prior to the date of issue of such Notes or at all. In addition, the Programme has also been admitted for the listing of the Notes on TSE in its capacity as the market operator of the TOKYO PRO-BOND Market in accordance with the rules and regulations of TSE. Application will also be made to the TPEX for the listing of, and permission to deal in, any Notes which are agreed at the time of issue thereof to be so listed on the TPEX pursuant to the applicable rules of TPEX. Admission to the listing and trading of the Notes on the TPEX shall not be taken as an indication of the merits of the Issuer or the Notes. No assurance can be given that such application will be approved or that the TPEX listing will be maintained. If for any reason the Notes are not listed, the liquidity of the Notes may be negatively impacted.

Historically, the market for debt securities by South East Asian issuers has been subject to disruptions that have caused substantial volatility in the prices of such securities. There can be no assurance that the market for any Notes will not be subject to similar disruptions. Any such disruption may have an adverse effect on holders of such Notes.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in the currency specified in the applicable Pricing Supplement (the "**Currency**"). This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Currency. These include the risk that foreign exchange rates may significantly change (including changes due to devaluation of the Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Currency would decrease:

- (i) the Investor's Currency-equivalent interest on the Notes;
- (ii) the Investor's Currency-equivalent value of the principal payable on the Notes; and
- (iii) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable foreign exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Noteholders may suffer unforeseen losses due to fluctuations in interest rates. Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of Fixed Rate Notes.

Inflation risk

Noteholders may suffer erosion on the return of their investments due to inflation. Noteholders would have an anticipated rate of return based on expected inflation rates on the purchase of the Notes. An unexpected increase in inflation could reduce the actual returns.

The market value of the Notes may fluctuate

Trading prices of the Notes are influenced by numerous factors, including the business and/or financial condition of the Issuer, political, economic, financial and any other factors that can affect the capital markets, the industry and/or the Issuer generally. Adverse economic developments, acts of war and health hazards in countries in which the Issuer operates, amongst other factors, could have a material adverse effect on the Issuer's business, financial condition, results of operations, prospects and/or reputation.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to an issue of Notes. The ratings may not reflect the potential impact of all risks related to the structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be suspended, reduced or withdrawn by the rating agency at any time.

CONSIDERATIONS RELATING TO RENMINBI-DENOMINATED NOTES

Notes denominated in Renminbi ("**Renminbi Notes**") may be issued under the Programme. Renminbi Notes contain particular risks for potential investors.

Renminbi is not freely convertible. There are significant restrictions on remittance of Renminbi into and outside the PRC which may adversely affect the liquidity of Renminbi Notes

Renminbi is not freely convertible at present. The government of the PRC (the "**PRC Government**") continues to regulate conversion between Renminbi and foreign currencies, including the Hong Kong dollar, despite significant reduction in control by it in recent years over trade transactions involving

import and export of goods and services as well as other frequent routine foreign exchange transactions. These transactions are known as current account items.

However, remittance of Renminbi by foreign investors into the PRC for the purposes of capital account items, such as capital contributions, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into the PRC for settlement of capital account items are developing gradually.

There is no assurance that the PRC Government will continue to gradually liberalise control over cross-border remittance of Renminbi in the future, that any pilot schemes for Renminbi cross-border utilisation will not be discontinued or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. In the event that funds cannot be repatriated outside the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC and the ability of the Issuer to source Renminbi to finance its obligations under Notes denominated in Renminbi.

There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of the Renminbi Notes and the Issuer's ability to source Renminbi outside the PRC to service the Renminbi Notes

As a result of the restrictions by the PRC Government on cross-border Renminbi fund flows, the availability of Renminbi outside of the PRC is limited. While the People's Bank of China ("PBoC") has entered into agreements on the clearing of Renminbi business with financial institutions in a number of financial centres and cities (the "**Renminbi Clearing Banks**"), including but not limited to Hong Kong, London, Frankfurt and Singapore, and are in the process of establishing Renminbi clearing and settlement mechanisms in several other jurisdictions (the "**Settlement Arrangements**"), the current size of Renminbi-denominated financial assets outside the PRC is limited. There are restrictions imposed by PBoC on Renminbi business participating banks in respect of cross-border Renminbi settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from the PBoC. The Renminbi Clearing Banks only have access to onshore liquidity support from PBoC for the purpose of squaring open positions of participating banks for limited types of transactions and are not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services. In such cases, the participating banks will need to source Renminbi from outside the PRC to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the Settlement Arrangements will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi outside the PRC. The limited availability of Renminbi outside the PRC may affect the liquidity of the Renminbi Notes. To the extent the Issuer is required to source Renminbi in the offshore market to service its Renminbi Notes, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all.

Investment in the Renminbi Notes is subject to exchange rate risks

The value of the Renminbi against the U.S. dollar and other foreign currencies fluctuates and is affected by changes in the PRC, by international political and economic conditions and by many other factors. All payments of interest and principal will be made with respect to the Renminbi Notes in Renminbi. As a result, the value of these Renminbi payments in U.S. dollars or other foreign currencies may vary with the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against the U.S. dollar or other foreign currencies, the value of investment in U.S. dollars or other applicable foreign currencies will decline. In addition, there may be tax consequences for investors as a result of any foreign currency gains resulting from any investment in the Renminbi Notes.

Payments in respect of the Renminbi Notes will only be made to investors in the manner specified in such Renminbi Notes

All payments to investors in respect of the Renminbi Notes will be made solely by:

when the Renminbi Notes are represented by a global certificate, transfer to a Renminbi bank account maintained in Hong Kong in accordance with prevailing CMU rules and procedures, or

when the Renminbi Notes are in definitive form, transfer to a Renminbi bank account maintained in Hong Kong in accordance with prevailing rules and regulations.

The Bank cannot be required to make payment by any other means (including in any other currency or in bank notes, by cheque or draft or by transfer to a bank account in the PRC).

The Group's borrowings, subordinated obligations and capital securities increased by RM7.6 billion to RM53.5 billion as at 31 December 2019, arising from net issuances during the financial year for borrowings of RM9.7 billion. This was offset with net redemption for subordinated obligations of RM1.4 billion and capital securities of RM0.7 billion.

