It continues to state that each SRO will continue to pay the Commission a rate of \$18.40 per million for covered sales occurring on charge dates through Feb. 15, 2016, and a rate of \$21.80 per million for covered sales occurring on charge dates on or after Feb. 16, 2016. It also mentions that the assessment on security futures transactions will remain unchanged at \$0.0042 for each round turn transaction. The release concludes with contact information for the Office of Interpretation and Guidance in the Commission's Division of Trading and Markets, and a statement that the Commission will issue further notices as appropriate to keep the public informed of developments relating to fees under Section 31. The page ends with three hash symbols (###).