The Group places strong emphasis on the quality of its capital and, accordingly, holds a significant amount of its capital in the form of common equity which is permanent and has the highest loss absorption capability on a going concern basis. The common equity capital of the Group comprises of share capital, reserves and retained profits. During the financial year ended 31 December 2019, the Bank has issued about 191.68 million new ordinary shares amounting to about RM1,533 million pursuant to the Dividend Reinvestment Plan ("DRP"). The DRP scheme was first announced by the Bank on 25 March 2010 to allow shareholders to reinvest their cash dividends into new shares in the Bank. Based on the DRPs since its first implementation, the average reinvestment rate has been about 85%. In addition to common equity, the Group also maintains other types of capital instruments such as Additional Tier 1 capital instruments and Tier 2 subordinated notes in order to optimise and diversify capital mix as well as lower cost of capital.

Notes:

- (1) Under the Malaysian Companies Act 2016 (the "Act") which took effect from 31 January 2017, the ordinary shares of the Bank will cease to have par or nominal value and the Bank's share premium will become part of the share capital. Therefore, the capital amount includes share premium associated with the share issuance.
- (2) There has been no material change in the liabilities of the Group since 31 December 2019 to the date of the Offering Circular

RISK MANAGEMENT

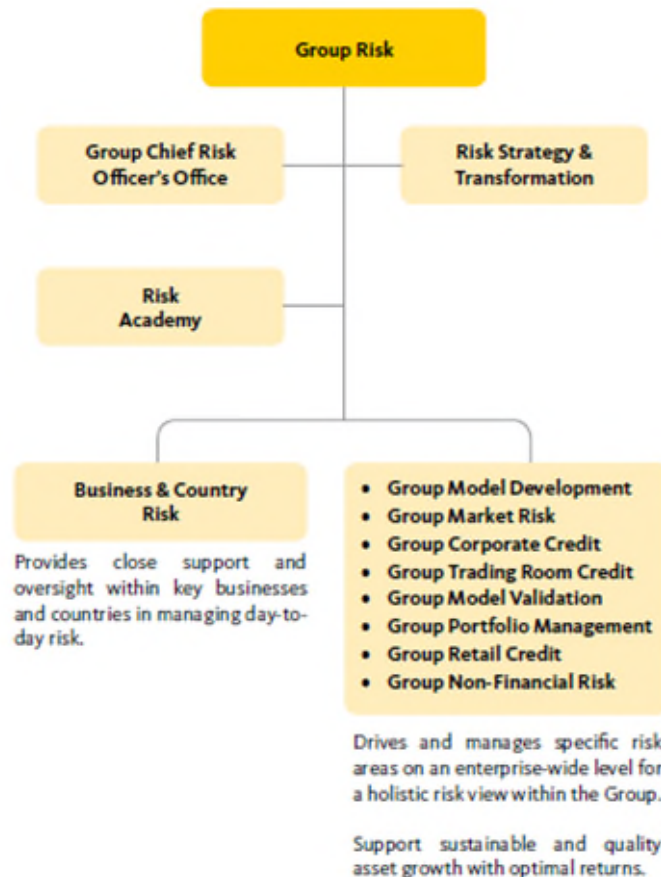

Overview

The Board acknowledges its responsibility in establishing a sound risk management and internal control system of the Group as well as reviewing its adequacy and effectiveness in identifying, assessing and responding to risk to achieve the Group's objectives. The Board plays a pivotal role in providing risk oversight and determining the aggregate level and types of risk that the Group is willing to take in achieving its strategic objectives. The Board actively participates in the setting of the Group's objectives and strategies, and ensures the corresponding risks are adequately mitigated within its approved risk appetite. In view of the inherent limitations in any risk management and internal control system, such system can therefore only provide reasonable, rather than absolute assurance to realise the Group's objectives and against material financial misstatements, losses or fraud.

The Board has established a strong risk management and internal control governance structure that is crucial in setting the tone and culture towards effective risk management and internal control. To effectively carry out its risk and control oversight responsibilities, the Board is assisted by the Risk Management Committee, Compliance Committee of the Board and Audit Committee of the Board to oversee all matters regarding risk, compliance and controls. The Board receives reports periodically from these Board Committees to keep the Board informed of the board committee's work, key deliberations and decisions on delegated matters.

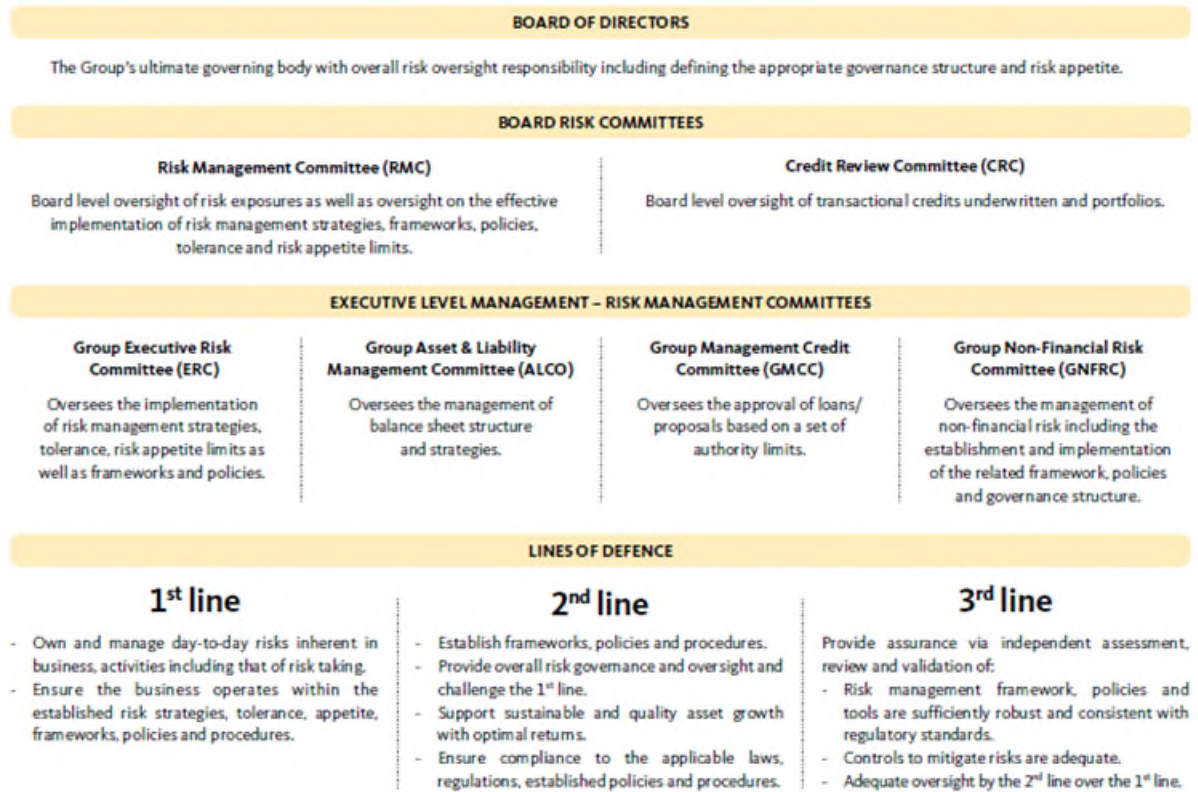

Group Risk Structure

Group Risk provides oversight of risk management on an enterprise-wide level through the establishment of the Group's risk strategies, frameworks and policies, with independent assessment and monitoring of all risks challenges. The following diagram shows the key pillars of Group Risk functions:

Risk Governance and Oversight

The governance model adopted in the Group provides a formalised, transparent and effective governance structure that promotes active involvement from the Board and Senior Management in the risk management process to ensure a uniform view of risk across the Group. The governance model places accountability and ownership in ensuring an appropriate level of independence and segregation of duties between the three lines of defence. The management of risk broadly takes place at different hierarchical levels and is emphasised through various levels of committees, business lines, control and reporting functions. The Group's overall risk governance structure is as illustrated below:

Integrated Risk Management Framework

Risk management is an important driver for strategic decisions in support of business strategies while balancing the appropriate levels of risk taken to the desired level of rewards. As risk management is a core discipline of the Group, it is underpinned by a set of key principles which serves as the foundation in driving strong risk management culture, practices and processes:

01	Establish risk appetite & strategy	The risk appetite is approved by the Board, which articulates the nature, type and level of risk the Group is willing to assume.
02	Assign adequate capital	The approach to capital management is driven by strategic objectives and accounts for the relevant regulatory, economic and commercial environment in which the Group operates.

BANKING REGULATION AND SUPERVISION

The Bank is regulated by BNM, the central bank of Malaysia which is directly involved in the regulation and supervision of Malaysia's financial system.

BNM and the Minister of Finance of Malaysia (the "MOF") have extensive powers under the FSA and the IFSA. The FSA and the IFSA are the principal statutes that set out the laws for, amongst others, the regulation and supervision of conventional financial institutions and Islamic financial institutions, respectively, in Malaysia. Such financial institutions are also subject to guidelines issued by BNM from time to time.

The following discussion sets out information with respect to some regulations of the banking industry in Malaysia:

Licensing and Limitation of Business Activities of Banks

Under the FSA and the IFSA, banking business and Islamic banking business (as the case may be) can only be conducted by a public company which has obtained a licence from the MOF on the recommendation of BNM.

Banks are also subject to a number of other restrictions on the operation of their business. Amongst others, a bank may not:

- (a) pay any dividend on its shares except with the prior written approval of BNM or where BNM has specified standards on prudential matters permitting the declaration of payments of any dividend;
- (b) except as permitted under the FSA or the IFSA (as the case may be) or by prescribed regulation, establish or acquire a subsidiary in or outside Malaysia or acquire or hold any material interest in any other corporation without the prior written approval of BNM; and
- (c) establish or relocate an office (including a branch) in or outside Malaysia without the prior written approval of BNM.

Statutory Reserves

BNM requires Malaysian banks to maintain a sum equivalent to the SRR in the form of non-interest bearing reserves with BNM. The SRR is currently set at 2.0 per cent. of total eligible liabilities.

Capital Adequacy Requirements

The latest versions of BNM's Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework for Islamic Banks (Capital Components) were issued on 5 February 2020 (collectively, the "**Frameworks**") and set out the capital adequacy requirements which must be complied with by conventional banks and Islamic banks, respectively. Please refer to "*Investment Considerations - The Group may be required to raise additional capital if its capital adequacy ratio deteriorates in the future or in order to comply with any new regulatory capital framework*" for the minimum capital adequacy ratios set out in the Frameworks.

Higher Loss Absorbency Requirements

BNM's Domestic Systemically Important Banks Framework issued on 5 February 2020 aims to strengthen the resilience of the Malaysian banking system and address the following elements:

- (a) regulatory requirements and policy measures that may be applicable to D-SIBs, such as the HLA requirement. HLA requirement refers to the capital surcharge above the minimum regulatory requirement to increase a D-SIB's going-concern loss absorbency capacity and aims to reduce the probability of a D-SIB's failure by increasing its going-concern capital buffers;

- (b) intensity of supervisory oversight by BNM; and
- (c) macroprudential surveillance activities of BNM.

An indicator-based measurement approach (“**IBA**”) will be adopted by BNM to identify D-SIBs. The assessment of systemic importance will also incorporate additional information via a supervisory overlay process. Under the IBA, a financial institution’s systemic importance will be assessed in terms of the impact of its distress or failure on the domestic financial system and economy. Indicators are selected across three categories of systemic importance, namely – size, interconnectedness and substitutability.

The list of D-SIBs will be reviewed on an annual basis or as and when deemed necessary if there are major structural changes in the banking system.

A financial institution (except for a prescribed development financial institution) which has been designated as a D-SIB by BNM shall hold and maintain capital buffers which shall be above the minimum CET1 Capital Ratio, Tier 1 Capital Ratio, and Total Capital Ratio requirements, as well as other capital buffer requirements as set out in the Frameworks, to meet the HLA requirement at the consolidated level, in the form of CET1 Capital (as defined in the Frameworks) and in the manner set out below:

- (a) The HLA requirement applicable to designated D-SIBs shall correspond to the financial institutions’ bucket placement as below, unless otherwise specified by BNM.

Bucket	HLA requirement (as % of risk-weighted assets)
3 (empty)	2.0
2	1.0
1	0.5

- (b) Where a financial institution is required to comply with the HLA requirement due to its designation as a D-SIB or a migration to a higher bucket for D-SIB (e.g. from Bucket 1 to Bucket 2), the HLA requirement shall become applicable to such financial institution within 12 months upon notification by BNM, unless otherwise specified by BNM.
- (c) Where a financial institution is required to comply with a lower (or nil) HLA requirement than its current HLA requirement due to cessation of its D-SIB status or a migration to a lower bucket (e.g. Bucket 2 to Bucket 1), the revised HLA requirement shall become applicable to such financial institution immediately upon notification by BNM, unless otherwise specified by BNM.

Single Counterparty Exposure Limit

Pursuant to the Single Counterparty Exposure Limit guidelines and the Single Counterparty Exposure Limit for Islamic Banking Institutions guidelines issued by BNM which came into effect on 9 July 2014, banks are prohibited from extending credit facilities to a single counterparty (including the exposure to any group of persons connected to such single counterparty but shall not include any exposure to, and any exposure explicitly guaranteed by, BNM or the Government) in excess of 25 per cent. of the total capital of the bank (total capital has the same meaning assigned to it in the relevant Framework), subject to certain exemptions.

Certain exposures are exempted from the single counterparty exposure limit. For example:

- (a) exposures of an overseas branch or subsidiary of a banking institution or an Islamic banking institution (as the case may be) to the sovereign government or central banks in the

jurisdiction where it is located, where the exposure is denominated in local currency and held to meet regulatory requirements imposed by the central bank in that jurisdiction; and

- (b) exposures deducted in the calculation of a banking institution's total capital or an Islamic banking institution's total capital (as the case may be) as specified in regulatory adjustments of the relevant Frameworks such as investments in financial subsidiaries.

Lending to Connected Parties

BNM's Guidelines on Credit Transactions and Exposures with Connected Parties and Guidelines on Credit Transactions and Exposures with Connected Parties for Islamic Banks, both issued on 16 July 2014 (collectively the "**Connected Parties Guidelines**"), set out the broad parameters and conditions for licensed institutions or Islamic banks (as the case may be) to extend credit and make investments in the ordinary course of business to/in connected parties which are of good credit standing, while ensuring that connected parties, who by virtue of their positions which could potentially exert influence over the licensed institutions or Islamic banks (as the case may be), do not inappropriately benefit from such transactions to the detriment of the licensed institutions or Islamic banks (as the case may be).

Corporate Appointments

Under the FSA and the IFSA (as the case may be), the appointment of directors, chief executive officer ("**CEO**") and the chairman of a bank is subject to the prior written approval of BNM. A person is disqualified from being appointed or elected, or reappointed or re-elected as a chairman of the Board or a director or a CEO of a bank if, for example, that person is an undischarged bankrupt, has suspended payments or has compounded with his creditors whether in or outside of Malaysia; or a charge for a criminal offence relating to dishonesty or fraud under any written law or the law of any country, territory or place outside Malaysia, has been proven against that person. BNM may specify fit and proper requirements to be complied with by a chairman or a director or a CEO of a bank, which may include minimum criteria relating to probity, personal integrity and reputation, competency and capacity, and financial integrity.

BNM expects banks to have in place effective corporate governance arrangements consistent with the long-term viability of the bank. BNM's Guidelines on Corporate Governance issued on 3 August 2016 (subject to certain transitional arrangements set out therein) set out strengthened expectations on directors' oversight responsibilities and the composition of the Board. Amongst others, the Guidelines on Corporate Governance provide that:

- (a) the Board of a bank has overall responsibility for promoting the sustainable growth and financial soundness, and for ensuring reasonable standards of fair dealing, without undue influence from any party;
- (b) the Board and Board committees of a bank must be of a size that promotes effective deliberation, encourages the active participation of all directors and allows the work of the various board committees to be discharged without giving rise to an over-extension of directors that are required to serve on multiple Board committees;
- (c) the Chairman of the Board must not be an executive, and must not have served as CEO of the bank in the past five years;
- (d) the Board of a bank must have a majority of independent directors by 3 August 2021; and
- (e) a director of a bank must not be an active politician.

BNM is also empowered under the FSA and the IFSA to remove any director of a bank if BNM is of the opinion that (i) the director of the bank no longer fulfils the fit and proper requirements specified under the FSA or the IFSA (as the case may be) and fails to cease holding such office or acting in such capacity, or (ii) the director has failed to comply with or by action or negligence has contributed to the breach or contravention of any provision of the FSA or the IFSA, a direction issued by BNM or an enforceable undertaking accepted by BNM.

Exchange Control Policy

Under the FSA and the IFSA, BNM is empowered to safeguard the balance of payments position and the value of the currency of Malaysia. To this end, there are restrictions against, amongst others, borrowing or lending of ringgit between a resident and a non-resident and retaining or using of ringgit by a non-resident. BNM's Foreign Exchange Administration notices ("**FEA notices**") set out transactions permitted by BNM which are otherwise prohibited under the FSA and the IFSA. The FEA notices, which remains liberal, are prudential measures aimed at further developing the domestic financial market and enhancing competitiveness of the economy of Malaysia through the creation of a more supportive and facilitative environment for trade, business and investment activities.

BNM's General Powers

BNM has the power to issue a direction of compliance to a bank, its director, CEO or senior officer if BNM is of the opinion that any of them is, amongst others, committing or pursuing or about to commit or pursue an unsafe act or unsound practice in conducting the business of the bank and/or has failed to manage its business and affairs in a manner that is consistent with sound risk management and good governance.

Inspections by BNM

BNM is also empowered to examine, without any prior notice, the business and affairs of a bank and its offices, related corporations and any agents of the bank in or outside Malaysia. For this purpose, BNM may also examine such persons' directors, officers or controllers, and shall have access to the bank's documents including documents of title to its assets, all securities held by it in respect of its customers' transactions and investments held by it, cash, premises, apparatus, equipment or machinery, and the bank shall produce to BNM all such documents or cash, as BNM may require within such time as BNM may specify.

Intervention, Remedial and Resolution Powers

BNM and PIDM have broad powers under the FSA, the IFSA and the Malaysia Deposit Insurance Corporation Act 2011 ("**PIDM Act**") (as the case may be), which include, amongst others, to:

- (i) assume control of and manage or carry on (as the case may be) the whole or part of the assets, business or affairs of a bank, or appoint any person to do so on its behalf;
- (ii) make a court application to appoint a receiver and manager to manage the whole or part of the assets, business or affairs of a bank;
- (iii) transfer to a bridge institution any assets, liabilities or business of a bank; and/or
- (iv) file a court application for the winding up of a bank.

Each of these powers may only be exercised by BNM and PIDM under certain conditions as set out in the FSA, the IFSA and the PIDM Act, respectively. Such conditions differ depending on the power to be exercised and include, but are not limited to:

- (a) the prior approval of the MOF being obtained; and/or
- (b) when a bank has become or is likely to become insolvent or non-viable or is likely to become unable to meet all or any of its obligations.

Deposit Insurance

Deposit insurance is a system established by the Government to protect depositors against the loss of their deposits in the event a member institution is unable to meet its obligations to depositors.

In Malaysia, the deposit insurance system is managed by PIDM. PIDM is an independent statutory body established under the PIDM Act.

Under the PIDM Act, the deposit insurance limit is RM250,000 per depositor per member bank.

BOOK-ENTRY CLEARANCE SYSTEMS

The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of Euroclear, Clearstream, Luxembourg, CMU or CDP (together, the Clearing Systems) currently in effect. The information in this section concerning the Clearing Systems has been obtained from sources that the Issuer believes to be reliable, but neither the Issuer, the Arranger nor any Dealer takes any responsibility for the accuracy thereof. Investors wishing to use the facilities of any of the Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Clearing System. Neither the Issuer, the Arranger nor any Dealer nor any other party to the Agency Agreement will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Notes held through the facilities of any Clearing System or for maintaining, supervising or reviewing any records relating to, or payments made on account of, such beneficial ownership interests.

Book-entry Systems

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each holds securities for participating organisations and facilitates the clearance and settlement of securities transactions between their respective participants. Euroclear and Clearstream, Luxembourg provide to their respective participants, among other things, services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg also deal with domestic securities markets in several countries through established depository and custodial relationships. Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective participants may settle trades with each other.

Euroclear and Clearstream, Luxembourg customers are world-wide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with an account holder of either system.

Distributions of principal with respect to book-entry interests in the Notes held through Euroclear or Clearstream, Luxembourg will be credited, to the extent received by the Paying Agent, to the cash accounts of Euroclear or Clearstream, Luxembourg participants in accordance with the relevant system's rules and procedures.

CMU

The CMU Service is a central depository service provided by the Central Moneymarkets Unit of the HKMA for the safe custody and electronic trading between the members of this service ("**CMU Members**") of capital markets instruments ("**CMU Instruments**") which are specified in the CMU Reference Manual as capable of being held within the CMU Service. The CMU Service is only available to CMU Instruments issued by a CMU Member or by a person for whom a CMU Member acts as agent for the purposes of lodging instruments issued by such persons. Membership of the services is open to all members of the Hong Kong Capital Markets Association, "authorised institutions" under the Banking Ordinance and other domestic and overseas financial institutions at the discretion of the HKMA.

Compared to clearing services provided by Euroclear and Clearstream, Luxembourg, the standard custody and clearing service provided by the CMU Service is limited. For example, the HKMA will not obtain certificates of non-U.S. beneficial ownership from CMU Members or provide any such certificates on behalf of CMU Members. The CMU Lodging and Paying Agent will collect such certificates from the relevant CMU Members identified from an instrument position report obtained by request from the HKMA for this purpose.

An investor holding an interest in the Notes through an account with either Euroclear or Clearstream, Luxembourg will hold that interest through the respective accounts which Euroclear and Clearstream, Luxembourg each have with the CMU Service.

CDP

In respect of Notes which are accepted for clearance by CDP in Singapore, clearance will be effected through an electronic book-entry clearance and settlement system for the trading of debt securities (the "**Depository System**") maintained by CDP. CDP, a wholly-owned subsidiary of the Singapore Exchange Limited, is incorporated under the laws of Singapore and acts as a depository and clearing organisation. CDP holds securities for its accountholders and facilitates the clearance and settlement of securities transactions between accountholders through electronic book-entry changes in the securities accounts maintained by such accountholders with CDP.

In respect of Notes which are accepted for clearance by CDP, the entire issue of the Notes is to be held by CDP in the form of a global note for persons holding the Notes in securities accounts with CDP ("**Depositors**"). Delivery and transfer of Notes between Depositors is by electronic book-entries in the records of CDP only, as reflected in the securities accounts of Depositors. Settlement of over-the-counter trades in the Notes through the Depository System may only be effected through sub-accounts held with certain corporate depositors ("**Depository Agents**"). Depositors holding the Notes in direct securities accounts with CDP, and who wish to trade Notes through the Depository System, must transfer the Notes to be traded from such direct securities accounts to a securities sub-account with a Depository Agent for trade settlement.

CDP is not involved in money settlement between Depository Agents (or any other persons) as CDP is not a counterparty in the settlement of trades of debt securities. However, CDP will make payment of interest or distribution, as applicable, and repayment of principal on behalf of issuers of debt securities.

Although CDP has established procedures to facilitate transfer of interests in the Notes in global form among Depositors, it is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the Issuer, Arranger, any Dealer, the Paying Agent, any other agent or any other person (other than CDP) will have the responsibility for the performance by CDP of its obligations under the rules and procedures governing its operations.

Transfers of Notes Represented by Registered Global Notes

Transfers of any interests in Notes represented by a Registered Global Note within Euroclear, Clearstream, Luxembourg, CDP or the CMU Service will be effected in accordance with the customary rules and operating procedures of the relevant Clearing System. Euroclear, Clearstream, Luxembourg, CDP and the CMU Service have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Registered Global Notes among accountholders of Euroclear, Clearstream, Luxembourg, CDP and the CMU Service. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuer, the Paying Agents, the Registrar and the Dealers will be responsible for any performance by Euroclear, Clearstream, Luxembourg, CDP or the CMU Service or their respective accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Notes represented by Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial interests.

TAXATION

The statements herein regarding taxation are based on the laws in force as at the date of this document and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following summary does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all types of Notes or to all categories of investors, some of which (such as dealers or certain professional investors) may be subject to special rules. Investors should consult their own tax advisers regarding the tax consequences of an investment in the Notes of a specific Series.

Malaysian Taxation

All payments by the Issuer in respect of the Notes shall be made free and clear of, and without withholding or deduction for or on account of any present or future tax, duty or charge of whatever nature imposed, levied, collected, withheld or assessed by or within Malaysia or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law. In that event, the Issuer shall pay such additional amounts (the "**Additional Amounts**") as will result in receipt by the Noteholders of such amounts as would have been received by them had no such withholding or deduction been required, except that no such Additional Amounts shall be payable in respect of any Notes:

- (a) presented for payment by or on behalf of a Noteholder who is liable to the taxes in respect of such Note by reason of his having some connection with Malaysia other than the mere holding of such Note; or
- (b) presented for payment more than 30 days after the date on which such payment first becomes due, except to the extent that a Noteholder would have been entitled to Additional Amounts on presenting the same for payment on the last day of the period of 30 days.

The proposed financial transactions tax ("FTT")

On 14 February 2013, the European Commission has published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the Commission's Proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

U.S. Foreign Account Tax Compliance Withholding

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" (as defined by FATCA) may be required to withhold on

certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting or related requirements. The Issuer is a foreign financial institution for these purposes. A number of jurisdictions (including Hong Kong) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register, and Notes characterised as debt (or which are not otherwise characterised as equity) and have a fixed term for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining foreign passthru payments are filed with the U.S. Federal Register generally would be grandfathered for purposes of FATCA withholding unless materially modified after such date. However, if additional Notes (as described under Condition 17 of the Terms and Conditions of the Notes) that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

Singapore Taxation

The statements below are only applicable to Notes excluding AT1 Notes issued by the Issuer acting through its Singapore Branch, are general in nature and are based on certain aspects of current tax laws in Singapore and administrative guidelines and circulars issued by the MAS in force as at the date of this Offering Circular and are subject to any changes in such laws, administrative guidelines or circulars, or the interpretation of those laws, guidelines or circulars, occurring after such date, which changes could be made on a retroactive basis. Neither these statements nor any other statements in this Offering Circular are intended or are to be regarded as advice on the tax position of any holder of the Notes or of any person acquiring, selling or otherwise dealing with the Notes or on any tax implications arising from the acquisition, sale or other dealings in respect of the Notes. The statements made herein do not purport to be a comprehensive or exhaustive description of all the tax considerations that may be relevant to a decision to subscribe for, purchase, own or dispose of the Notes and do not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or financial institutions in Singapore which have been granted the relevant Financial Sector Incentive(s)) may be subject to special rules or tax rates. Holders and prospective holders of the Notes are advised to consult their own tax advisors as to the Singapore or other tax consequences of the acquisition, ownership of or disposal of the Notes, including, in particular, the effect of any foreign, state or local tax laws to which they are subject. It is emphasised that none of the Issuer, the Arranger, the Dealers and any other persons involved in the Programme accepts responsibility for any tax effects or liabilities resulting from the subscription for, purchase, holding or disposal of the Notes.

The disclosure below is on the assumption that the Inland Revenue Authority of Singapore ("**IRAS**") regards Subordinated Notes containing non-viability loss absorption provisions as debt securities for the purposes of the Income Tax Act, Chapter 134 of Singapore ("**ITA**") and eligible for the qualifying debt securities scheme. If any tranche of the Subordinated Notes is not regarded as debt securities for the purposes of the ITA and/or holders thereof are not eligible for the tax concessions under the qualifying debt securities scheme, the tax treatment to holders may differ. In addition, the disclosure below does not cover AT1 Notes. Investors and holders of any tranche of the Subordinated Notes or AT1 Notes (as the case may be) should consult their own accounting and tax advisers regarding the Singapore income tax consequences of their acquisition, holding and disposal of any tranche of such Notes.

Interest and Other Payments

Subject to the following paragraphs, under Section 12(6) of the ITA, the following payments are deemed to be derived from Singapore:

- (a) any interest, commission, fee or any other payment in connection with any loan or indebtedness or with any arrangement, management, guarantee, or service relating to any loan or indebtedness which is (i) borne, directly or indirectly, by a person resident in Singapore or a permanent establishment in Singapore (except in respect of any business carried on outside Singapore through a permanent establishment outside Singapore or any immovable property situated outside Singapore) or (ii) deductible against any income accruing in or derived from Singapore; or
- (b) any income derived from loans where the funds provided by such loans are brought into or used in Singapore.

Such payments, where made to a person not known to the paying party to be a resident in Singapore for tax purposes, are generally subject to withholding tax in Singapore. If the payment is derived by a person not resident in Singapore otherwise than from any trade, business, profession or vocation carried on or exercised by such person in Singapore and is not effectively connected with any permanent establishment in Singapore of that person, the payment is subject to a final withholding tax of 15 per cent. The rate of 15 per cent. may be reduced by applicable tax treaties. The rate at which tax is to be withheld for such payments (other than those subject to the 15 per cent. final withholding tax described above) to non-resident persons (other than non-resident individuals) is currently 17 per cent. The applicable rate for non-resident individuals is currently 22 per cent.

However, certain Singapore-sourced investment income derived by individuals from financial instruments is exempt from tax, including:

- (a) interest from debt securities derived on or after 1 January 2004;
- (b) discount income (not including discount income arising from secondary trading) from debt securities derived on or after 17 February 2006; and
- (c) prepayment fee, redemption premium and break cost from debt securities derived on or after 15 February 2007,

except where such income is derived through a partnership in Singapore or is derived from the carrying on of a trade, business or profession in Singapore.

Withholding Tax Exemption on Qualifying Payments by Specified Entities

Pursuant to Section 45I of the ITA, payments of income which are deemed under Section 12(6) of the ITA to be derived from Singapore and which are made by a specified entity shall be exempt from withholding tax if such payments are liable to be made by such specified entity for the purpose of its trade or business under a debt security which is issued within the period from 17 February 2012 to 31 March 2021. Notwithstanding the above, permanent establishments in Singapore of non-resident persons are required to declare such payments in their annual income tax returns and will be assessed to tax on such payments (unless specifically exempt from tax).

A specified entity includes a bank licensed under the Banking Act, Chapter 19 of Singapore or a merchant bank approved under the Monetary Authority of Singapore Act, Chapter 186 of Singapore.

Qualifying Debt Securities Scheme

In addition, with respect to any tranche of the Notes issued as debt securities under the Programme (the "**Relevant Notes**") during the period from the date of this Offering Circular to 31 December 2023 where more than half of the issue of such Relevant Notes is distributed by Financial Sector Incentive (Bond Market), Financial Sector Incentive (Standard Tier) or Financial Sector Incentive (Capital Market) Companies (as defined in the ITA), such tranche of Relevant Notes would be qualifying debt securities ("**QDS**") for the purposes of the ITA.

If the Relevant Notes are QDS:

- (a) subject to certain prescribed conditions having been fulfilled (including the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities in respect of the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require, and the inclusion by the Issuer in all offering documents relating to the Relevant Notes of a statement to the effect that where interest, discount income, prepayment fee, redemption premium or break cost from the Relevant Notes is derived by a person who is not resident in Singapore and who carries on any operation in Singapore through a permanent establishment in Singapore, the tax exemption for qualifying debt securities shall not apply if the non-resident person acquires the Relevant Notes using funds from that person's operations through the Singapore permanent establishment), interest, discount income (not including discount income arising from secondary trading), prepayment fee, redemption premium and break cost (collectively, the "**Qualifying Income**") from the Relevant Notes, derived by a holder who is not resident in Singapore and who (aa) does not have any permanent establishment in Singapore or (bb) carries on any operation in Singapore through a permanent establishment in Singapore but the funds used by that person to acquire the Relevant Notes are not obtained from such person's operation through a permanent establishment in Singapore, are exempt from Singapore tax;
- (b) subject to certain conditions having been fulfilled (including the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities in respect of the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require), Qualifying Income from the Relevant Notes derived by any company or body of persons (as defined in the ITA) in Singapore is subject to income tax at a concessionary rate of 10 per cent. (except for holders of the relevant Financial Sector Incentive(s) who may be taxed at different rates); and
- (c) subject to:
 - (i) the Issuer including in all offering documents relating to the Relevant Notes a statement to the effect that any person whose interest, discount income, prepayment fee, redemption premium or break cost derived from the Relevant Notes is not exempt from tax shall include such income in a return of income made under the ITA; and
 - (ii) the furnishing by the Issuer, or such other person as the MAS may direct, to the MAS of a return on debt securities in respect of the Relevant Notes in the prescribed format within such period as the MAS may specify and such other particulars in connection with the Relevant Notes as the MAS may require,

payments of Qualifying Income derived from the Relevant Notes are not subject to withholding of tax by the Issuer.

Notwithstanding the foregoing:

- (a) if during the primary launch of any tranche of the Relevant Notes, the Relevant Notes of such tranche are issued to less than four persons and 50 per cent. or more of the issue of such Relevant Notes is beneficially held or funded, directly or indirectly, by related parties of the Issuer, such Relevant Notes would not qualify as QDS; and
- (b) even though a particular tranche of the Relevant Notes are QDS, if, at any time during the tenor of such tranche of Relevant Notes, 50 per cent., or more of such Relevant Notes which are outstanding at any time during the life of their issue is beneficially held or funded, directly or indirectly, by any related party(ies) of the Issuer, Qualifying Income derived from such Relevant Notes held by:
 - (i) any related party of the Issuer; or

- (ii) any other person where the funds used by such person to acquire such Relevant Notes are obtained, directly or indirectly, from any related party of the Issuer,

shall not be eligible for the tax exemption or concessionary rate of tax as described above.

The term "related party", in relation to a person, means any other person who, directly or indirectly, controls that person, or is controlled, directly or indirectly, by that person, or where he and that other person, directly or indirectly, are under the control of a common person.

The terms "break cost", "prepayment fee" and "redemption premium" are defined in the ITA as follows:

- (a) "break cost", in relation to debt securities and qualifying debt securities, means any fee payable by the issuer of the securities on the early redemption of the securities, the amount of which is determined by any loss or liability incurred by the holder of the securities in connection with such redemption;
- (b) "prepayment fee", in relation to debt securities and qualifying debt securities, means any fee payable by the issuer of the securities on the early redemption of the securities, the amount of which is determined by the terms of the issuance of the securities; and
- (c) "redemption premium", in relation to debt securities and qualifying debt securities, means any premium payable by the issuer of the securities on the redemption of the securities upon their maturity.

References to "break cost", "prepayment fee" and "redemption premium" in this Singapore tax disclosure have the same meaning as defined in the ITA.

Where interest, discount income, prepayment fee, redemption premium and break cost (i.e. the Qualifying Income) is derived from any of the Relevant Notes by any person who is not resident in Singapore and who carries on any operations in Singapore through a permanent establishment in Singapore, the tax exemption available for QDS under the ITA (as mentioned above) shall not apply if such person acquires such Relevant Notes using funds and profits of such person's operations through a permanent establishment in Singapore. Any person whose interest, discount income, prepayment fee, redemption premium or break cost (i.e. the Qualifying Income) derived from the Relevant Notes is not exempt from tax is required to include such income in a return of income made under the ITA.

Notwithstanding that the Issuer (acting through its Singapore branch) is permitted to make payments of Qualifying Income in respect of the Relevant Notes without deduction or withholding for tax under Section 45 or Section 45A of the ITA, any person whose interest, discount income, prepayment fee, redemption premium or break cost derived from the Relevant Notes is not exempt from tax is required to include such income in a return of income made under the ITA.

Capital Gains

Any gains considered to be in the nature of capital made from the sale of the Notes will not be taxable in Singapore. However, any gains derived by any person from the sale of the Notes which are gains from any trade, business, profession or vocation carried on by that person, if accruing in or derived from Singapore, may be taxable as such gains are considered revenue in nature.

Holders of the Notes who apply or are required to apply Singapore Financial Reporting Standard ("FRS") 39, FRS 109 or Singapore Financial Reporting Standard (International) 9 ("SFRS(I) 9") (as the case may be) may, for Singapore income tax purposes, be required to recognise gains or losses (not being gains or losses in the nature of capital) on the Notes, irrespective of disposal, in accordance with FRS 39, FRS 109 or SFRS(I) 9 (as the case may be). Please see the section below on "Adoption of FRS 39, FRS 109 and SFRS(I) 9 for Singapore Income Tax Purposes".

Adoption of FRS 39, FRS 109 and SFRS(I) 9 for Singapore Income Tax Purposes

Section 34A of the ITA provides for the tax treatment for financial instruments in accordance with FRS 39 (subject to certain exceptions and "opt-out" provisions) to taxpayers who are required to comply with FRS39 for financial reporting purposes. The IRAS has also issued a circular entitled "Income Tax Implications Arising from the Adoption of FRS 39 — Financial Instruments: Recognition & Measurement".

FRS 109 or SFRS(I) (as the case may be) is mandatorily effective for annual periods beginning on or after 1 January 2018, replacing FRS 39. Section 34AA of the ITA requires taxpayers who comply or who are required to comply with FRS 109 or SFRS(I) 9 for financial reporting purposes to calculate their profit, loss or expense for Singapore income tax purposes in respect of financial instruments in accordance with FRS 109 or SFRS(I) 9 (as the case may be), subject to certain exceptions. The IRAS has also issued a circular entitled "Income Tax: Income Tax Treatment Arising from Adoption of FRS 109 – Financial Instruments".

Holders of the Notes who may be subject to the tax treatment under Sections 34A or 34AA of the ITA should consult their own accounting and tax advisers regarding the Singapore income tax consequences of their acquisition, holding or disposal of the Notes.

Estate Duty

Singapore estate duty has been abolished with respect to all deaths occurring on or after 15 February 2008.

Hong Kong Taxation

Withholding Tax

No withholding tax is payable in Hong Kong in respect of payments of principal or interest on the Notes or in respect of any capital gains arising from the sale of the Notes.

Profits Tax

Hong Kong profits tax is chargeable on every person carrying on a trade, profession or business in Hong Kong in respect of profits arising in or derived from Hong Kong from such trade, profession or business (excluding profits arising from the sale of capital assets).

Under the Inland Revenue Ordinance (Cap. 112) of Hong Kong (the "**Inland Revenue Ordinance**") as it is currently applied by the Inland Revenue Department, interest on the Notes may be deemed to be profits arising in or derived from Hong Kong from a trade, profession or business carried on in Hong Kong in the following circumstances:

- (i) interest on the Notes is derived from Hong Kong and is received by or accrues to a corporation carrying on a trade, profession or business in Hong Kong;
- (ii) interest on the Notes is derived from Hong Kong and is received by or accrues to a person, other than a corporation, carrying on a trade, profession or business in Hong Kong and is in respect of the funds of that trade, profession or business;
- (iii) interest on the Notes is received by or accrues to a financial institution (as defined in the Inland Revenue Ordinance) and arises through or from the carrying on by the financial institution of its business in Hong Kong; or
- (iv) interest on the Notes is received by or accrues to a corporation, other than a financial institution, and arises through or from the carrying on in Hong Kong by the corporation of its intra-group financing business (within the meaning of section 16(3) of the Inland Revenue Ordinance).

Sums received by or accrued to a financial institution by way of gains or profits arising through or from the carrying on by the financial institution of its business in Hong Kong from the sale, disposal and

redemption of Notes will be subject to profits tax. Sums received by or accrued to a financial institution by way of gains or profits arising through or from the carrying on by the financial institution of its business in Hong Kong from the sale, disposal and redemption of Notes will be subject to Hong Kong profits tax. Sums received by or accrued to a corporation, other than a financial institution, by way of gains or profits arising through or from the carrying on in Hong Kong by the corporation of its intra-group financing business (within the meaning of section 16(3) of the Inland Revenue Ordinance) from the sale, disposal or other redemption of Notes will be subject to Hong Kong profits tax.

Sums derived from the sale, disposal or redemption of Bearer Notes will be subject to Hong Kong profits tax where received by or accrued to a person, other than a financial institution, who carries on a trade, profession or business in Hong Kong and the sum has a Hong Kong source unless otherwise exempted. The source of such sums will generally be determined by having regard to the manner in which the Notes are acquired and disposed of.

In certain circumstances, Hong Kong profits tax exemptions (such as concessionary tax rates) may be available. Investors are advised to consult their own tax advisors to ascertain the applicability of any exemptions to their individual position.

Stamp Duty

Stamp duty will not be payable on the issue of Bearer Notes provided either:

- (i) such Bearer Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (ii) such Bearer Notes constitute loan capital (as defined in the Stamp Duty Ordinance (Cap. 117) of Hong Kong).

If stamp duty is payable it is payable by the Issuer on the issue of Bearer Notes at a rate of 3 per cent., of the market value of the Notes at the time of issue. No stamp duty will be payable on any subsequent transfer of Bearer Notes.

No stamp duty is payable on the issue of Registered Notes. Stamp duty may be payable on any transfer of Registered Notes if the relevant transfer is required to be registered in Hong Kong. Stamp duty will, however, not be payable on any transfers of Registered Notes provided that either:

- (i) such Registered Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (ii) the Registered Notes constitute loan capital (as defined in the Stamp Duty Ordinance (Cap. 117) of Hong Kong).

Notwithstanding the above, no stamp duty is payable on the transfer of a regulatory capital security (as defined in Section 17A of the Inland Revenue Ordinance).

If stamp duty is payable in respect of the transfer of Registered Notes it will be payable at the rate of 0.2 per cent., (of which 0.1 per cent., is payable by the seller and 0.1 per cent., is payable by the purchaser) normally by reference to the consideration or its value, whichever is higher. In addition, stamp duty is payable at the fixed rate of HK\$5 on each instrument of transfer executed in relation to any transfer of the Registered Notes if the relevant transfer is required to be registered in Hong Kong.

The Arranger and each Dealer have, in an amended and restated programme agreement (such programme agreement as modified and/or supplemented and/or restated from time to time, the "**Programme Agreement**") dated 13 May 2020, agreed with the Issuer a basis upon which they or any of them may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under "Form of the Notes" and "Terms and Conditions of the Notes". Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986.

In addition, until 40 days after the commencement of the offering of any identifiable tranche of Notes, an offer or sale of Notes within the U.S. by any dealer (whether or not participating in the offering of such tranche of Notes) may violate the registration requirements of the Securities Act.
